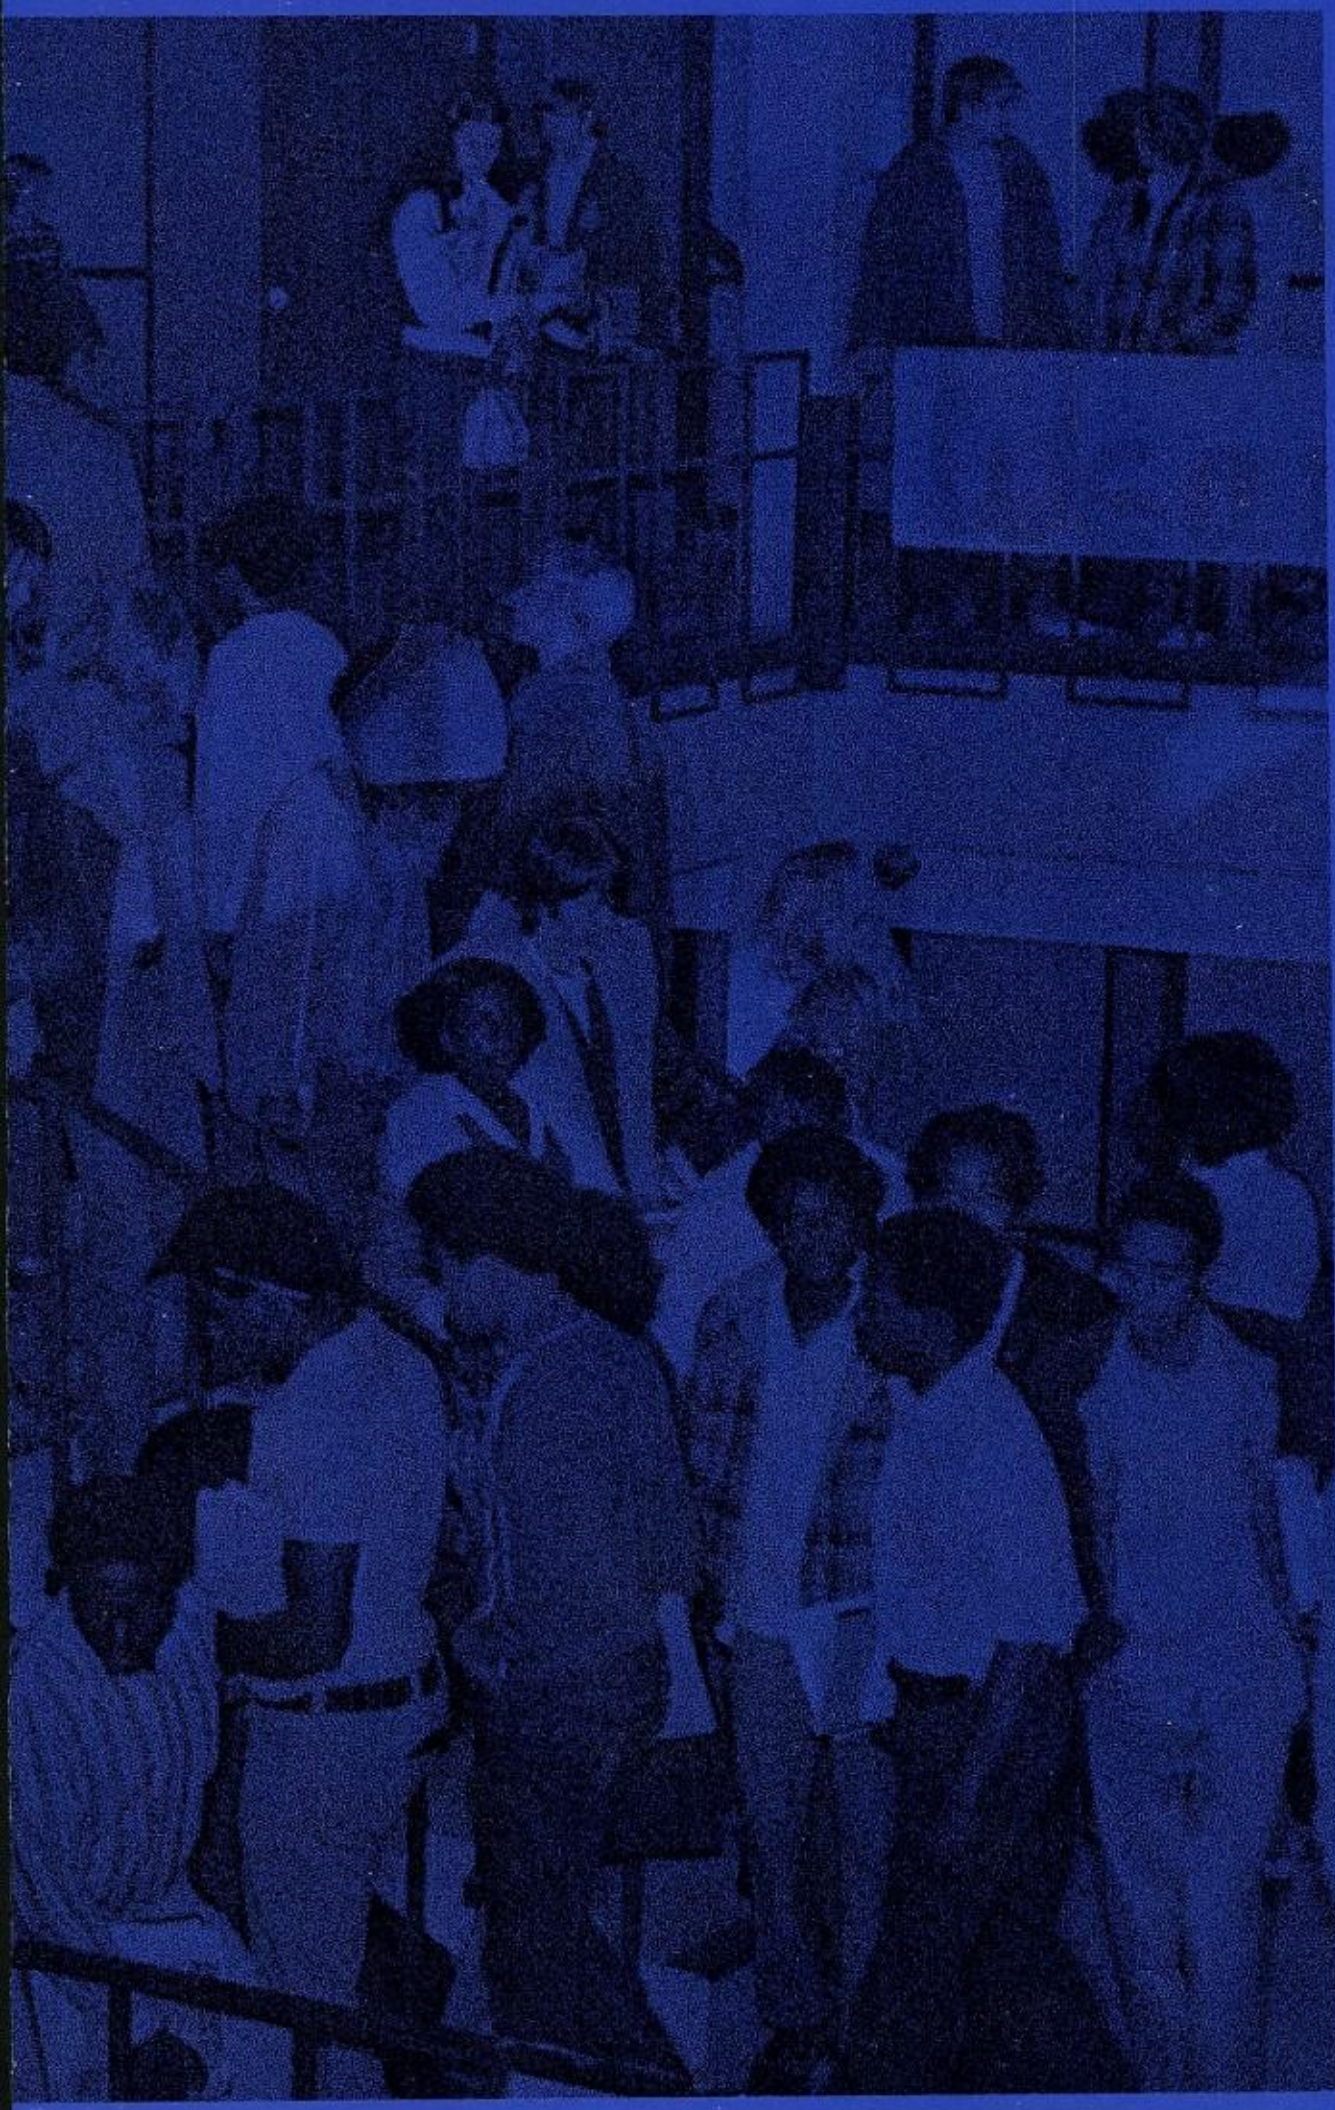
A TIME TO



LEARN . . . 16

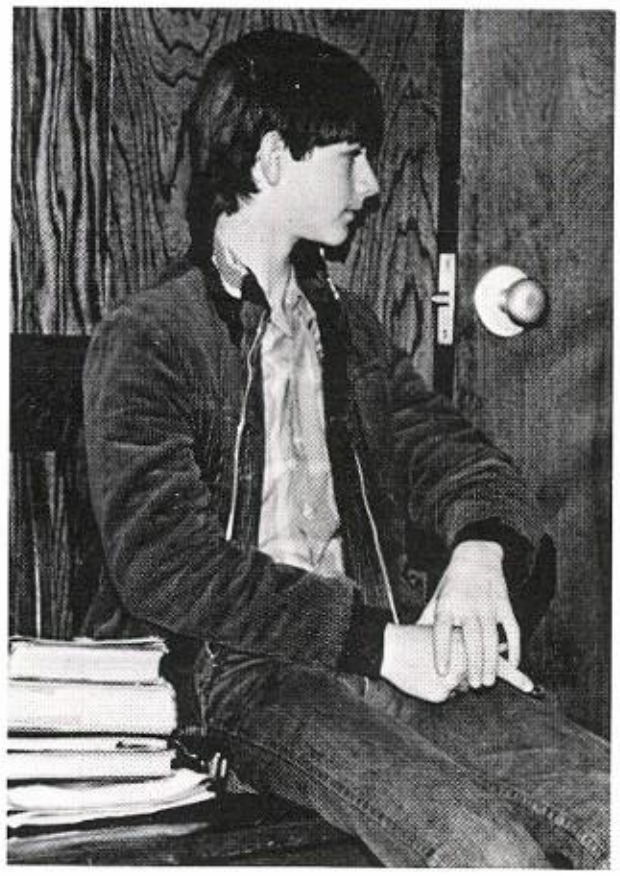
PARTICIPATE . . . 68

COMPETE . . . 114

BE OURSELVES . . . 144

SERVE . . . 196

The end of second period finds the John Tyler halls crowded, the stairs congested.



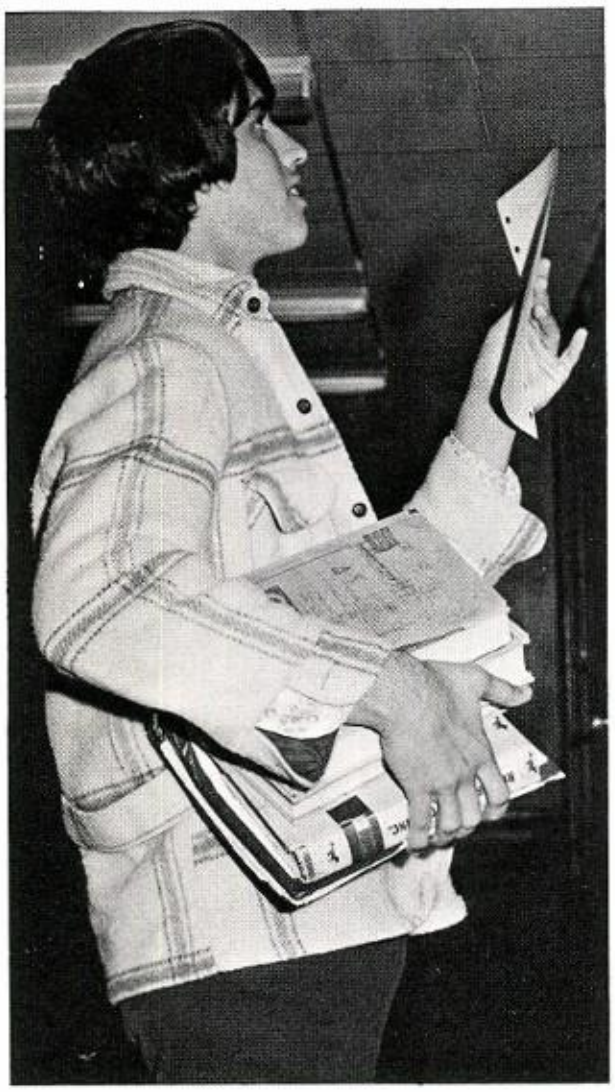
To wonder,
an effort having no end.
To strive,
gaining wisdom through understanding.
To face,
both the good and the bad . . .

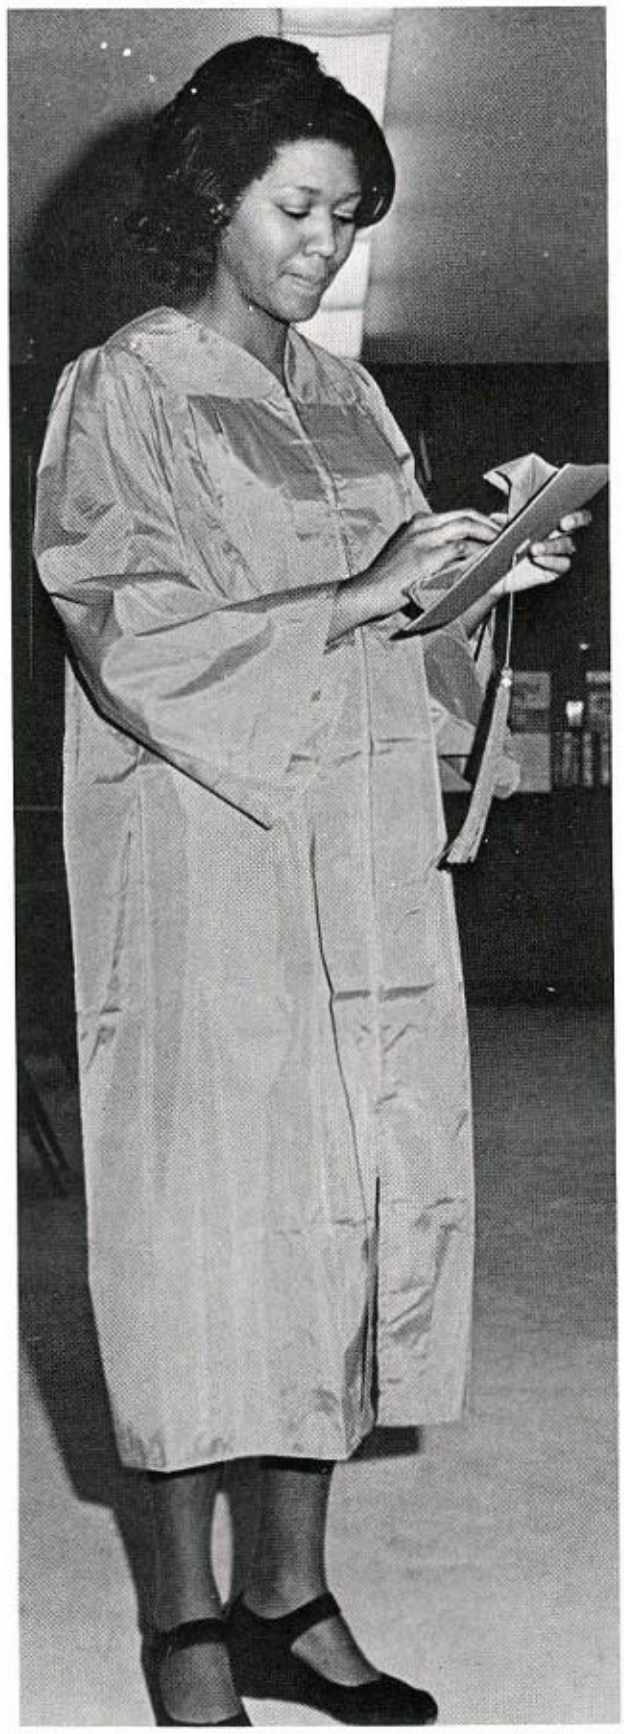
. . . SEEK

Above Left: Sophomore Ricky McArthur waits patiently in the counselors office.
Above: For the first time in three years, Tyler receives a considerable amount of snow which causes all of the public schools to be closed for a day.
Far Left: A pack of lions meet in the patio for the pep rally before the Nacadoches game on Saturday.
Left: Debbie Fancher takes a break from the routine to peek at the weather outside.

To become
a totally different person
in three short years.

A time to experience
new thoughts, new trends,
and new feelings.
Not only to exist,
but to improve, and to accept.





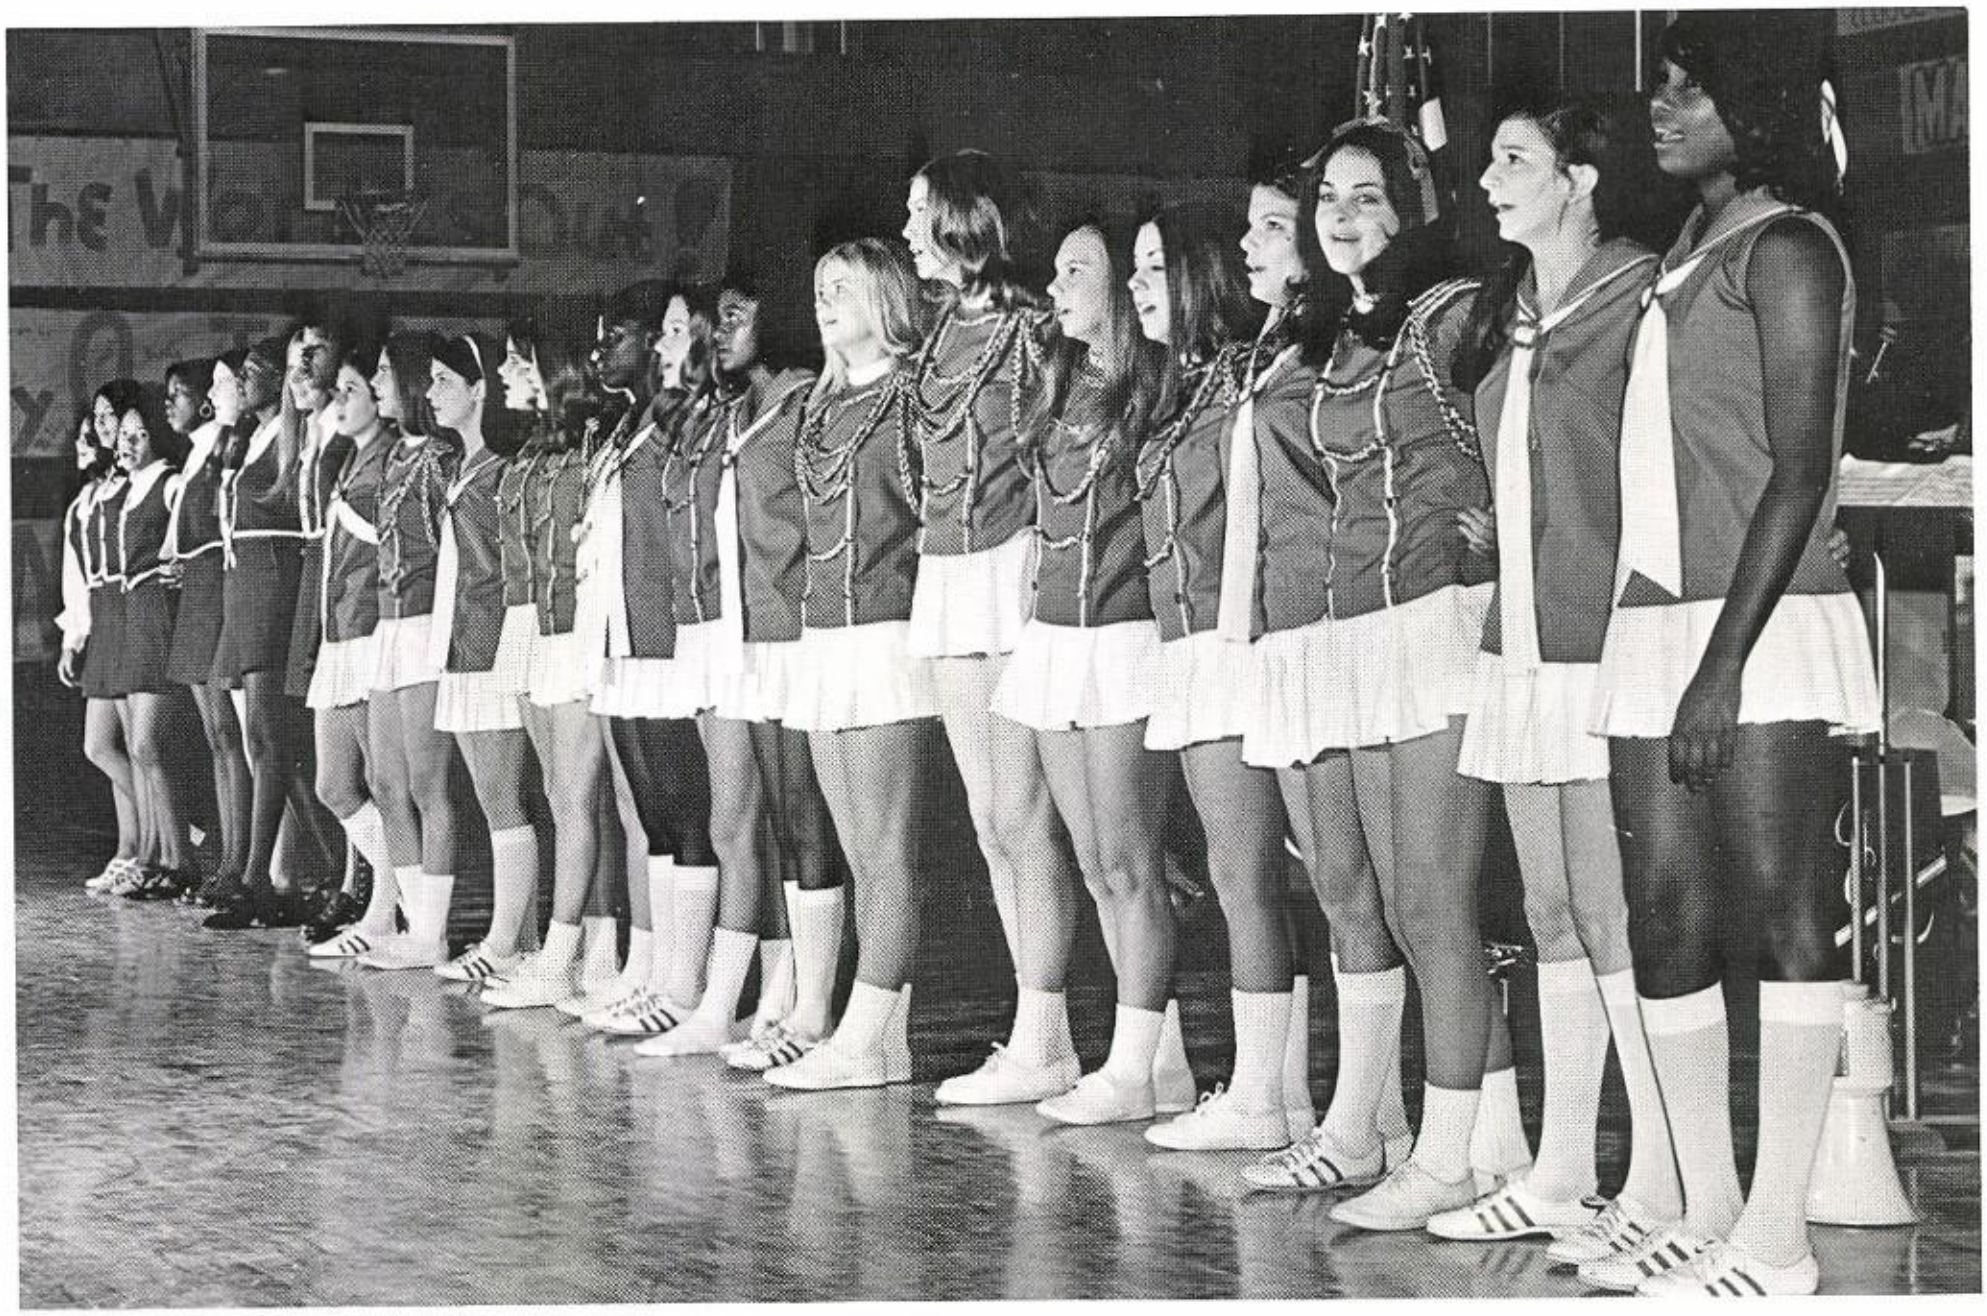
Far Left: Sophomore Gary McCaslin confirms his room number on the first day of school.
Above Left: Junior Agnes Kyle replaces her reference manual used in a business machine study.
Above: Senior Wilma Henry tries on cap and gown in preparation for graduation.

. . . GROW

Above: Another day comes to a close.

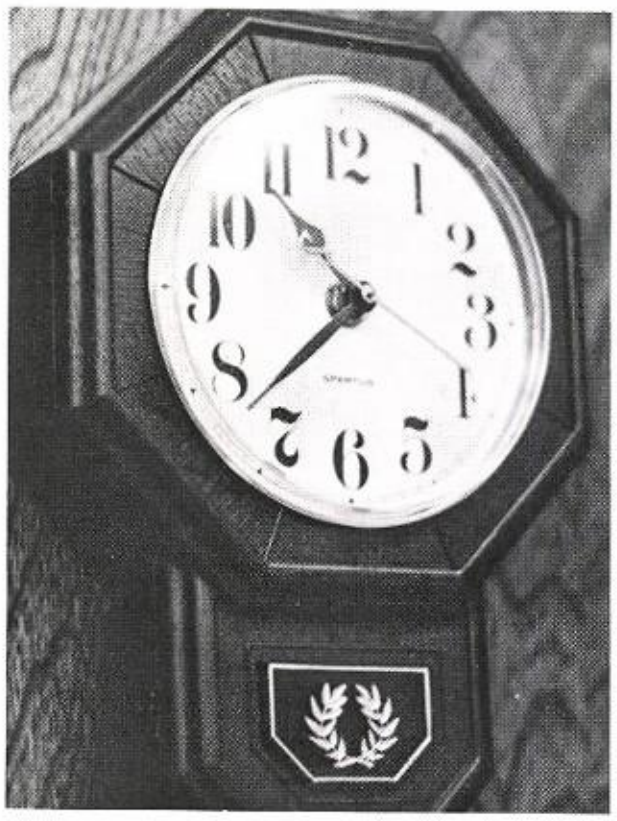
To meet,
finding that our way is not
the only way, and maybe,
there is a better one.
To touch,
learning of life,
responsibilities, duties,
and rewards . . .
a time to come together.

. . . ENCOUNTER

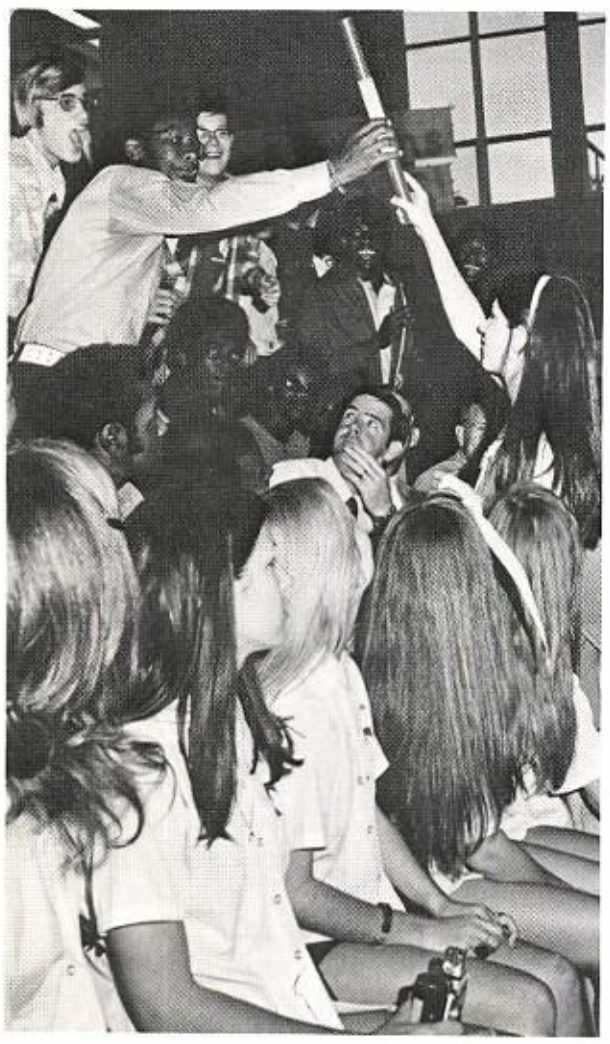


Above Left: Marching Lions Ronnie Jackson and Mary Jo Andrews show their pride in their own way.
Far Left: Lynn King (44), Bruce Messer (33), Mark Conway (68), and Stan Allred (63) lead the raging Lions through the run-through after halftime at the Lee Confrontation.
Above: Band Majorettes, Cheerleaders, and Drill Team officers follow the tradition of forming the customary line to sing the school Alma Mater at the conclusion of the Marshall pep rally.
Left: It seems that Cherri Clark has fooled Karen Jacobson into carrying her books with the "ole backache" trick after an assembly.

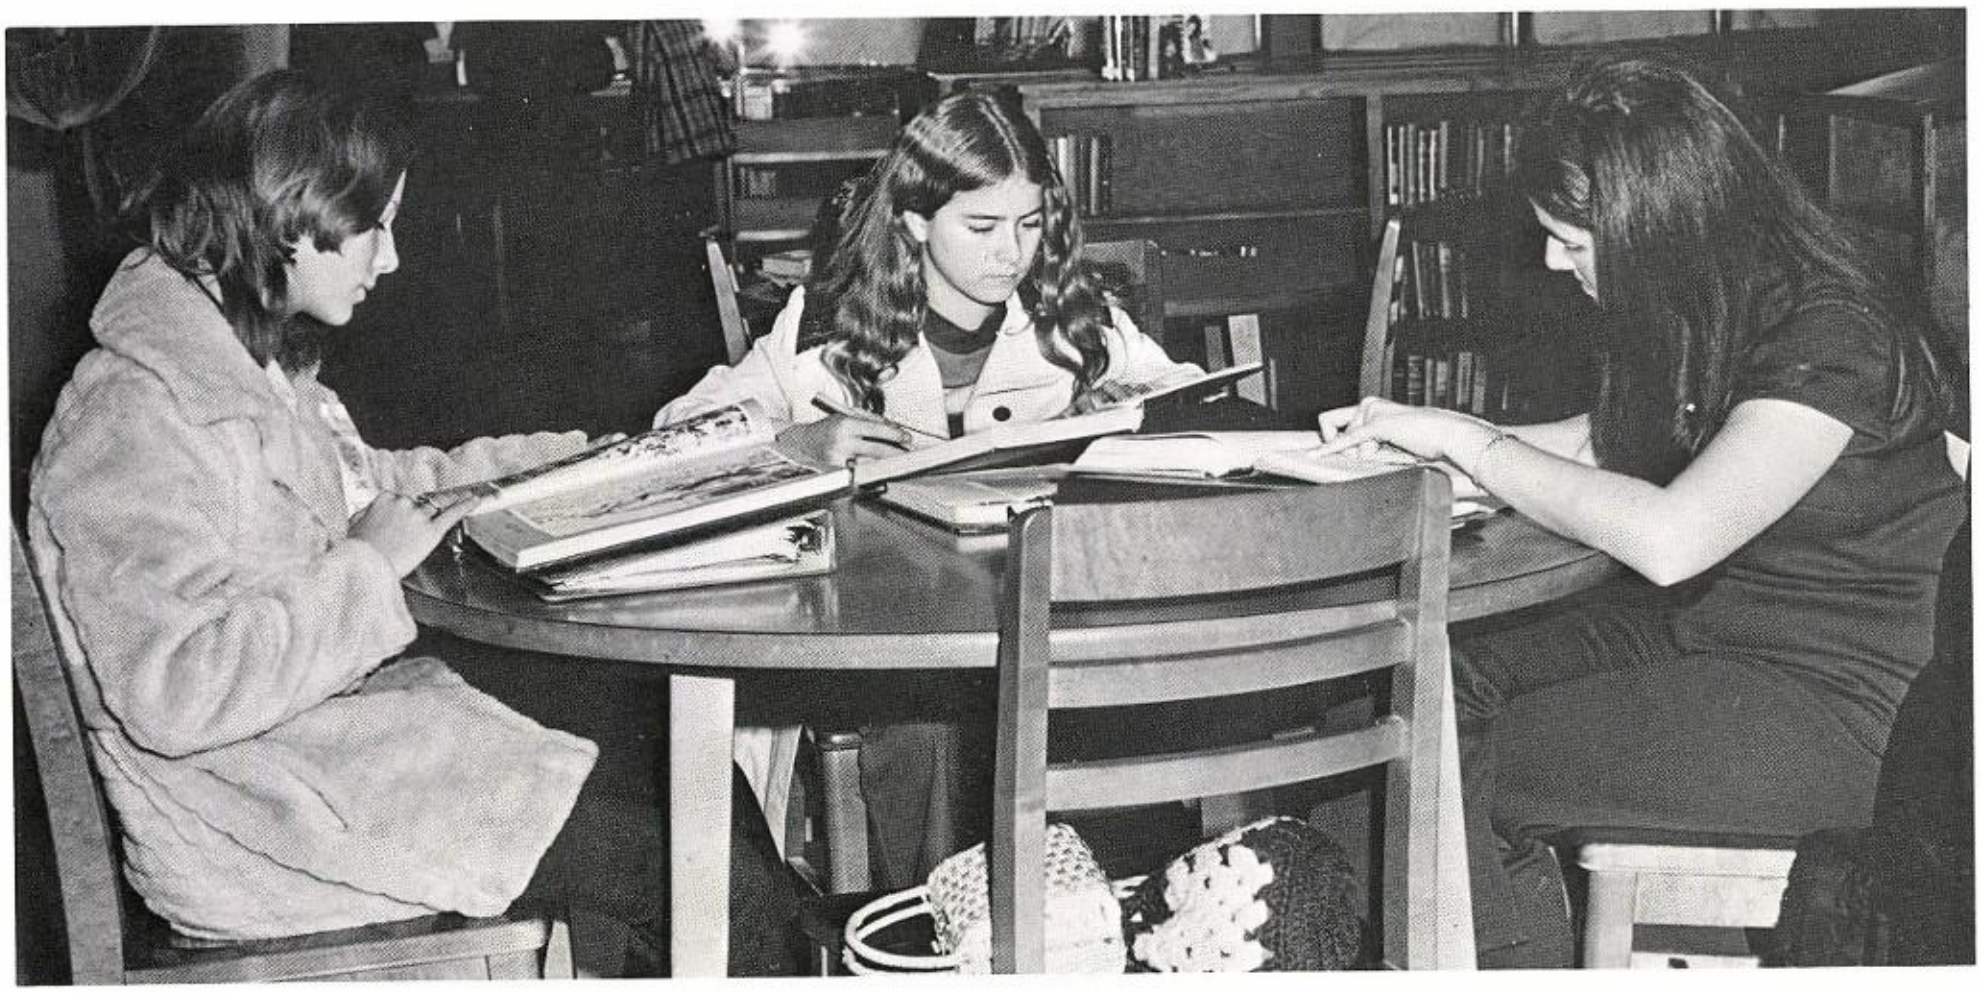
To endure,
accepting that which
cannot be changed,
and working for that which can.
A time to conform, to join, to belong,
and a time to refuse to accept
established conventions—
Hosting a meeting of the Minds.

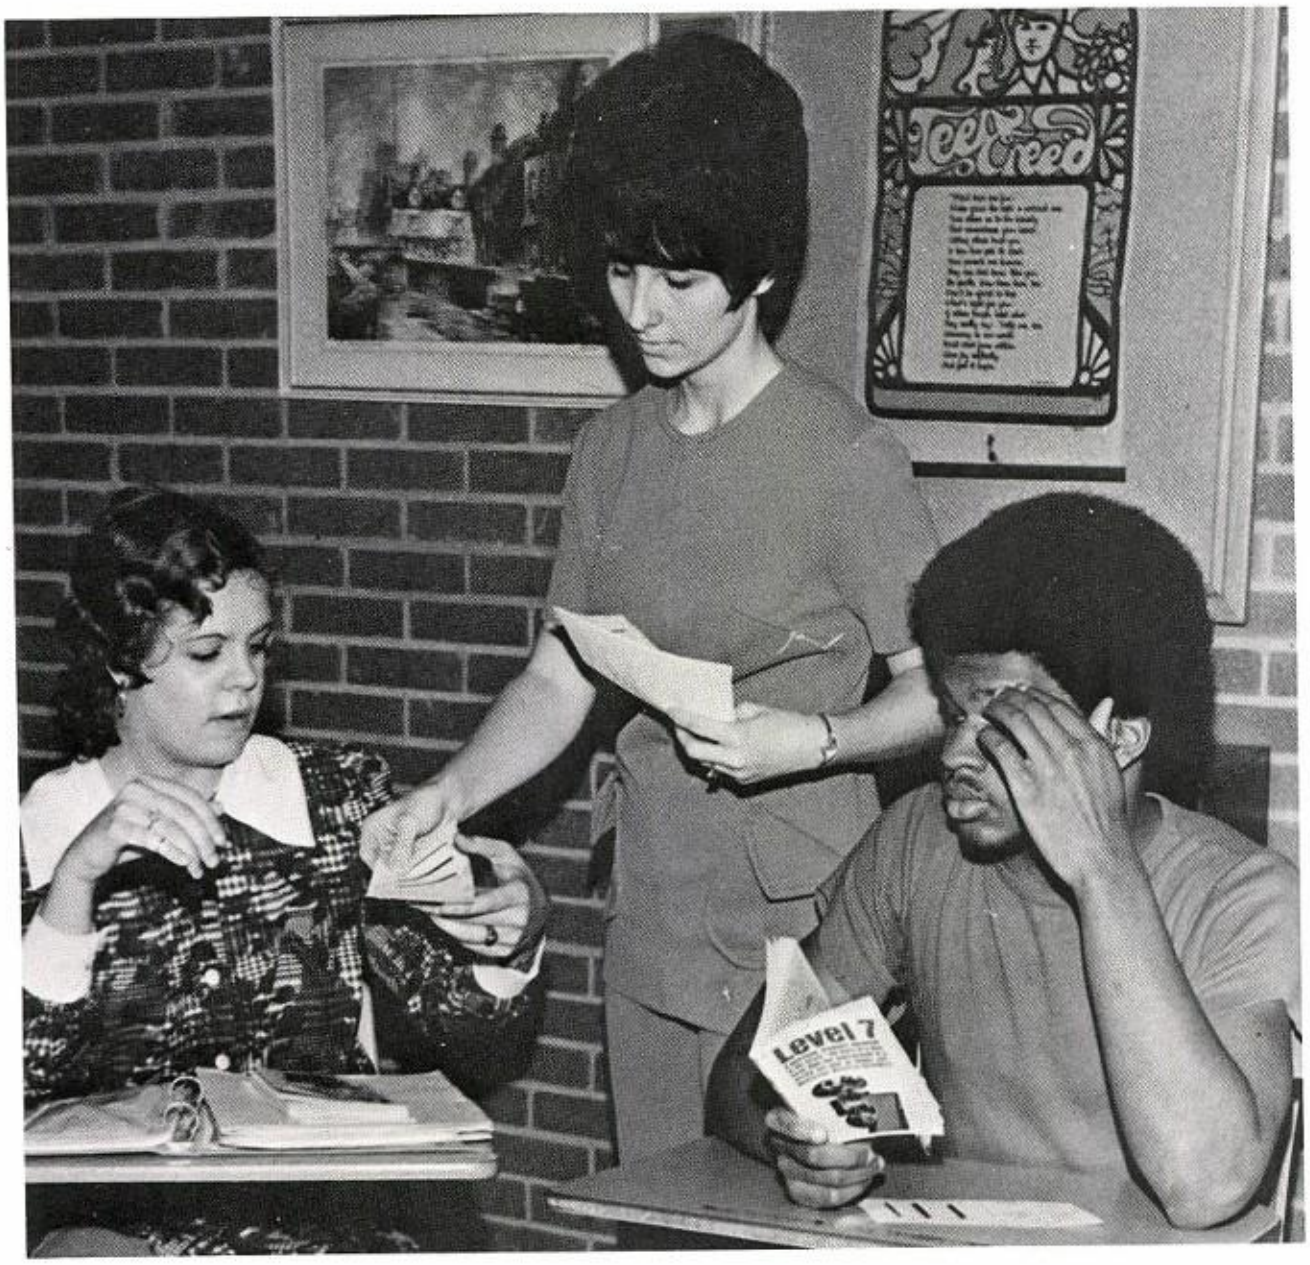


Right: In seven minutes the students in third period will be unleashed.
Far Right: Twirl Major Kathy Glover waits in anticipation for the Rose Parade to begin.
Below: Junior Mike Taylor accepts the weekly "spirit-stick" from cheerleader Susan Stanley as his classmates let out a proud yell.
Below Right: Band Members make sure they have all their equipment as they board the bus for the Texarkana game.

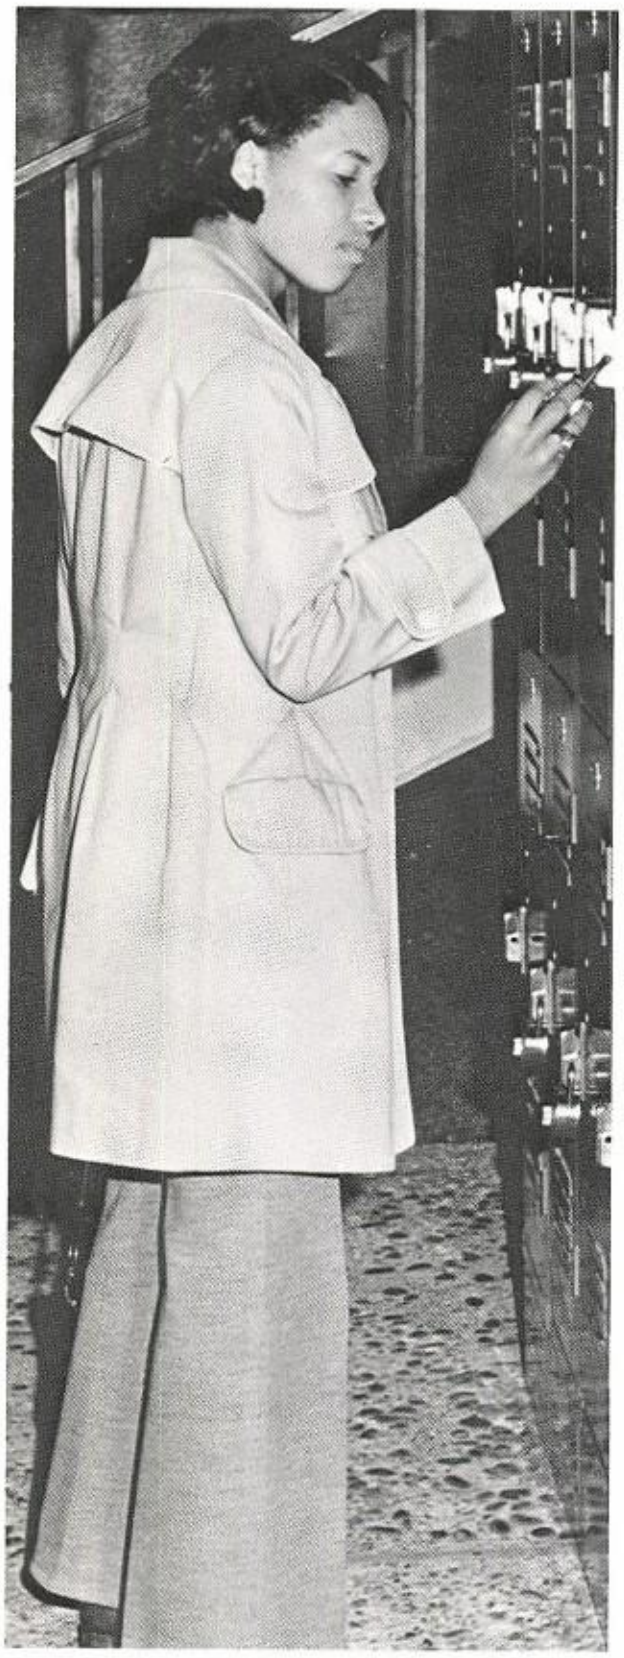


. . . QUESTION



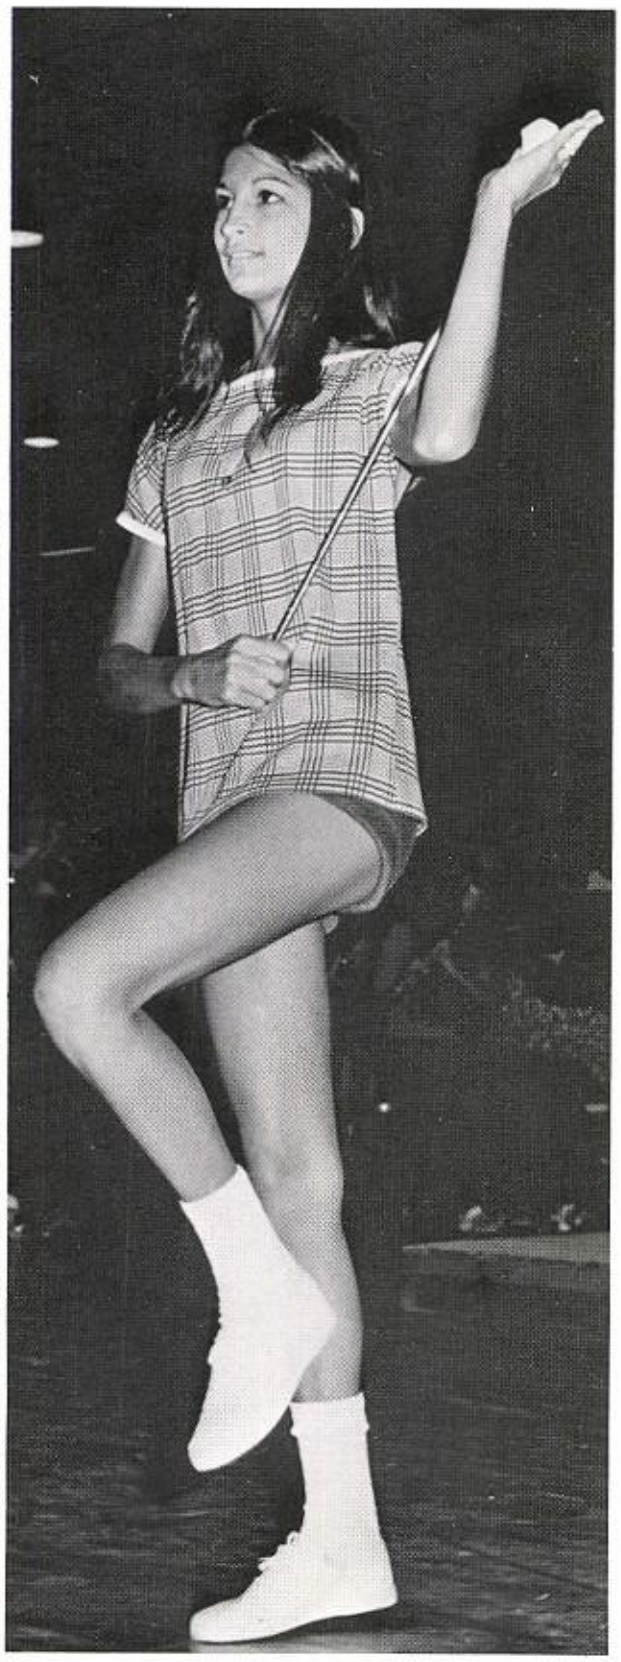


Above: Sally Allen reminisces with an old annual while Sandy Lewis and Kay Cowden prepare for their next class during reading room.
Left: A new day and a new grading find Mrs. Fisher passing out report cards and giving assignments to Angela Craig and James Young.



Time eternal
weaves an endless circle about
our lives.
We endeavor
to become a part, to be involved,
to live . . .
For this time is ours.

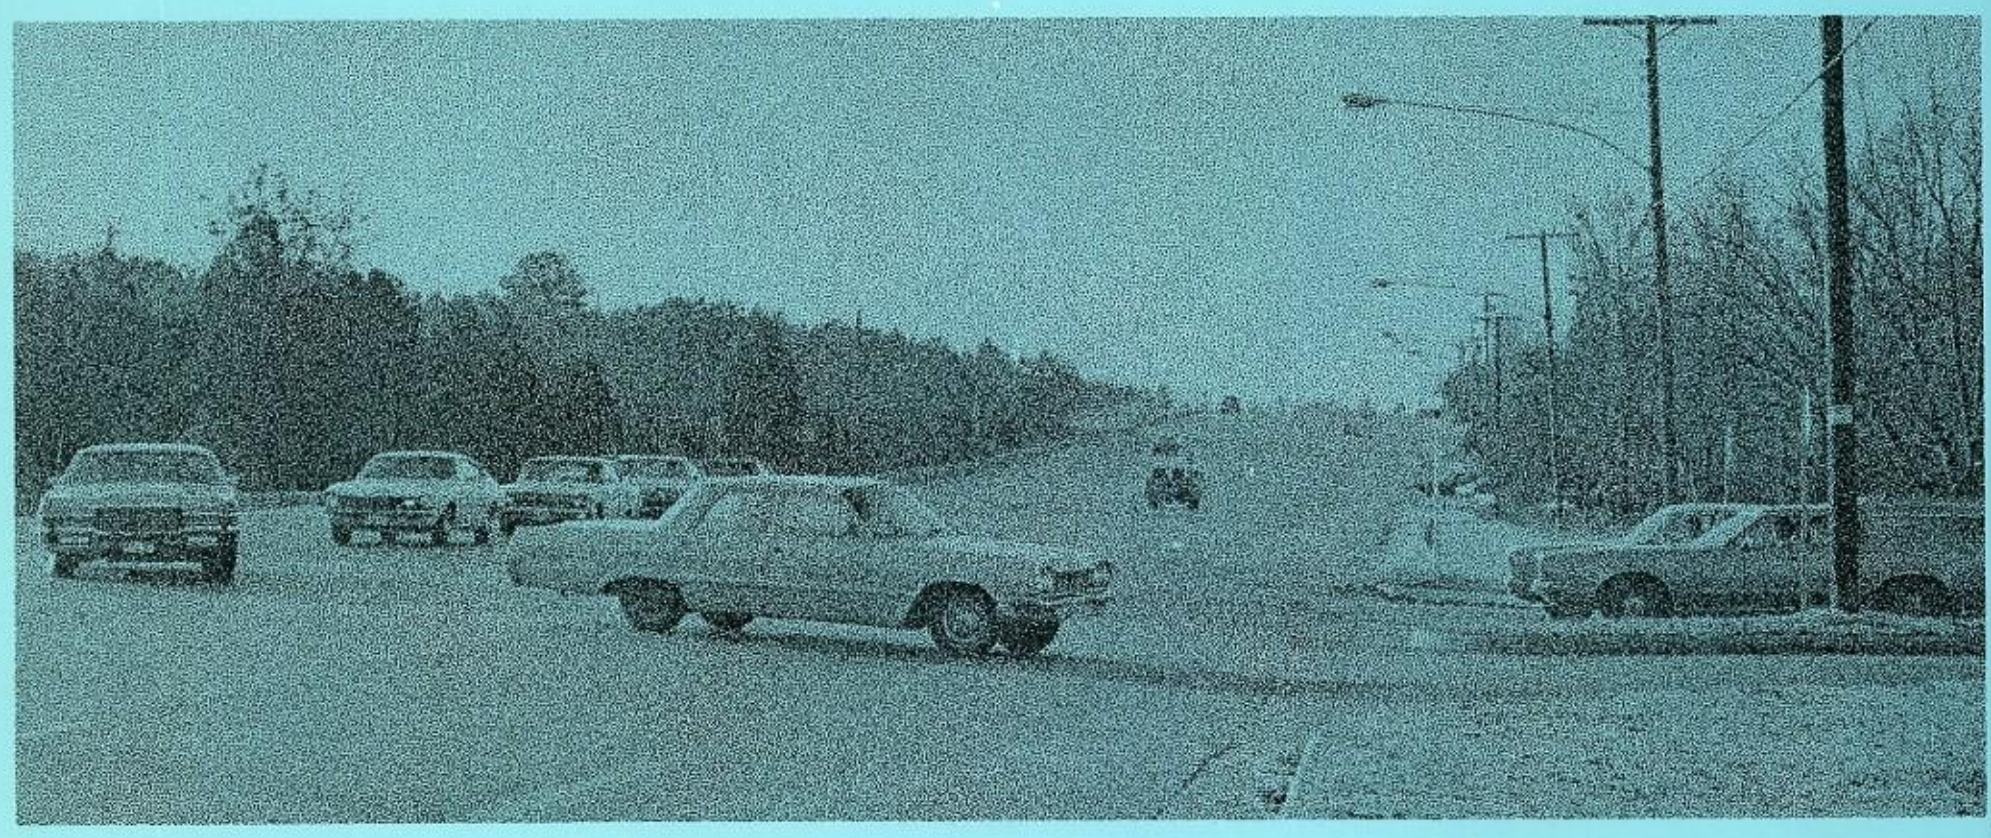
. . . LIVE



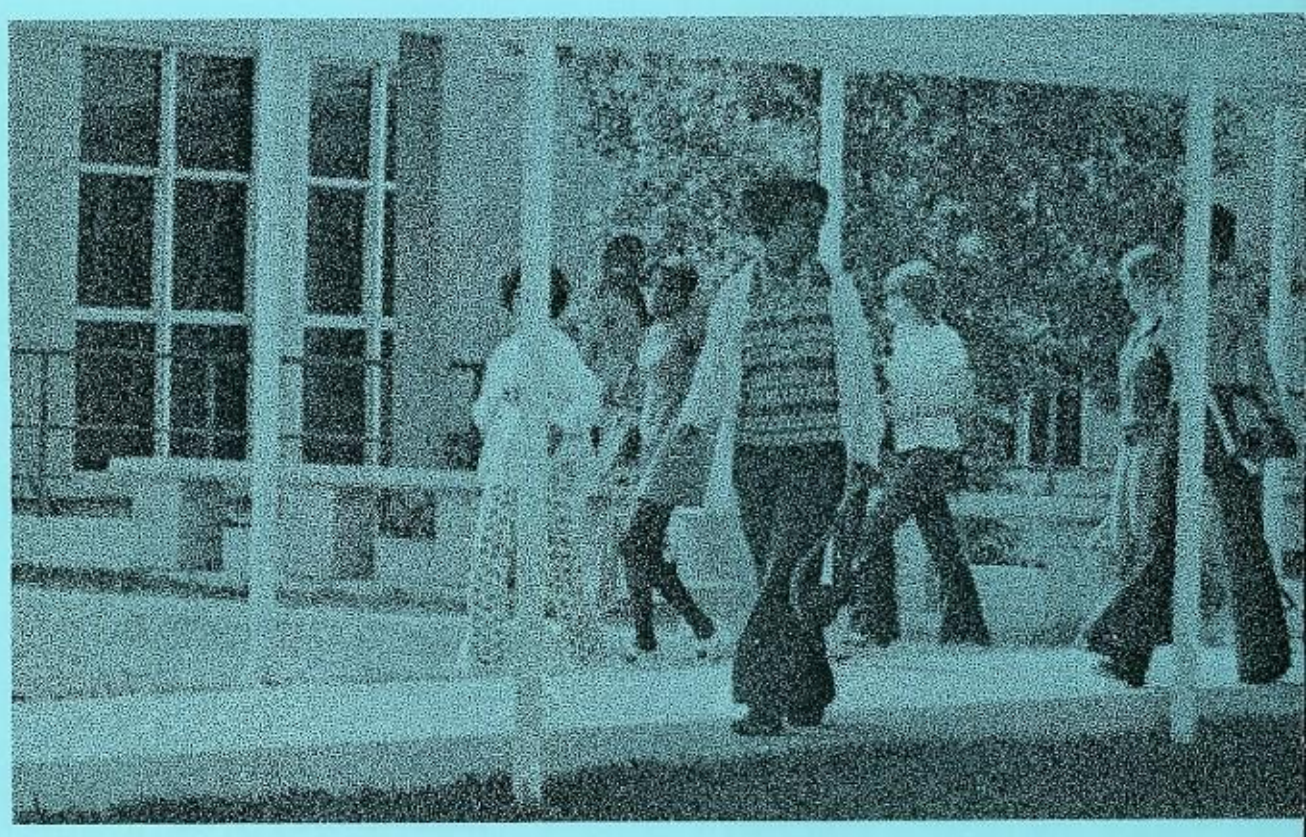
Far Left: Juanita Hancock ponders over newly assigned locker number.
Above Left: Lion football boys: Jim Foster, Coach Bob Finklea, Head Coach "Corky" Nelson, Don Sanders, Andy Cuca, and John Vittitow enter the pep rally with pride and anticipation.
Above: Majorette Chaursley Walding demonstrates a new routine to encourage a victory over Irving.
Above Right: Mike Harvey, Mike Duffy, and other Lion Guards make sure that Big John enjoys ride back to the Library after the exciting Corsicana pep rally.

THIS IS

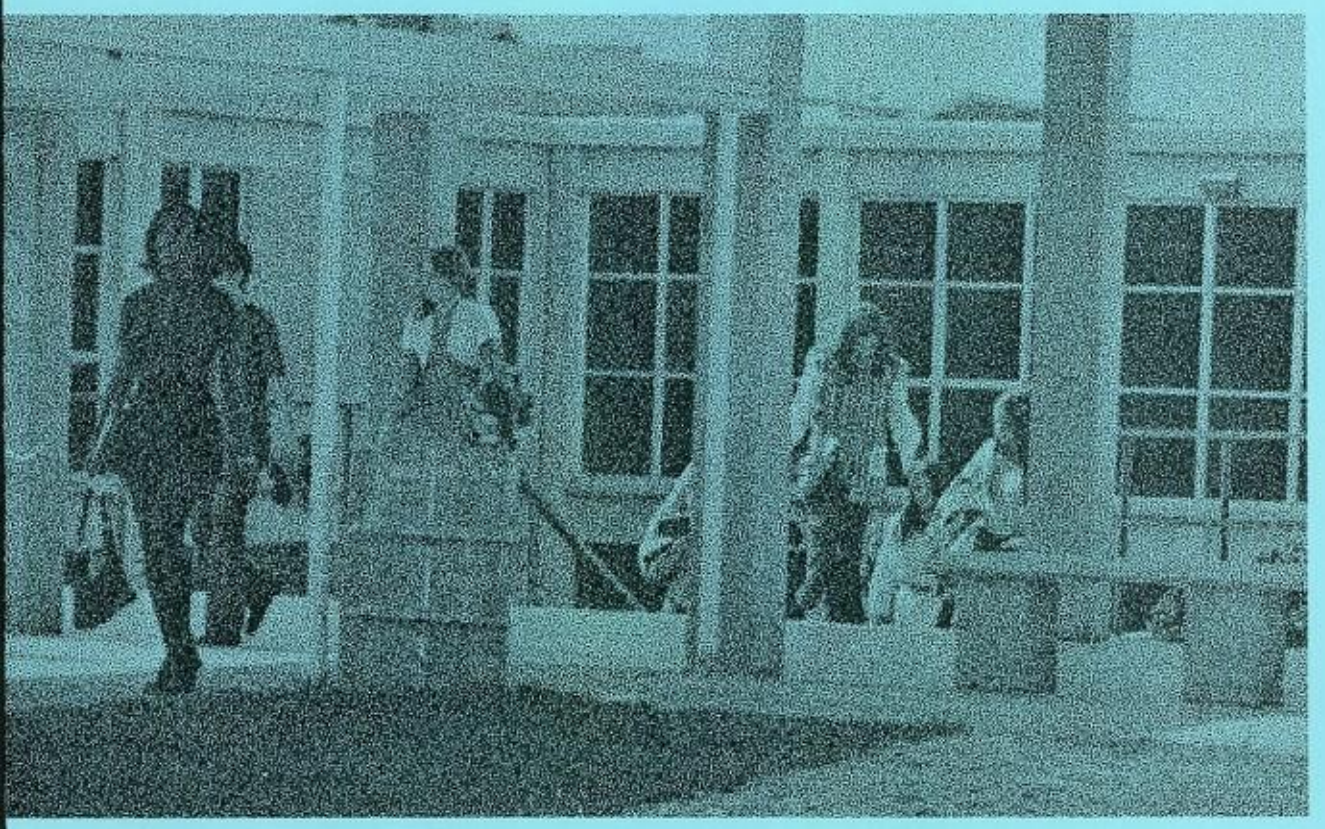
OUR TIME



Above: Its not always easy toget into the parking lot on Monday mornings.
Right: Students hurry out to catch the bus after school.
Below Right: Students that own cars try to avoid the traffic rush while leaving the school.



. . . LEARN



A time to learn, to achieve, and to expand the mind—to reach for goals and to attain the heights that we aim for. A time to gain insight into our own field and to gain the knowledge that we so eagerly desire. A time to communicate and to understand our fellow man and to have a more valuable basis on which to build a better tomorrow.

Principal Faces Much Responsibility

Without the help of the assistant principals, Mr. Alvis Hanna's work would have been impossible. As the principal of John Tyler High, Mr. Hanna had many important decisions and responsibilities to make. He was in charge of curriculum and instruction, as well as setting the budget and determining how money would be allocated. With his main responsibility to the students, Mr. Hanna spent much of his time talking with them and trying to help them solve the many problems facing them. Being the principal was not an easy job; however, it was very rewarding and self-satisfying.

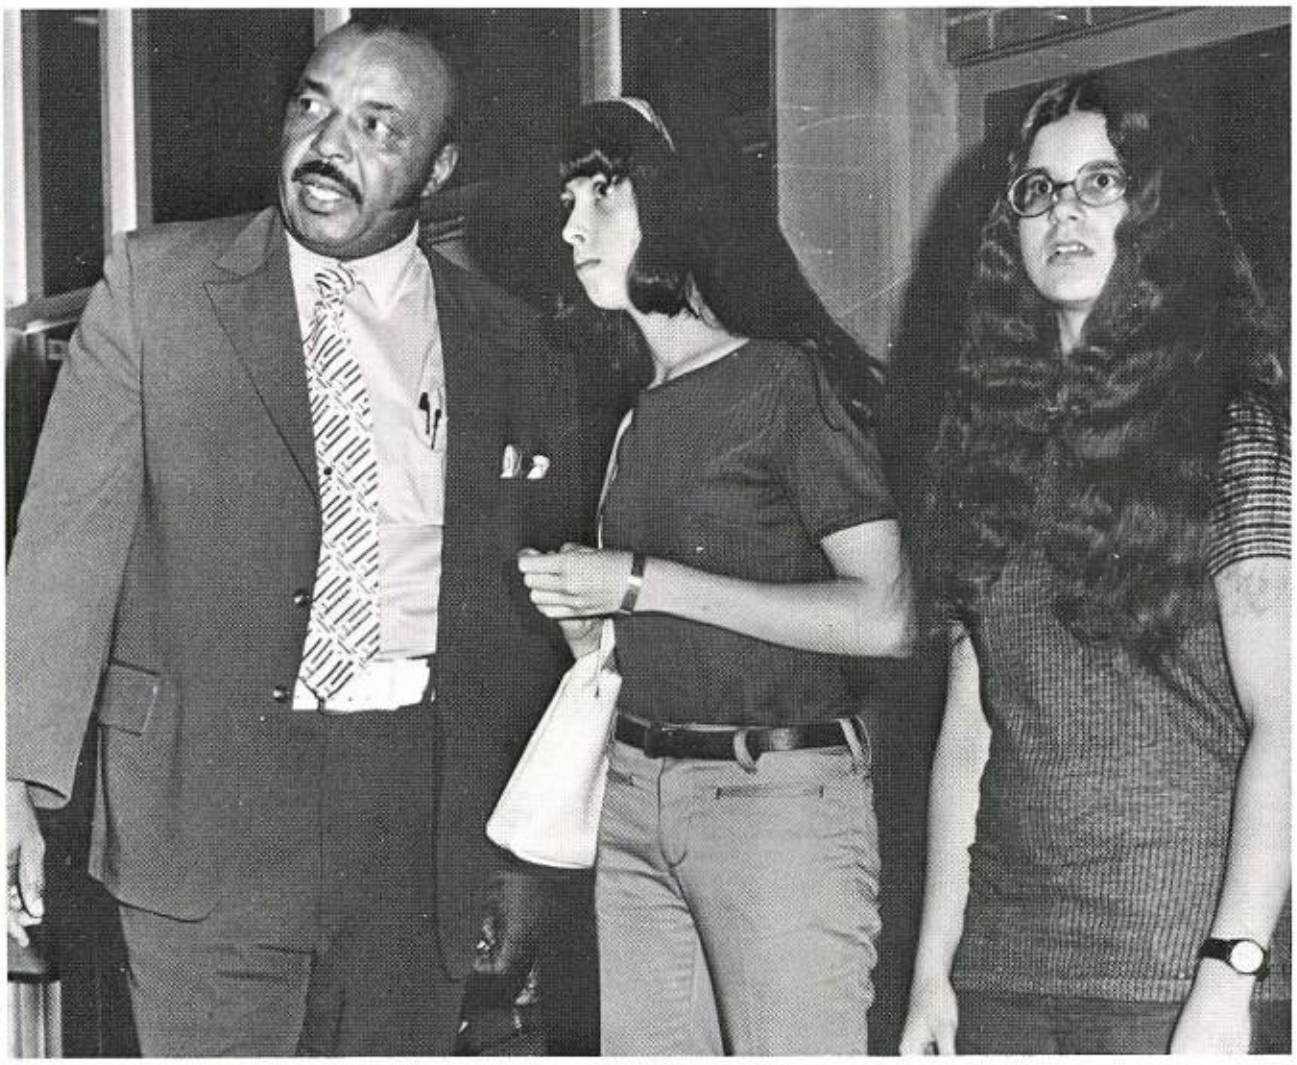
Above: Mr. Alvis Hanna gives some final orientation directions to Mr. James Mayer and Mrs. Roberta Garrison as they are about to fill their positions as new teachers at John Tyler at mid-term.

Assistant Principals Make Changes



Being Mr. Alvis Hanna's chief advisors was a very time consuming job for the assistant principals. As Mr. Clifford Baker began his first year, he brought new ideas to John Tyler. Among the procedures instituted by the assistant principals was requiring that every student have a combination lock on his locker. Gates and fences were, also, put up to protect school property. The assistant principals shared many responsibilities which included accounting for all text books, administering discipline, and taking care of attendance and truancy matters. They were, also, concerned with keeping up the parking lot, grounds and buildings maintenance, as well as school bus problems.

Bond Issue Is Major Concern

1973 held many decisions for the eight School Board members. The Tyler Independent School System was made up of a group of dedicated men who provided an invaluable link between the community and the administration.

Many important issues faced the School Board this year—most significant being the Bond Issue. This issue held the key to other decisions. The School Board, also, pondered whether or not to approve the "quarter-system" of the school year. They carried on their regular work of hiring faculty, adopting new text books, retaining the school lunch program, setting school policy, and various other matters of concern. The work of the school board was endless, but worthwhile.

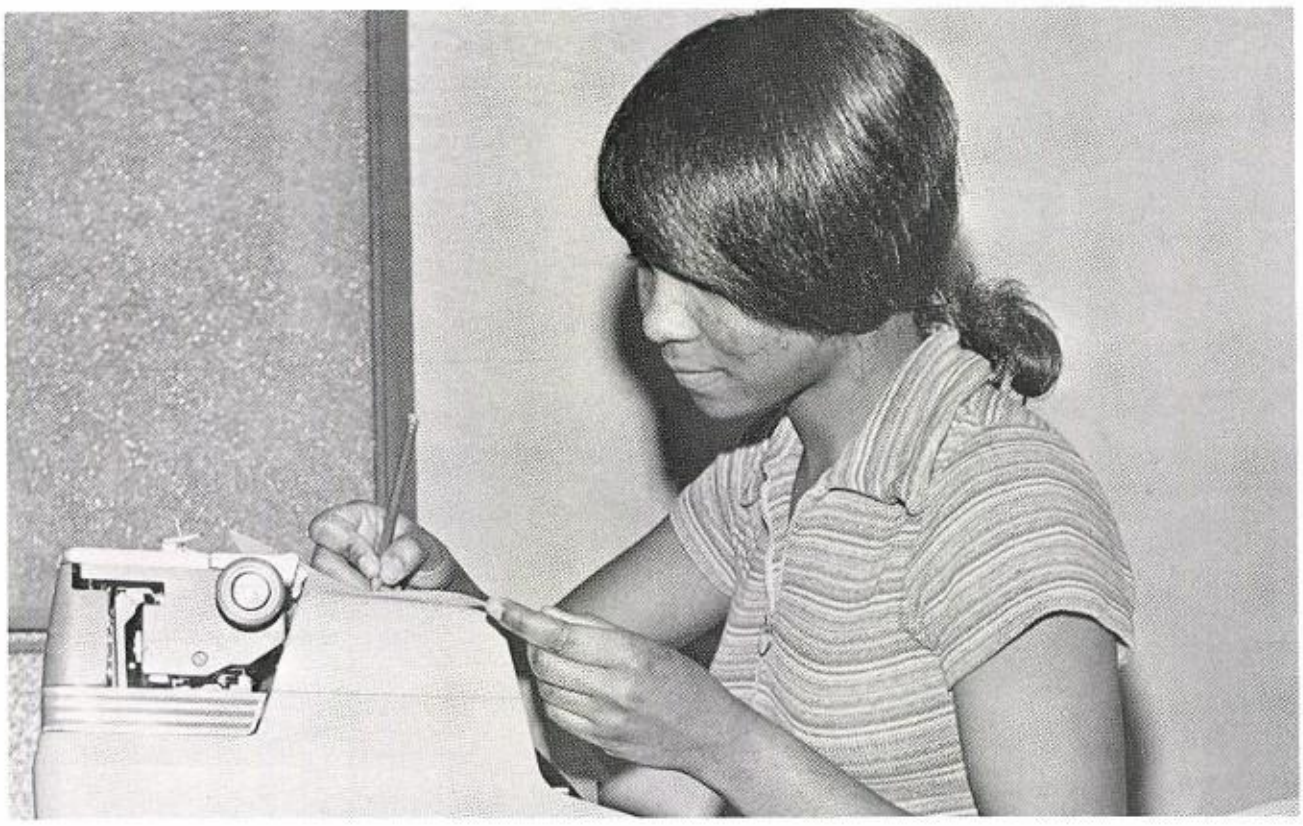
Students Are Given A Chance To Learn With Teachers



Business Has Promising Future

Typing, Bookkeeping, Recordkeeping, Business Machines, Business Law, Shorthand and Clerical Practice were the courses offered through the Business Department at John Tyler. Students who planned to further their education in business worked hard at these courses in order to gain more knowledge as well as to obtain all the experience that they could possibly acquire.

Students Show Signs Of Self Expression

Creativity, imagination, originality and interpretation highlighted the art department at John Tyler. Students in the art classes at John Tyler sought to express themselves in many ways by learning to use the different medias of art. Working with pastels, charcoal, oils, pen and ink, water colors, and acrylics were the many ways of using the skills of art.

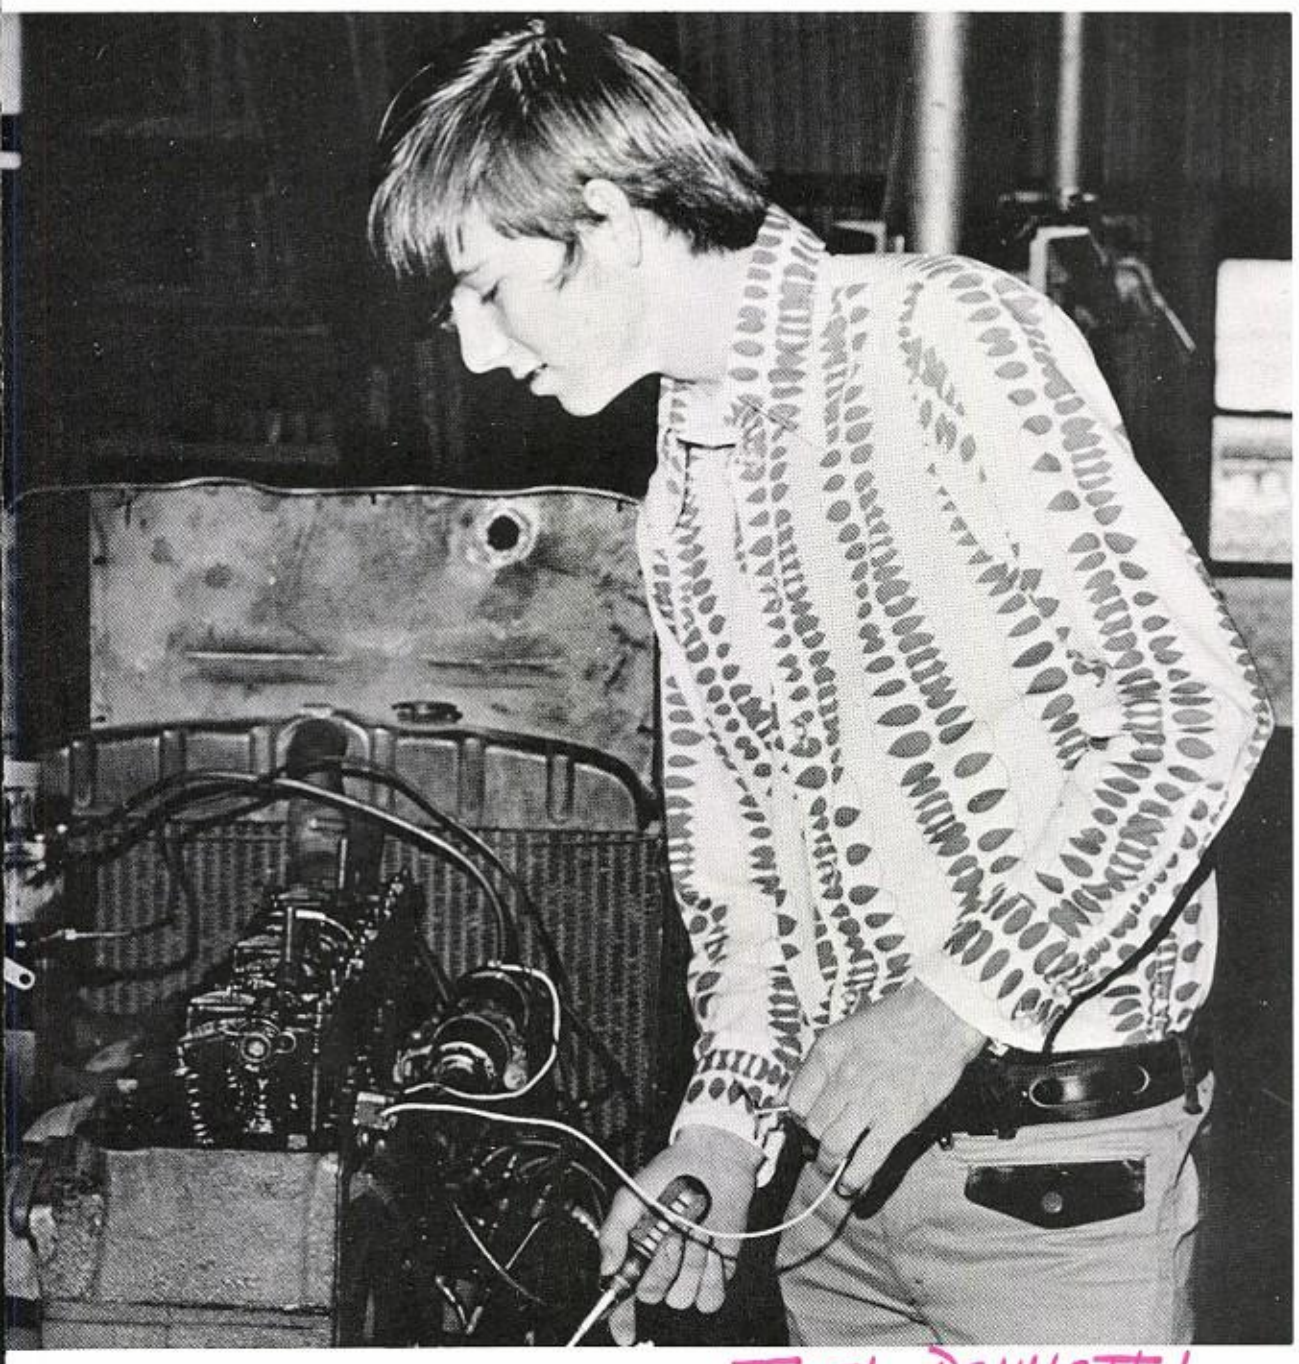
Mechanics Gain Woman's Touch



Approximately 6,550,128 cars are being driven on the roads of the United States. To prepare young men to face the problem of broken down cars, John Tyler offered Automobile Mechanics I and II. The Mechanics II garage was located at Emmett Scott, while Mechanics I had a garage at John Tyler. To solve the dilemma of broken down cars, the students involved in Auto Mechanics learned to build up engines. They also learned to correctly diagnose the problems a car might have had. In addition to this, they learned new skills in Automotive body repair. However, Auto Mechanics was not only limited to boys. This year John Tyler viewed its first female mechanic with grease up to her elbows. Auto Mechanics equipped students to go out into the world; meeting the problems of our generation, and solving them.

Community Helps Train Students

One of the most important fields is that filled by the Secretaries. Most offices would be lost without one. In order to prepare those students who were interested, John Tyler offered Vocational Office Education. The classwork consisted of following individualized training plans. All the students worked on a different project according to their jobs. The students learned to operate adding machines, printing and rotary calculators, as well as the keypunch. They also learned many office techniques such as letter composition, machine dictation, shorthand, and filing procedures. Business English and Math were also a part of the curriculum. Besides the classroom instruction, the students trained on the job and were required to turn in a weekly job report. They were also visited on the job once a month by the teacher. All the study and training prepared the students for the Civil Service Exam.

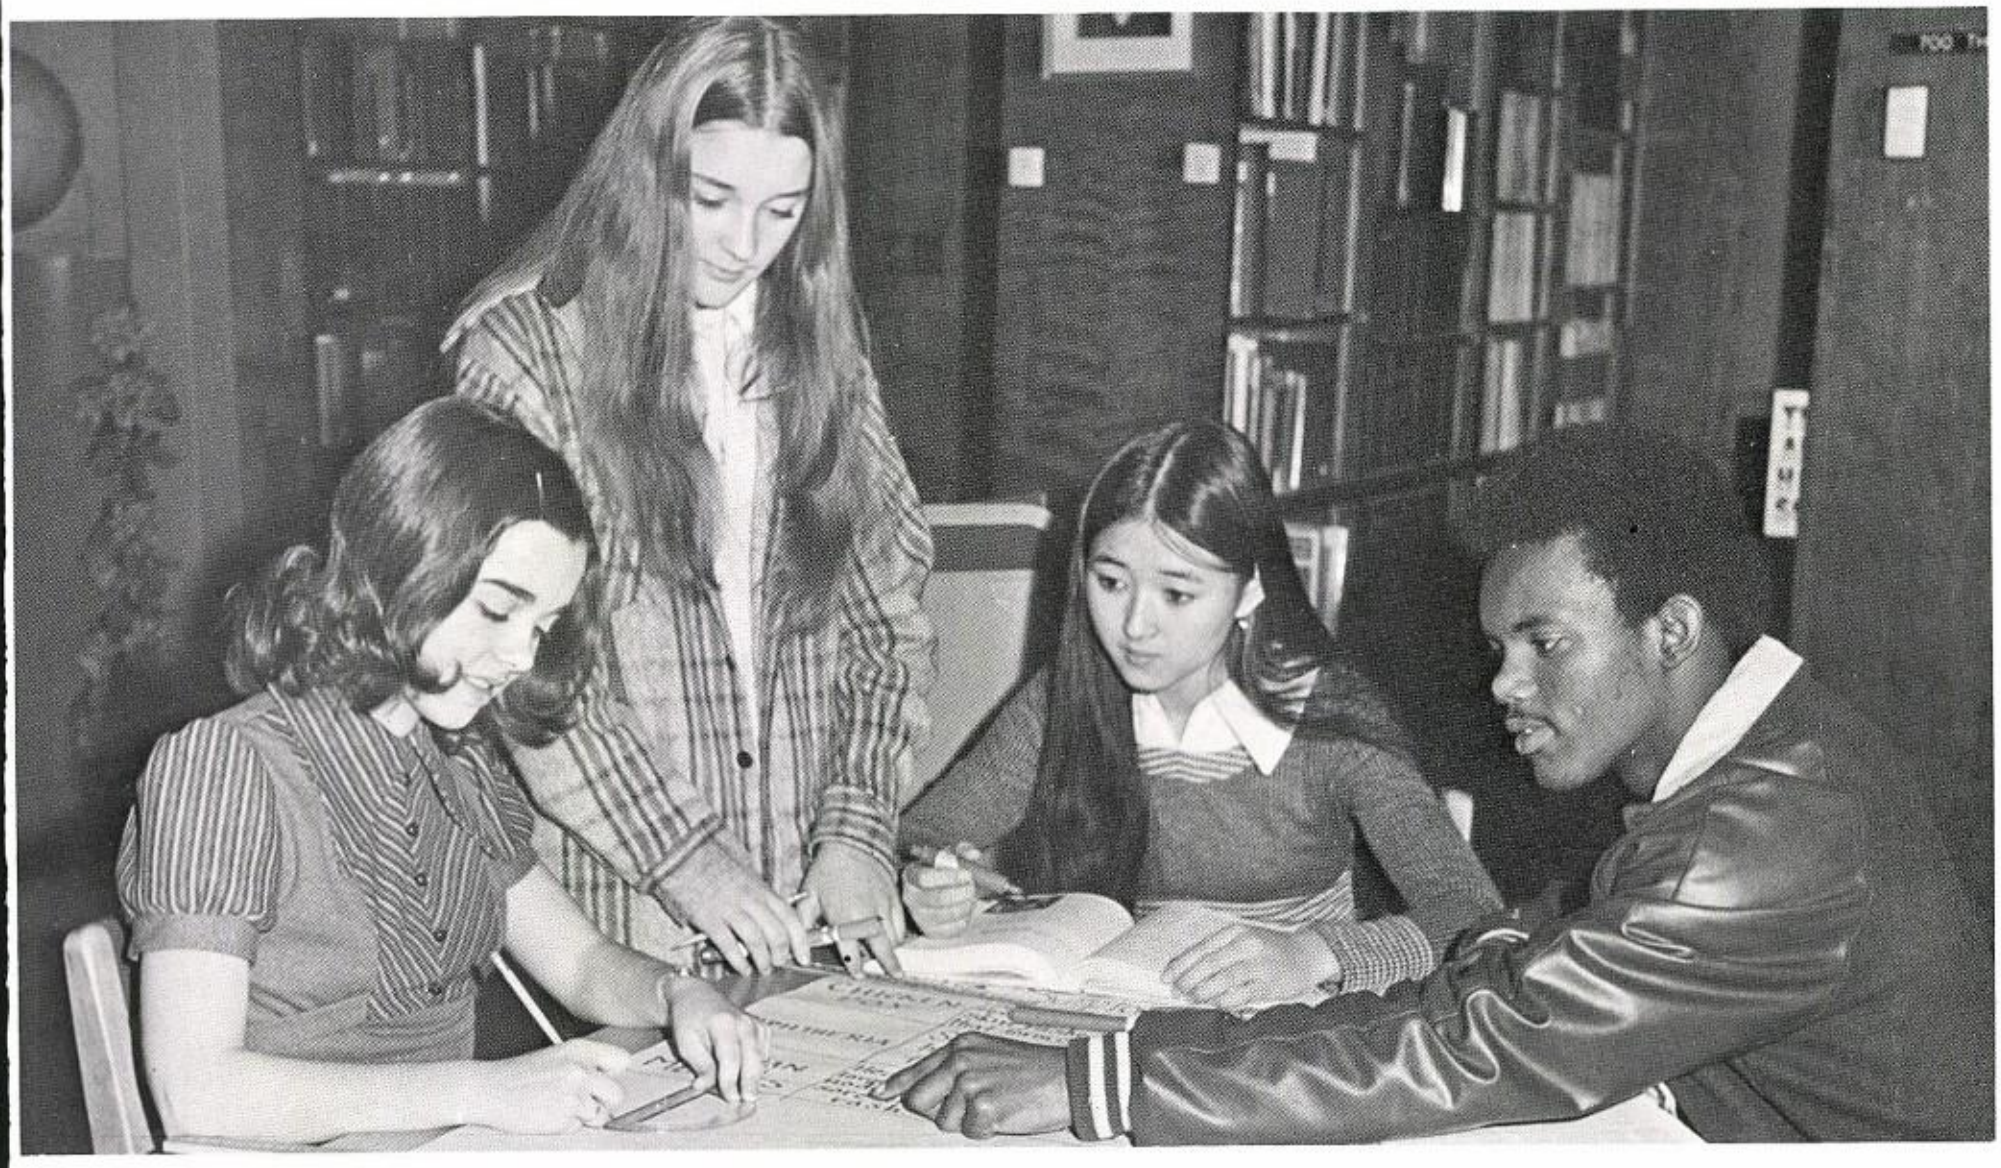
Science Plays Vital Role

Biology, chemistry, physics, and electronics were the courses offered by the science department at John Tyler. Doing lab work consisting of dissecting insects and small prey and working with chemicals in chemistry were many activities that students participated in.



Top: Glynn Cato, Danny Walters, Lynn Hamilton, Michaela Beasley, and Frank Freeman work diligently at a lab activity.

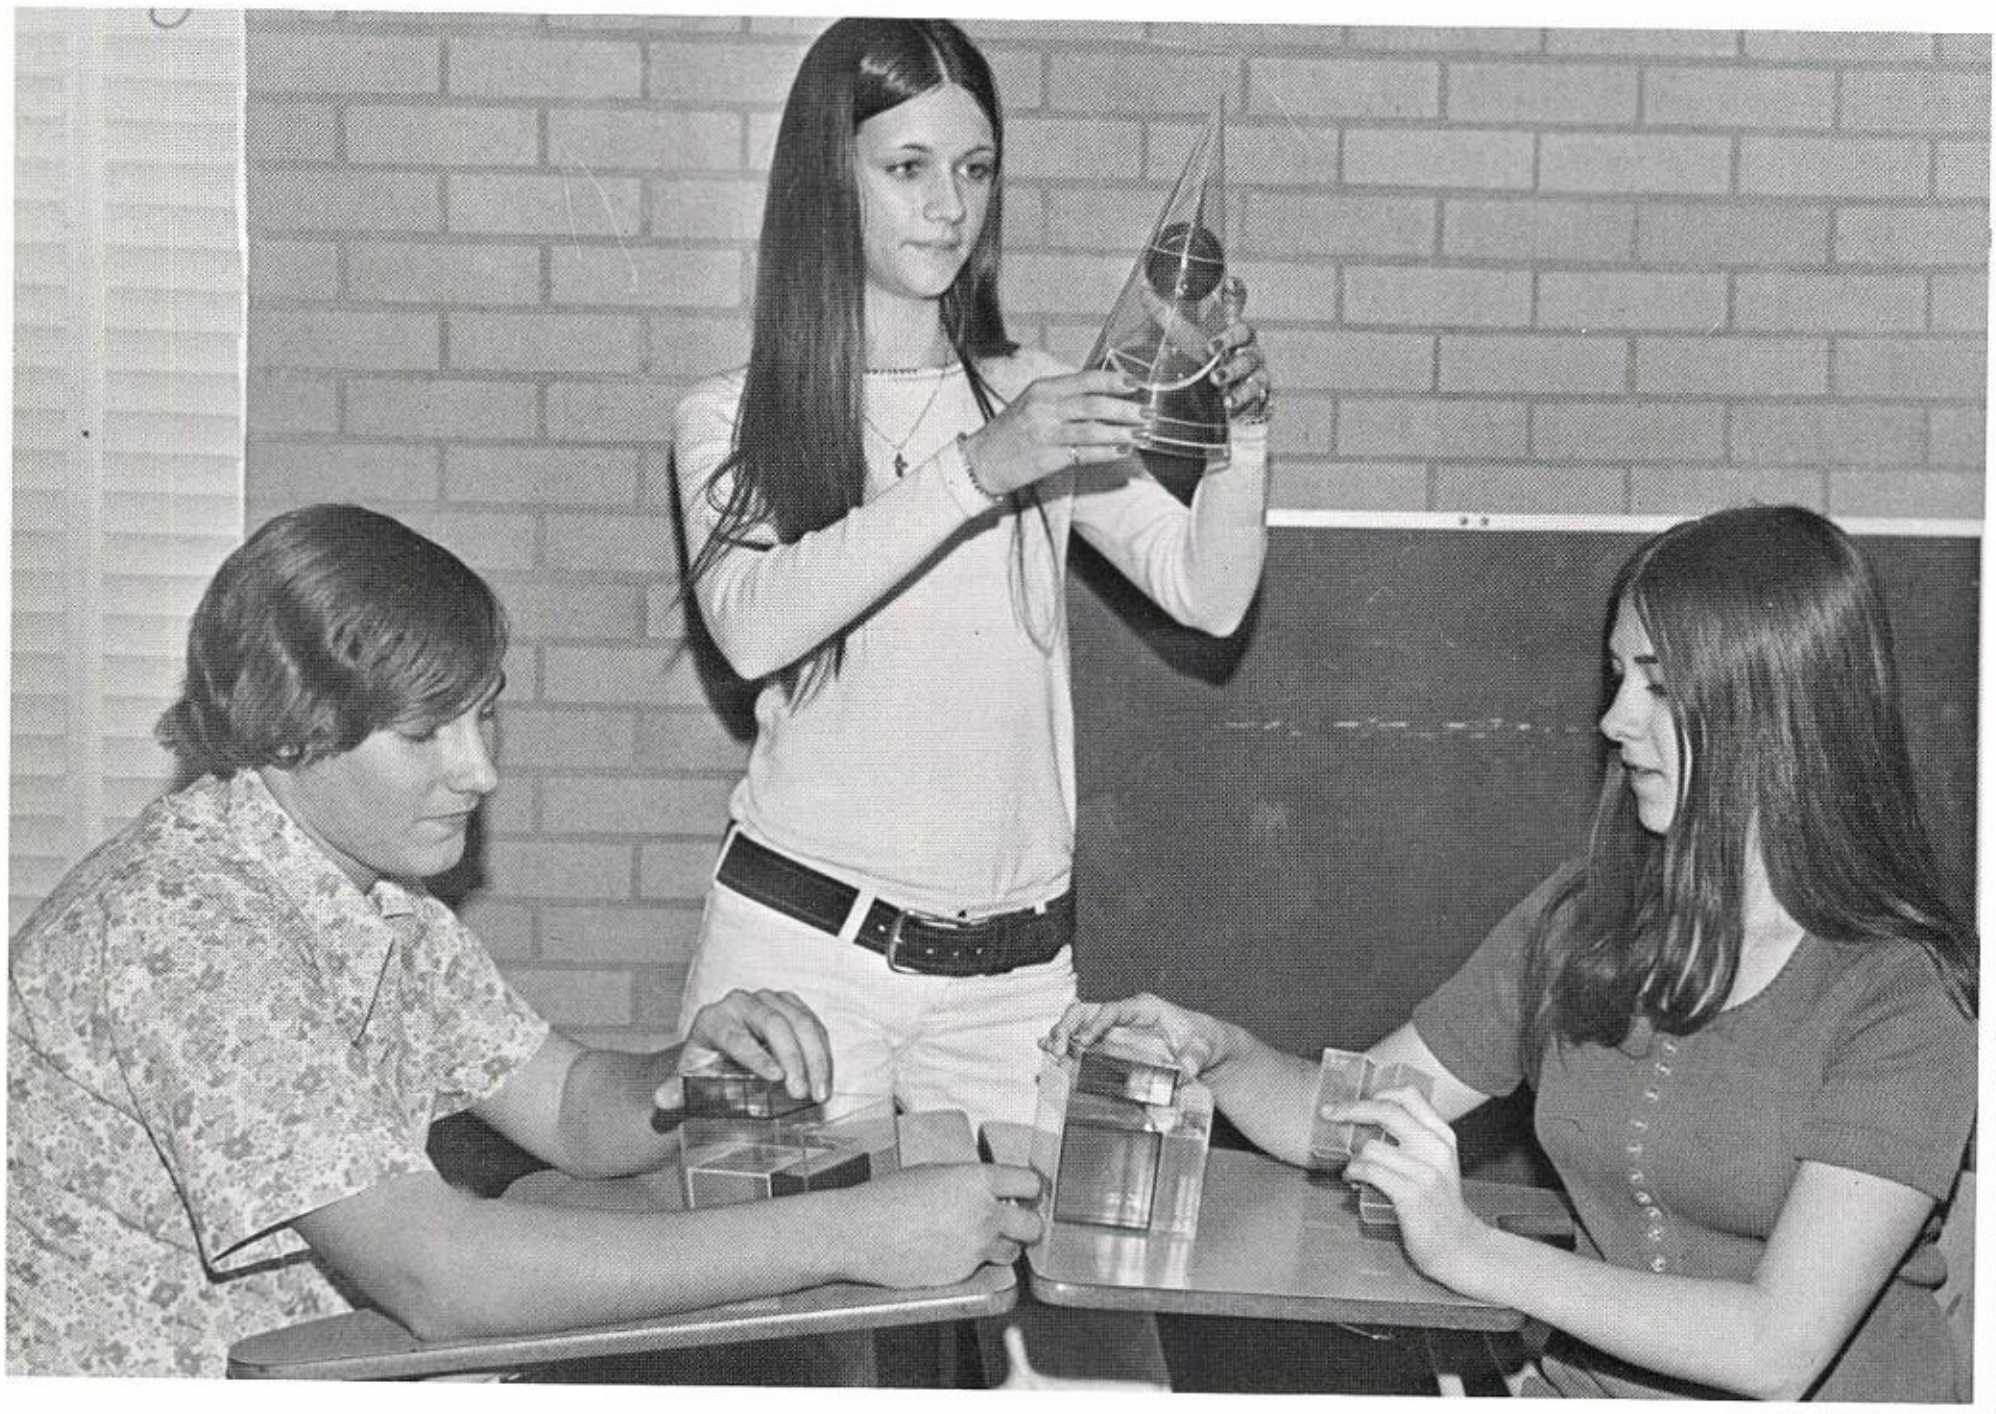
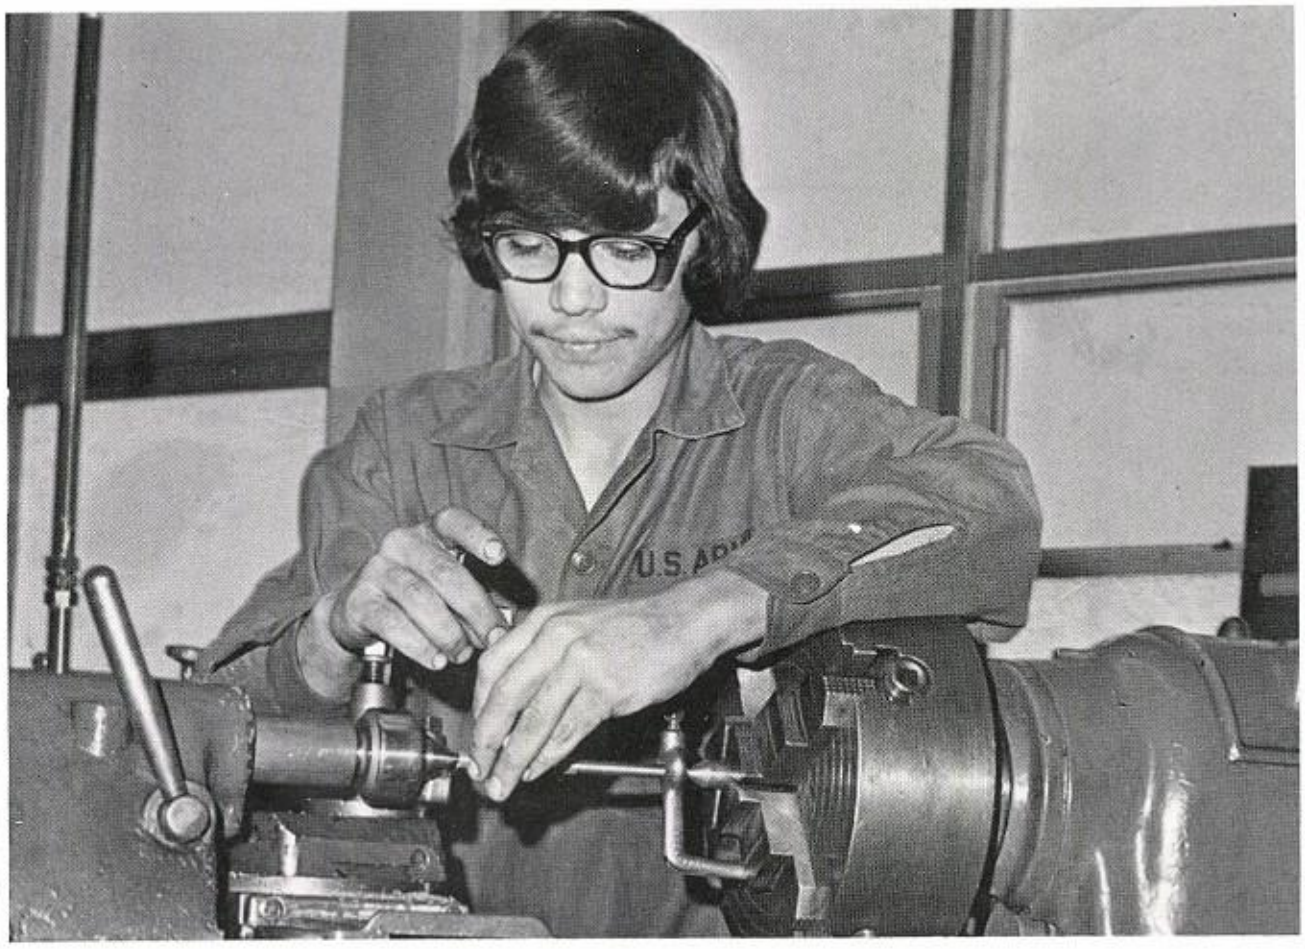
Math Plays Important Part

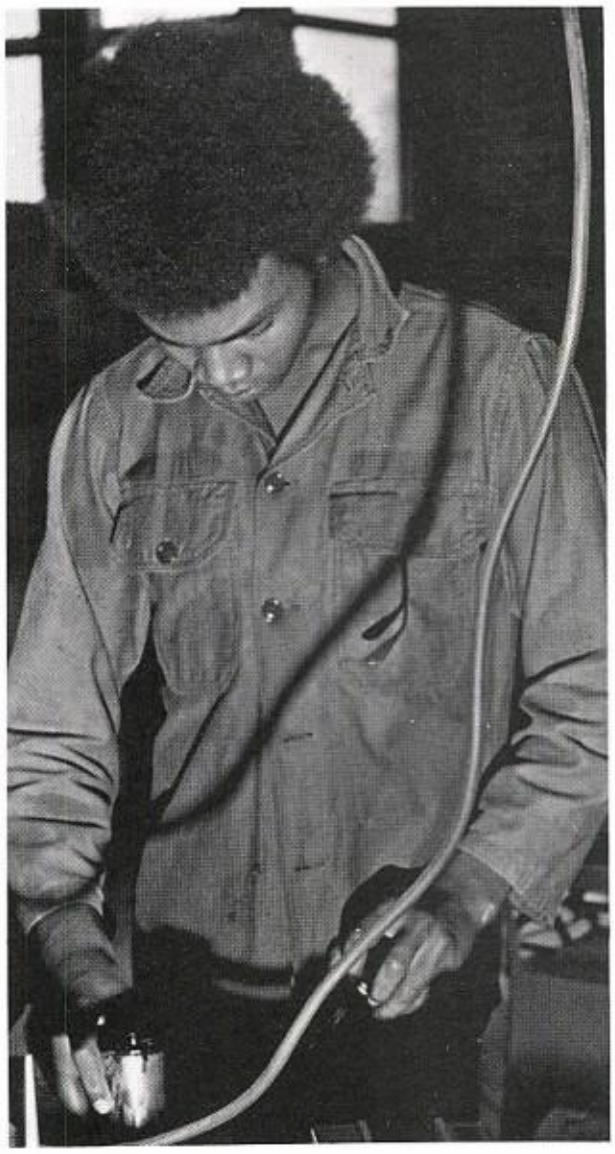
In the growing society today, the subject of math will have a lot to do with how our future is determined. The many branches of math that are taught in the John Tyler math department are: Algebra I and II, Geometry, Trigonometry, Elementary Analysis, Consumers Math, and Related Math. Students who already have their careers planned will find that math will come to play an important part in their roles as they lead lives that will bring a lot of problems and questions.



Above: Pat Paro, Nancy Roberts, and Karen Palmer examine a few examples of geometric forms.

More Machinists Are Needed





Machinists are one of the most important groups of workers in the labor force. They manufacture thousands of different metal products. Metal trades has tried to prepare students to enter this industry. Lathes, drillpresses, shapers, and milling machines were used in technical instruction and shop practice. Blueprint reading and shop mathematics were extremely important to the students. After the elementary parts and operations of the machine were learned, the students started on projects ranging from making screws and nuts to hacksaws and ball-peen hammers. One of the joint projects of the metal trades classes was the making of barbeque pits. Those who received them usually made donations which were used to help host a contest held in march.

Health Occupations Proves Rewarding

Preparing students for a vocation while giving them on-the-job training was the purpose of Health Occupations classes. Students were employed Dental Assistants, Laboratory Aids, and X-Ray Technicians. Students were visited by their teachers about every month or so to insure that the job was a learning process. Objectives of the class were to develop understanding, tact, and assurance in interpersonal relationships, as well as to become qualified employees.

Industry Offers A Promising Future

With our country as an industrial nation, environmental technology was designed as a vocational program to attract students to industry. The program met the needs of students desiring to obtain post-high school training, as well as those who were interested in going directly into the labor market. It was divided into four phases, the first being an introductory course in junior high, and the other three being offered in high school. Composing the second phase was plumbing, pipe fitting, and welding which gave the students the experience needed for this industry. The third phase of the program involved air-conditioning. Areas of Industrial Cooperative Training offered instruction in plumbing, heating, cooling, customer service, customer relations and advertising. The students in the last phase attended academic classes half a day and worked the other half. A number of field trips were made during the year to various places. This course helped to equip the students with new tools to meet the nations industrial needs.

Leadership Comes From Part-Time Jobs

Many students who have part-time jobs are enrolled in Distributive Education. This program enables them to work at their jobs and attend school half a day. The object of Distributive Education is to develop leadership in fields of marketing and merchandising. Along with the two credits earned, Junior and Seniors attended and participated in area and state contests and sponsored many activities during the year.

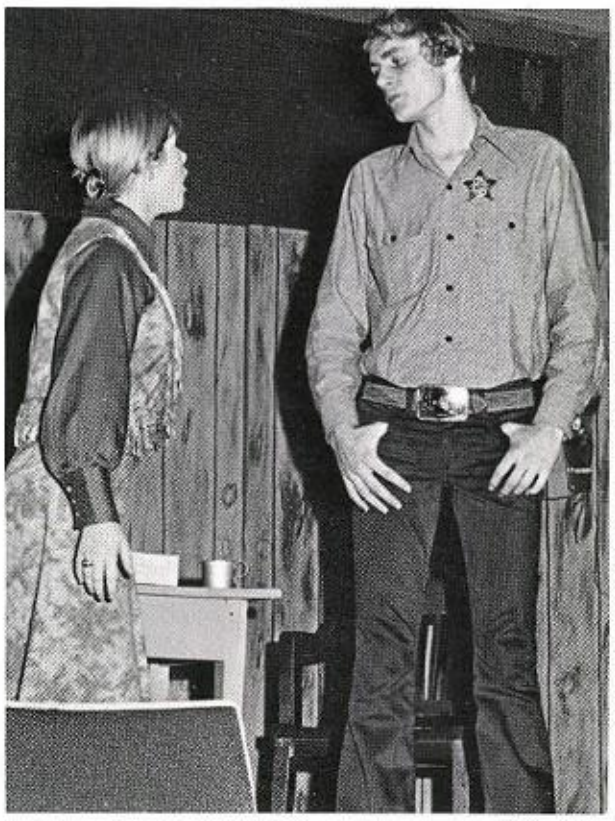
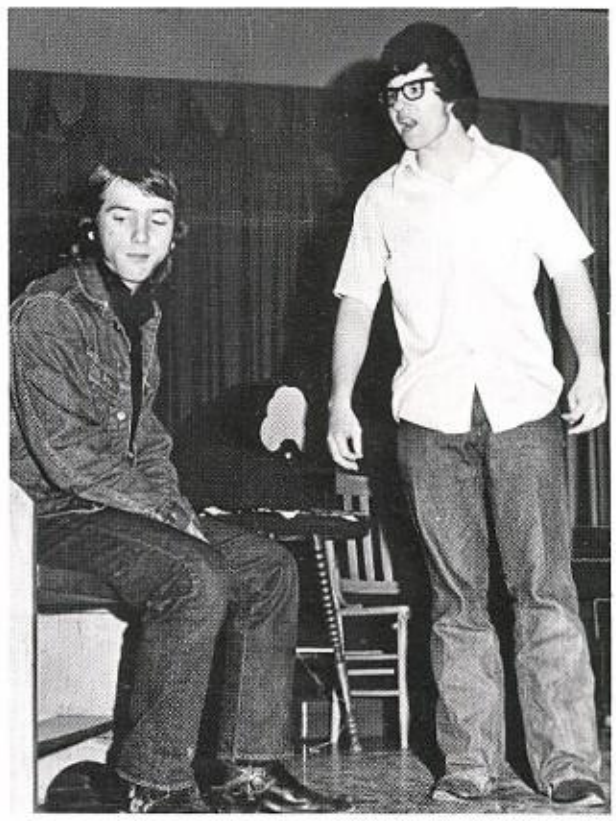
Exercising Can Be Fun

For most of us, physical education was a break away from the monotony of our text books. Not only that, but it helped us to develop our bodies for a healthy future. There were many sports where exercise could be obtained, such as football, baseball, basketball, and bowling. The girls' classes even spent some time on dancing. Part of the year, sophomore students attended drivers training which consisted of classroom, simulation, and behind-the-wheel. Even though many students may have disliked this class, they learned the importance of physical fitness.





Drama Is "A Way Of Life"

Through use of pantomime and sections of voice and diction, Drama students learned to make the best of their talents. They were taught that Drama was a way of holding a mirror up to a light and that nothing should be fake. The production of the Rainmaker involved many hours of hard work. Acting was only part of it. Students learned about lighting, scenery, and sound effects, as well as correct make-up on stage. The Drama Department also participated in the U.I.L. One-Act Play Contest. Through Drama, students learned to identify with life.

Techniques Are Learned

Speech and debate were the subjects that worked together to help the student learn the techniques of both. Speech mainly consisted of the different types of speeches, how to overcome stage-fright, and the correct usage of words. In debate, one subject was chosen by the many speech teachers all over the United States. That subject was used throughout the year to debate on. These courses taught leadership, to prove your point and make it stand, to become a quick thinker and to tolerate other points of view.

Industrial Arts Offer A Variety Of Jobs

Drafting, welding, training in woodwork and shop, blueprints, electronics, circuit-wiring, and radio construction were the classes offered through Industrial Arts. Jobs of these nature are always in need of good men and women. The students who undertook these skills and studies will have a better leadway for even more professional careers.

English Classes Reach Goals Through Analysis

To arouse interest and find ideas in literature which applied to the students lives and the world today were the main objectives in the English classes. These goals were achieved through analyzing the materials which were covered. Senior English classes used dramatizations of scenes from such novels and plays as "Everyman" and "Canterbury Tales". In "Everyman" the class wrote a modern version which they entitled "You're A Good Man, Joe Cool". They also had various unique writing assignments. The Junior classes dealt more with American Literature, placing a lot of emphasis on theme writing. Some classes studied the origin of ballads. Through reading the novel, *When The Legends Die,* the study of the American Indian was brought out. Most of the year, the Sophomores studied paragraph writing. They studied the methods of communication through analyzing *The Pearl, Julius Caesar, Romeo and Juliet,* as well as *Portrait of Jennie.* English gave the students an insight for a better understanding in life.

Journalists Learn Basics Of Writing

Students of John Tyler were always within ears reach of the schools latest news and events. This could not have been done if not for the journalism classes. Day after day, journalism students wrote stories and interviewed many people for up-to-date news. Many things were featured in the paper including sports, a section called Coaches corner and a section having to do with activities, achievements, and announcements. Students involved in journalism learned the basics of putting a paper together as well as proving this course to be very educational.

Interior Decorating Presents A Challenge

From the first day of school till the summer projects, for a half credit, the goal of homemaking was toward the total person. Field trips to furniture stores prepared the Seniors for the decorating of the house in the spring. Somehow, all the hard work seemed worthwhile when they saw the final results of their house. Home projects done in connection with classwork were required each semester. Thirteen girls, from all levels of homemaking, participated in a fashion show modeling garments made by themselves at an optimist club luncheon at Wyatt's Cafeteria in January. The Young Homemakers of America Tea, which honors a high school girl each year, was held in the spring with invitations sent to the Homemaking students.

On The Job Training in related occupations involved 33 Home Economics Cooperative Education students this year. Among the approved jobs for the students were child care, clothing and dietician assisting, fabric coordination, floral designing, and housekeeping management assisting. These students participated in various activities such as the city wide Cooperative Appreciation Banquet and Area and State meetings. In addition to these, they decorated the Queens Float for the Rose Parade. Also given was a two week Bachelor Living Course with the Auto Mechanics boys. Meanwhile, the girls participated in a mini Auto Mechanics course.

Languages Join The World

Four Language courses are offered at John Tyler: French, German Spanish and Latin. Regardless of the Language each develops an increased understanding and knowledge of the country. The first year of a foreign language a student can converse, write what he says, and understand the cultural aspects of the country. The second and third year produces a deep knowledge of the structure of the language.

Topics Of Interest Are Debated

Recent news having to do with Vietnam and problems occuring inside the country were many of the interesting topics discussed in the Social Studies classes. Government, World History, American History, Economics, World Political Geography and Sociology were classes that were taught through the Social Studies Department. Students gained much experience in these courses because of the things they had to do for themselves. National conventions were held and the students in Government elected a president. Going through an experience like this helped the students realize the importance of getting to know how the President is elected. With the study of current topics and the world problems the student learned the troubles, strifes and the accomplishments of his forefathers.

ICT Offers Various Job Training

While some students were bored by the routine of everyday classwork more industrious students were involving themselves in new and challenging occupations. Through the cooperation of local business and John Tyler's Industrial Cooperative Training course, many students enjoyed the glamour and discovered the responsibility of important positions. Under the supervision of a teacher-coordinator, these students learned of their responsibility to the employer and to the public.

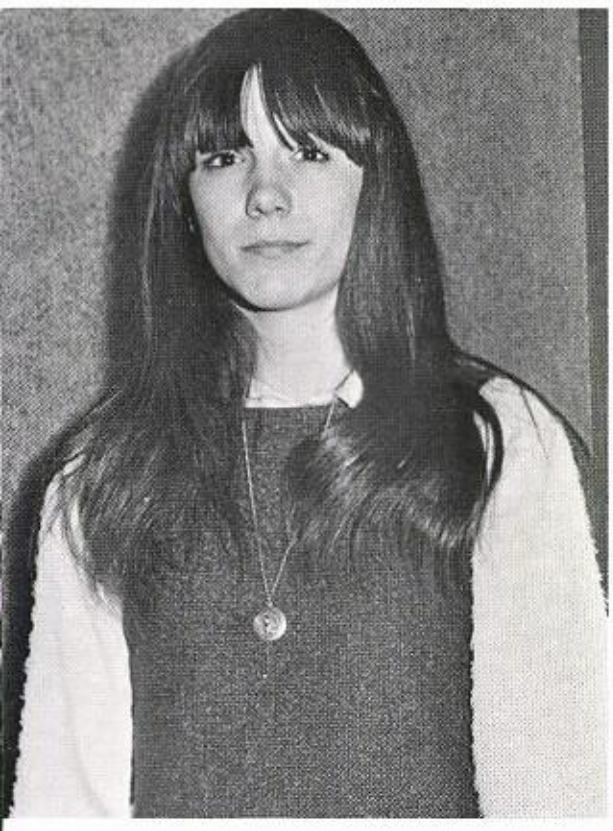
Youth Train For Farming Vocation



Training the youth of today to be the farmers of tomorrow is the main objective of Vocational Agriculture. This three year program consists of class work and project programs. In the study of agriculture, students learn the study of soil conservation, operation of farm equipment, improvement of livestock, poultry, and plant life. Mr. A. D. Winston is the sponsor.

Make A Joyful Sound

Music in its many different forms was offered at John Tyler. Whether it was a march in a band's performance or a song, sung by a choir, these put together formed another way of communication. For music to be truly meaningful and exciting the student must learn in depth the study of musical composition, techniques, and theories. After this a student will learn to have a better appreciation for all kinds of music.

Vocational Achievement Is Gained

Service to those whose orientation was not academic was the goal of the Special Education Department. Its purpose was to assist its members in developing proficiencies leading to personal and vocational independence. The thrust of class activity was intensely practical. Vocational Rehabilitation cooperated with the education agency in offering opportunities for continued and specialized training for vocations. Job sampling for students both on and off campus broadened their knowledge of the variety of occupations they could pursue. Class projects served as a break in the routine. One project this year was candy wreaths made by the students to sell at Christmas.

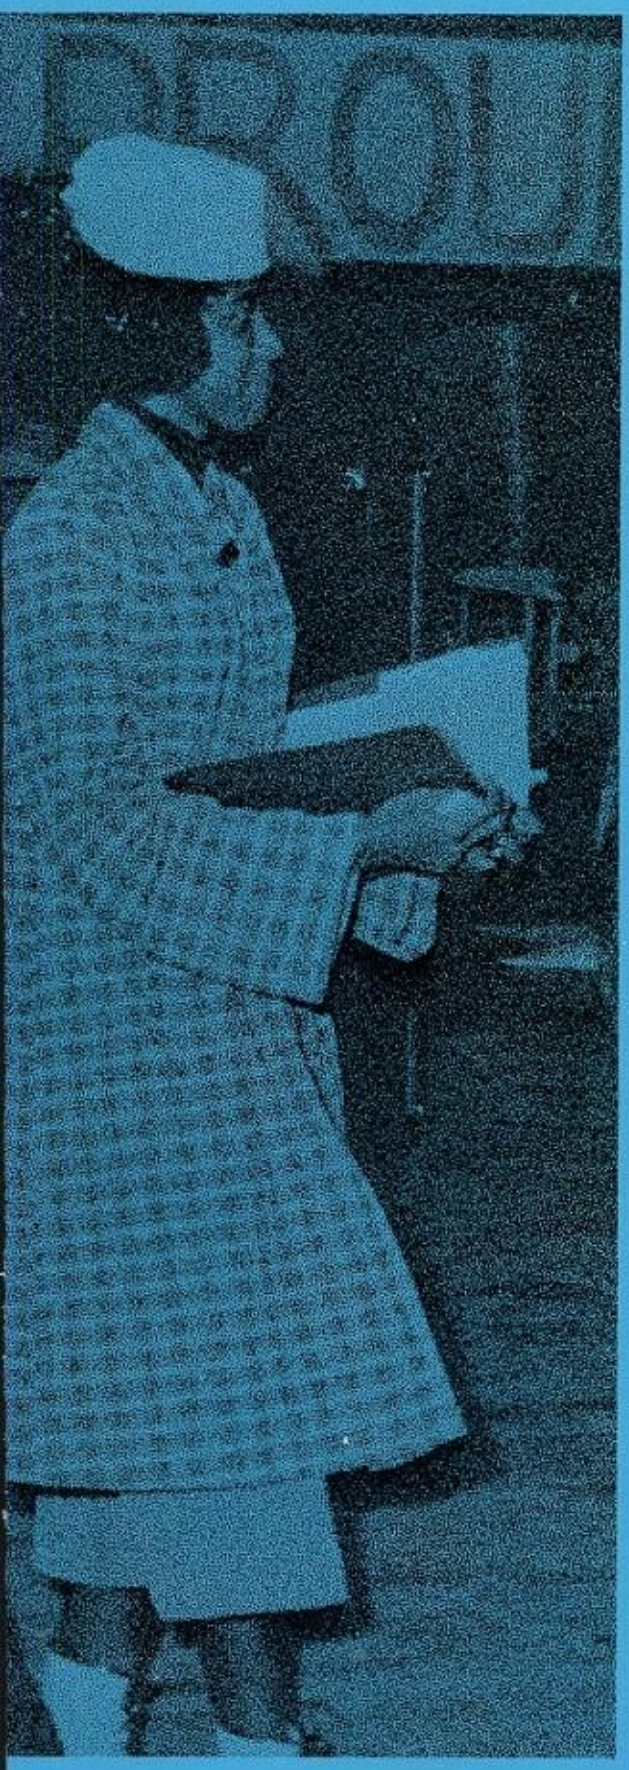
. . . PARTICIPATE



A time to participate and become more involved—to develop skills through the activities offered by various groups and organizations. To become a part of the life and spirit of the school and to enjoy the advantages offered by each club. A time to try and enjoy the experience of success, to work and learn the reward of trying.

Band Bursts Into New Year

"To be a number one band, one must also have humility." This statement was often made by the band director, Mr. James Williams. This year, John Tyler's music squad has achieved even more than planned. They started off with a bang at summer practice and the enthusiasm continued throughout the year. "The Battle Hymn Of The Republic" proved to be a wise choice as the band received the 14AAAA trophy for the best band in the Rose Parade. But the band's efforts did not end here. They provided a tremendous half-time performance at every football game, and the sharp precision turns brought them another number one at marching contest. The band continued to do well throughout the year.

White Christmas Is A Success

Soc hops and dances were not the only activities that the John Tyler Student Senate sponsored. For the first time at John Tyler, a spirit plaque was awarded for the best decorated room during Lee week. Gifts that were presented at the White Christmas program symbolized the food given to needy families during December. In January, the Senate sponsored a program with Jack Brown as the guest speaker, Mr. Brown was a former drug addict who spent over half his life in prison. During Black History Week, Dr. Rhodes spoke on "When Two Worlds Meet." Lee Maxwell sponsors the Student Senate.

Soc Hops Highlight Football Season

Highlights of a good year at John Tyler always include the dances and Soc Hops. Student Senate began the year with a "Howdy Dance" for all the newcomers to get acquainted with everyone. Soc Hops were provided to help celebrate each of the home game victories. Disc Jockeys played records of different varieties and at the final Soc Hop of the year, Mark Conway performed his duties as disc jockey of the night. Fun and excitement was in each dance.

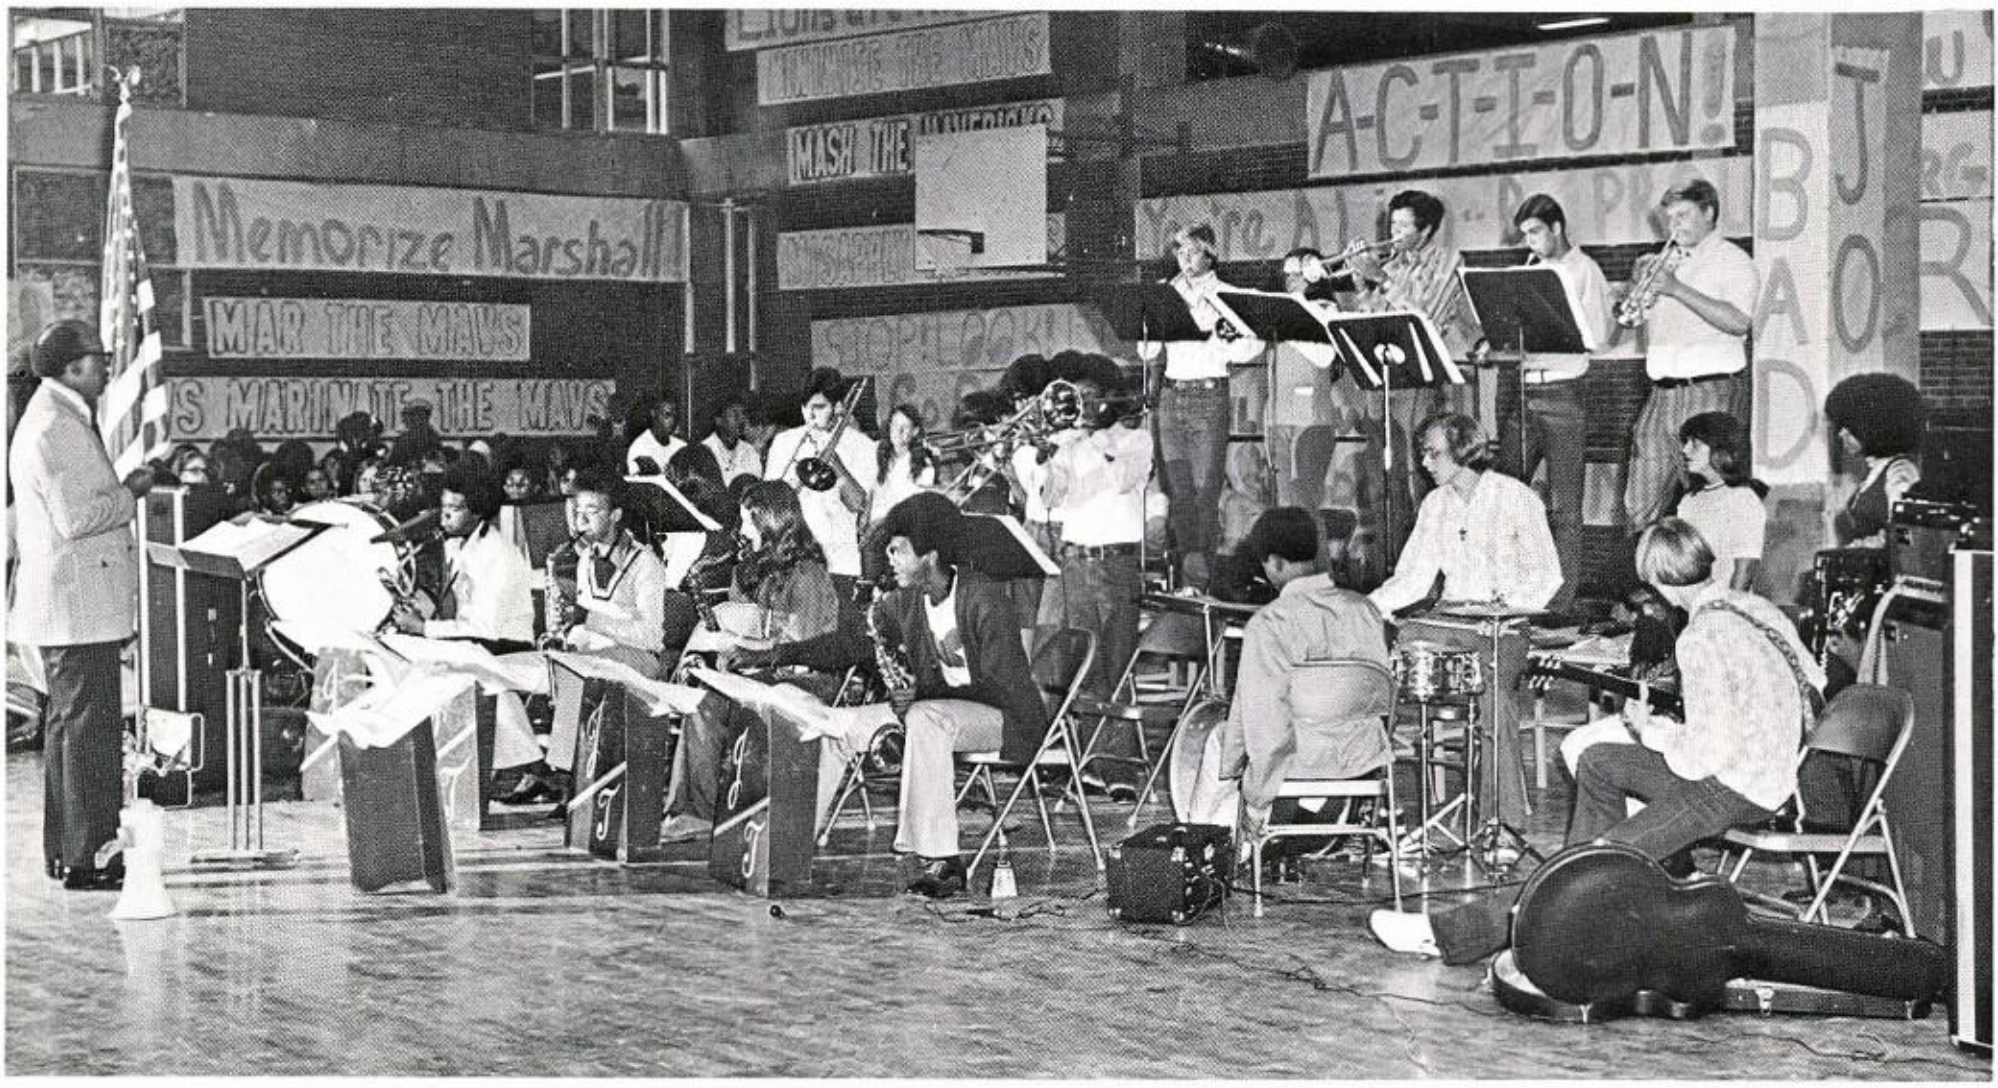
Stage Band Travels To Brownwood



Not only did the John Tyler Stage Band play for pep rallies, but throughout the year they conducted concerts at the local Junior Highs. In January they traveled to Stephen F. Austin where several members were featured on the trumpet and guitar and the band received a first division rating. In the latter part of February, by special invitation, the band traveled to the state contest in Brownwood. The 26 member band, under the direction of Mr. James (Prof) Williams, was chosen to be one of 40 bands in Texas to participate in the State contest.

Band Wins 14AAAA Trophy

Light drizzle, cold, and wet describes the day of Tyler's Annual Rose Parade. Although the day was unsuitable, it did not dampen the spirits of the mighty Lion performers. The Cheerleaders executed more spirit through the rhythm of chants while the Lion Guards drove our Lion to it's destination. The Drill Team performed sharp precision routines to the lively marches played by the Band. For the second year in a row, the Band has won a trophy for being the best band in the 14AAAA district.

Blue Brigade Launches Into Active Year

For the first time in the history of the John Tyler Blue Brigade, the Officers and Drill Team attended summer camp at Southern Methodist University. There they learned new routines and competed for ribbons and trophies. Twirl Major Kathy Glover brought back a blue ribbon. Also, the Drill Team competed in a twirling and jazz contest at Troup where they received a number one rating. Other activities included in the pep squad's year were performing half-time shows at football and basketball games while the sophomore and junior squads did lively hand routines in the stands. The club also had a Christmas party, marched in both the Rose and Christmas Parades, and collected money for the Tyler Lions Club and for Disabled Veterans.

Lion Guards Are Kept Busy

Being a Lion Guard required so much more than just carrying the Lion. This job demanded the hectic circle of taking care of the Blue Brigade. Gathering pom-pons, purses, cushions, and passing out cokes at the third quarter were just a few of the many things that a Lion Guard was required to do. In case of illness, they were always ready to lend a helping hand. Blue Brigade sponsor Mrs. Susie Jones also sponsors the Lion Guards.

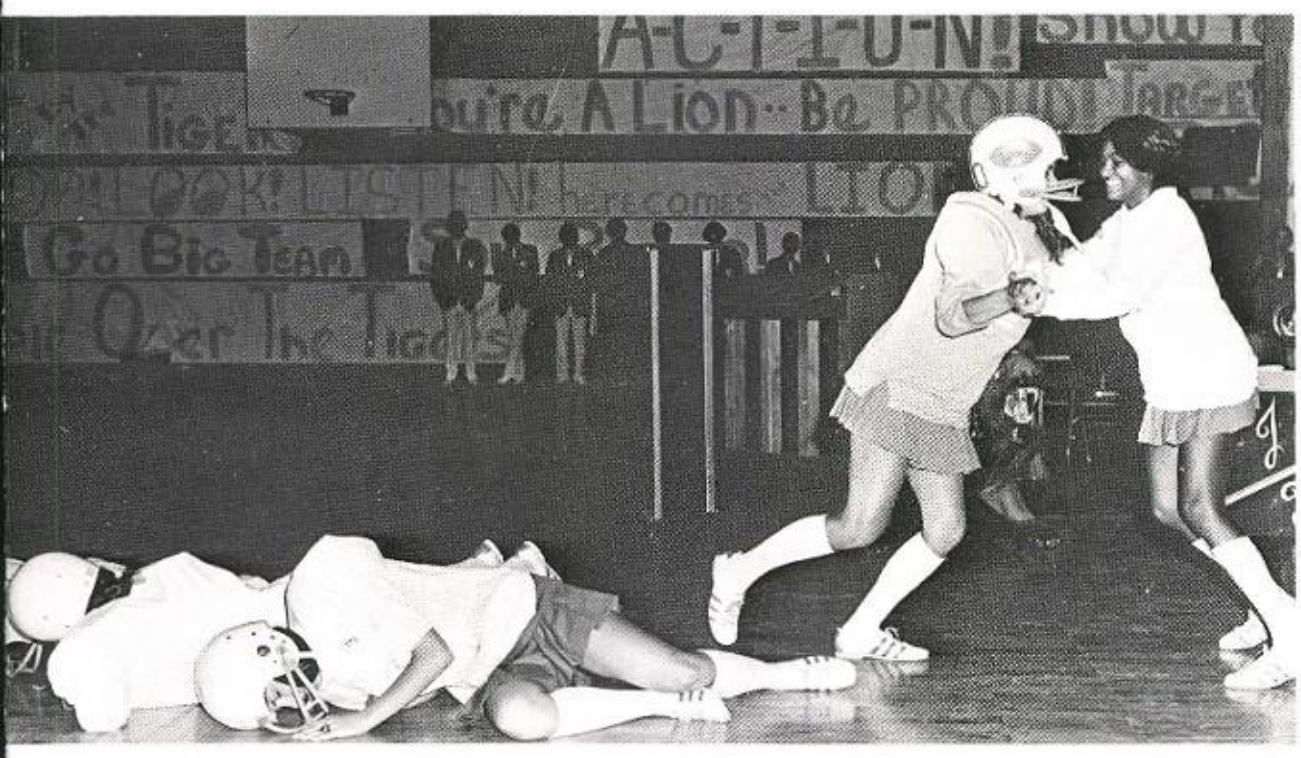
Lion Spirit Encourages Victories



Enthusiasm was always demonstrated at the pep rallies of John Tyler. A lot of work and spirit were used to help bolster the football players to a victorious win. Extra pep rally activities such as competition yells, football games in miniature form, funerals, and entertainment provided for by the Band Majorettes and Drill Team were just a few of the things that the students participated in. A spirit stick was awarded to the class who showed the most enthusiasm for that week. Good luck and lots of backing were given to the football boys.

Choral Department Acquires New Director

With Mr. Herbert Coursey, as the new choir director at John Tyler, came many new innovations in the choral department. He introduced several new methods in teaching which included sightsinging and singing by numbers. Many trips were made by the A Cappella this year. They visited the Casa Manana in Fort Worth to many productions. Others included a University Interscholastic League contest at Stephen F. Austin which included solo and ensemble. At Kilgore Junior College they participated in a University Interscholastic League contest and sightreading. They gave a Thanksgiving and Christmas program.

Pianists are Donna Fambrough and Tommy Honea. Mr. Herbert Coursey is director.

Pro Musica Is Girls' Choirs New Name

Changing directors of the choral department also brought a change of the name of Girls' Choir. The new name adopted was "Pro Musica." The Pro Musica choir followed the same line of activities as the A Cappella choir. For their big number at the Christmas program, they performed Shubert's "Ave Maria" with Tommy Honea playing the violin and Paula Dusek and Donna Fambrough as soloists. Other numbers throughout the year were "A Ceremony of Carols" and "Traces."

(Third Row) Helen Littles, Janice Lewis, Dorothy Benson, Mary Jones, Janice Fears, John Lee, Jarvis Martin, John McDaniel, Billy Whitaker, Clarence Cross, Charles Ward, Kenneth Mass.

Together the new choir director, Mr. Herbert Coursey, and the two sophomore classes, better known as the Singing Lions, have learned many new choir techniques. The sophomores have learned to sing better and to sight-sing as they prepared themselves for A Cappella and the Pro Musica choir. Not only has this organization learned new methods in singing, but the members have had a chance to sing popular favorites of the group. Among the daily routine, the choir gave at least two programs this year.

Classical Music Club Gets Off To A Good Start

With the new choral director at John Tyler came many new ideas. Among these ideas was the formation of a Classical Music Club. The purpose of this club was to give interested students an opportunity to enjoy several types and styles of music. To begin the year, Tommy Honea presented a program on the different styles of various composers. The club visited The First Presbyterian Church to learn the different fundamentals of the organ. In March, the club traveled to Southern Methodist University to listen to a concert presented by M.I.T. band of Boston. At the close of the year, a recital was given by Donna Fambrough on the piano and Tommy Honea on the violin.

Students Attend Special Lectures

Creating an interest and appreciation for cultural developments in fine arts was the purpose of the John Tyler Art Club. Club members, along with their sponsor, Mrs. Ollie Crawford, visited museums and art shows to help students acheive their goals. A side-walk art show and special lectures given by professional artists were also visited by the club members. Films and filmstrips were shown throughout the year to gain a better appreciation of art and to encourage the development of their own styles.

"Funny Face We Love You"

Laying out pages, using both rough and smooth tripaks, waiting in line for the scaleograph or the typewriter, writing copy, interviewing teachers and students to get a better idea of the subject, trying to figure out headlines, trotting up to the counselors' office to get a picture identified, running out of tripaks right before a deadline, ordering 20 more roles of crop tape, indexing every one of the 240 pages, and double checking and triple checking, attending football games, basketball games, parties, banquets and other such activities to take pictures, staying late every day after school going to school on Saturday and sometimes even Sunday, having fun while working, singing the Hallelujah chorus after each deadline, rushing to the Post Office right before closing time, going to Denton and remembering "Funny Face We Love You," and finally, at the end of a hectic year, we received the fruits of our labour. Although the 1972-73 staff acquired a great amount of journalistic knowledge this year, they also gained a deeper understanding of unity. Working together within the walls of Room 5 with the guidance of a wonderful man and dedicated sponsor, Mr. C. Devers, a staff of 10 people, edited a book with one common goal, the 1973 Alcalde. This book was an attempt to capture the spirit of the 1972-73 school year for "This Is Our Time."

Troup 961 Presents "The Rainmaker"

Members of Troup 961 of the International Thespian Society were active in all phases of the 1972-'73 school year. Three major productions were performed for responsive Tyler audiences, under the direction of Mrs. Helen Jack, sponsor. Among these were *"The Rainmaker"* which was presented in December, and *"Arsenic and Old Lace,"* in March. Members also participated in Drama and Speech Festivals at Hillcrest and Highland Park High Schools in Dallas.

The profession of teaching has been made more exciting and challenging through Future Teachers of America. This club was organized this year by Mrs. Ethel Calloway to make students going into the field of teaching to be more aware of what teaching is like. The students have a chance to talk to other teachers about problems that may come up and any other questions they might have. The association has a chance to compete in contest. In their club meetings they watch films, talk about problems, discuss what they would like to teach, and so forth. Another purpose for the club is to interest other students in becoming a teacher. This profession is so good, yet taken so lightly. But the members of FTA have found a real meaning in teaching.

Future Farmers Learn Important Techniques

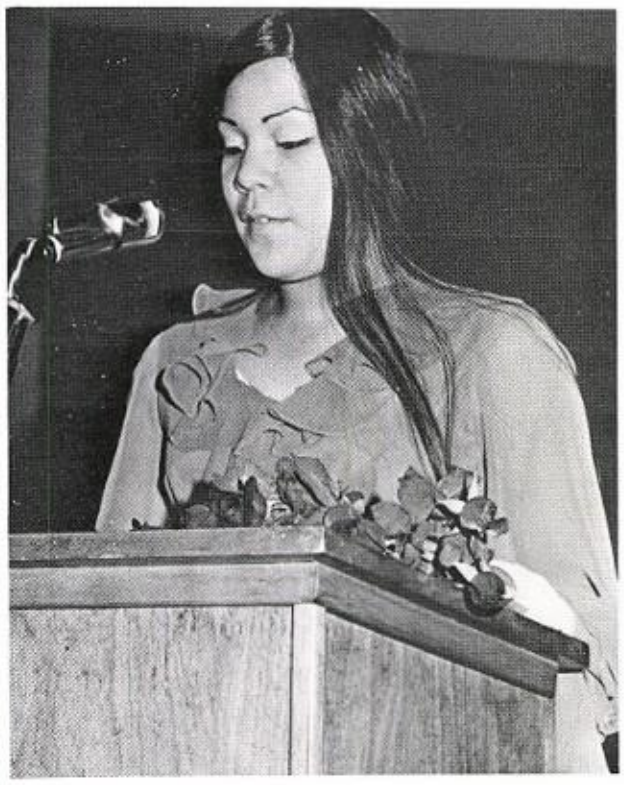
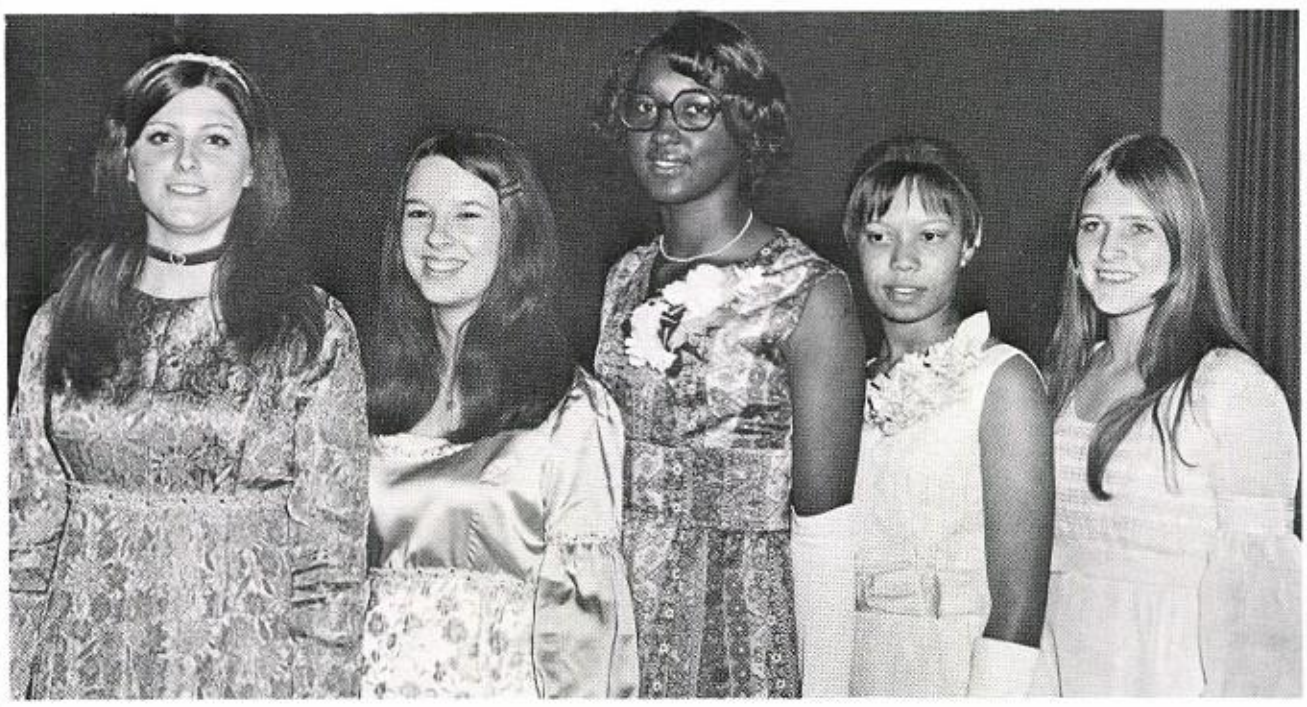
Preparing for the techniques in farming and ranching is the main goal of Future Farmers of America. These boys find that farming is really a challenge. They learn that competition becomes a way of life as they prepare for their vocation. Not only do these boys learn farming, but they have a chance to compete in chapter, area, district, and national meets. The association started their year with a goat barbecue where the boys invited their fathers to come along. A trip to the state fair is a tradition that the club always carries out. Mr. A. D. Winston and Mr. Tommy Williams are sponsors of FFA.



Future Homemakers Acknowledge Inductees



Sewing, cooking, family relations, and childcare are just a few of the things that Future Homemakers of America cover. These girls learn to take on the responsibilities of adulthood and preparing for it. Many projects were in the plans of FHA. As a group they cleaned up th parking lot, gathered Christmas cards, and participated in FHA Week. During Future Homemakers of America Week, the associates have a chance to show the things they do and the school also benefits from their work. Sponsors are Mrs. Watson, Mrs. Cross, Mrs. Taylor, Mrs. Braynt, and Mrs. Moody.

Employer–Employee Banquet Is Held

Helping individuals improve personal, family, and community living was the John Tyler Home Economics Related Occupations Chapter. The HERO club of John Tyler was organized in 1972 for both boys and girls. Among a variety of activities, the club decorated the queens float for the Tyler Rose Parade. Later in the year a employer-employee appreciation banquet was given by the club members for their employers. Mrs. Dorothy Johnson sponsors HERO.

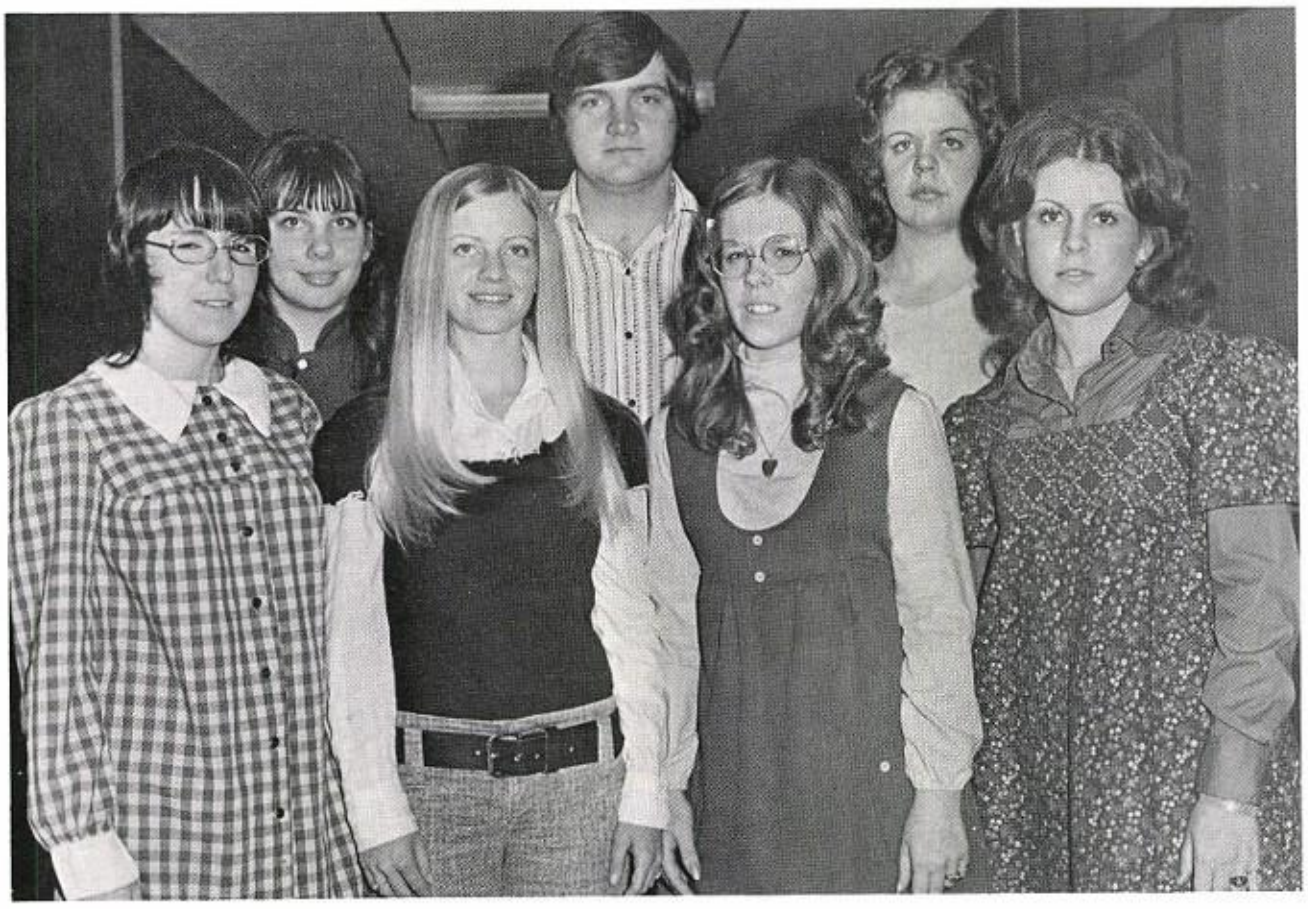
State Conferences Are Attended

Attending district leadership conferences, district and state contests are a few of the activities of the John Tyler Industrial Cooperation Training Club. The purpose of this club is leadership training. ICT sponsor is Mr. R. B. Pruitt.



The purpose of the Health Occupations Club of John Tyler is to develop a respect for education in health fields, to develop leadership in health occupations, and to promote mental and physical health. Along with the employer-employee banquet, the club members participated in drives for raising funds for health causes and attend out of town trips to leadership workshops. Mrs. Jean Beacham is the club sponsor.

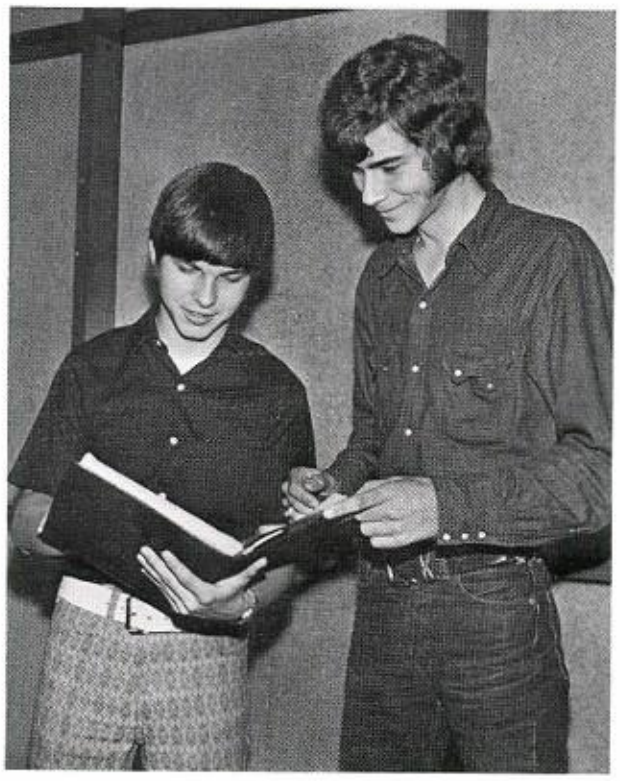
New Club Is Formed



Students may choose vocations in many different phases of the field of science. Junior Engineering Technical Society was a new club formed here at John Tyler to give students who were interested in science a chance to better themselves. This association was first organized at Texas Agricultural Mechanical University. A field trip to A&M was planned for spring and on March 2 the members attended the state meeting there. Mr. L. Maxwell and Mr. K. Pruitt are the sponsors for the JETS.

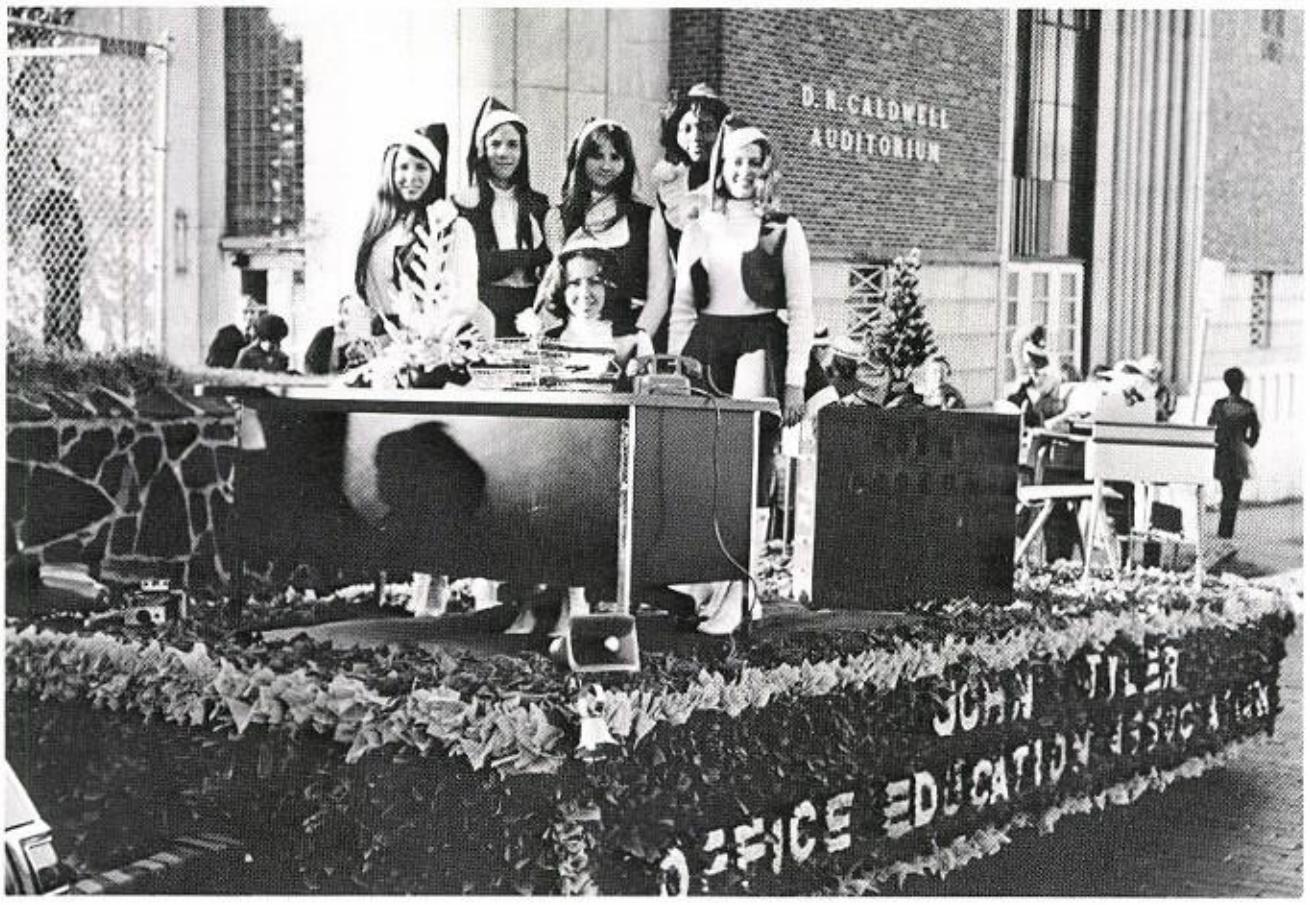
Club Sponsors Fashion Show



Beginning the year with a bang, the Office Education Association club strove to be more active. This effort proved to be very worthwhile when the association members began to reap the benefits of their work. For the first time in the history of Office Education Association, the officers had matching uniforms of gold and green. The club participated in many various projects. For the Christmas Parade a float was made. The club spent two weeks every night working on the float. February 10, a Valentines Dance was sponsored by the associates of this club. Members attended a contest in Fort Worth on February 15, 16, and 17. Hosting all cooperative programs, the club also participated in the Employer-Employee banquet at Harvey Hall. To end the year, the spring Fashion Show of the latest office styles was just another one of the many projects. This club is sponsored by Mrs. Sue Bell.

Students Prepare For Marketing

Preparing students for careers in marketing and distribution is the main purpose of Distributive Education Clubs of America. Preparing for the future is what these students are interested in. They started off the year with a "Get Acquainted" party. New members had a chance to meet everyone in the association. Later the Installation-Initiation was held. Mitchell McInnis presided over the affair. He was president of the club last year. Christmas was celebrated by the association with a breakfast. Later in the year, DECA participated in the Employer-Employee banquet held at Harvey Hall. Over 300 students and employers attended. Participation in the area and state level contest was also a part of DECA's active year. Mrs. Starley Daniels is sponsor.

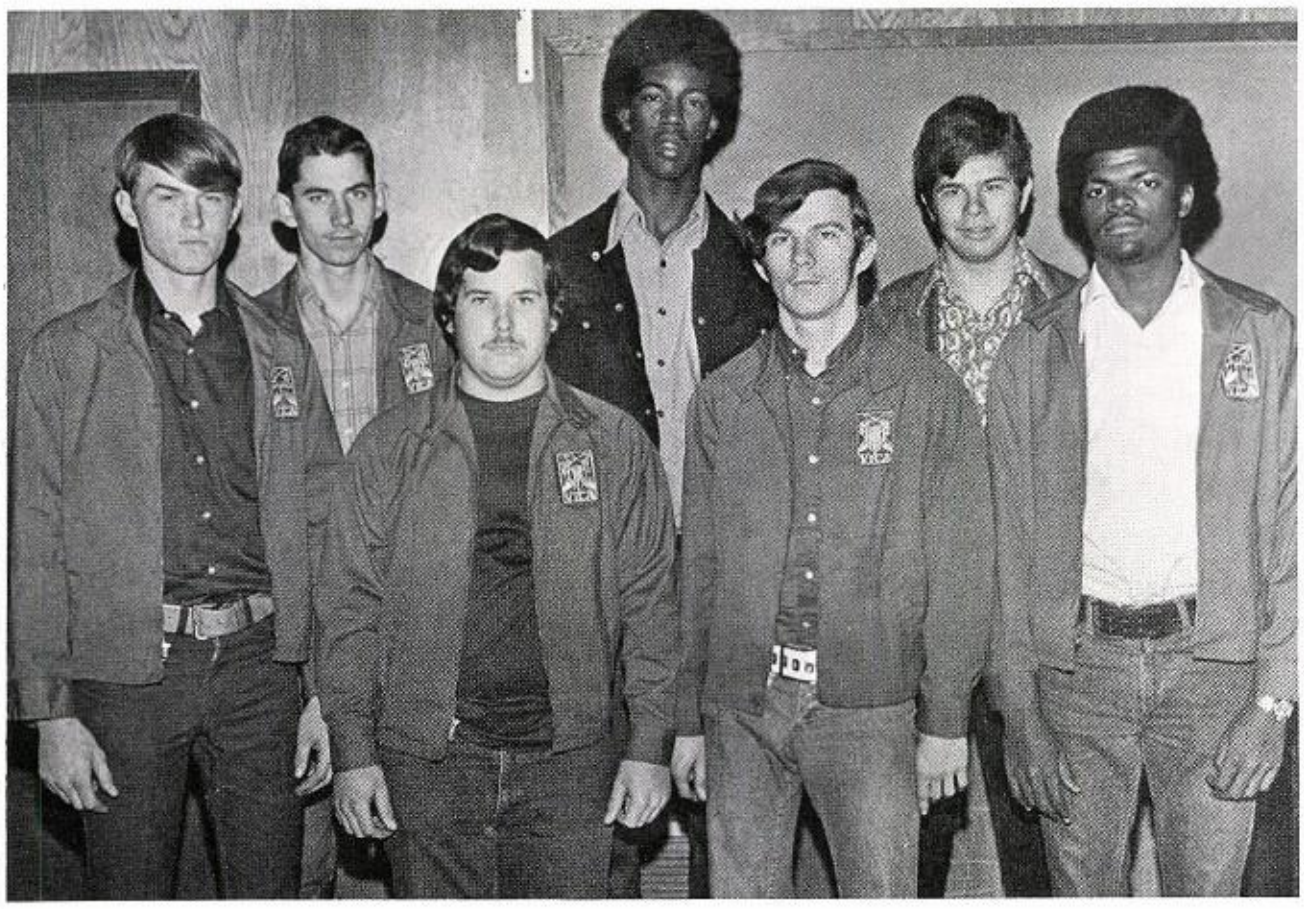
Club Is Financed Through Repairing Cars



Did you ever get into your car when it just stalled? Auto Mechanics has got the medicine to remedy that. Fixing cars for students, teachers, and any other person was just one of the many projects that Auto Mechanics carries out each year. Although working on cars was the main purpose of this organization, it was not the only business that they participated in. Attending Skill Speed contests in area, district, state, and national were other activities that were included in the active year. When spare time rolled around, the associates went on camping trips, cook-outs, and field trips. Club sponsors are Mr. P. E. Isham and Mr. Norman Williams.

Clubs Help With Local Activities

To develop leadership abilities through participation in educational, vocational, civic, recreational, and social activities is the main purpose of the plumbing and air conditioning clubs of John Tyler. Some of the activities of these year old clubs are attending local, district, and state contests. Under the leadership of Mr. Archie Abel, the Plumbing club also helps with local and school activities. Sponsor for the Air Conditioning club is Mr. James Mayer.

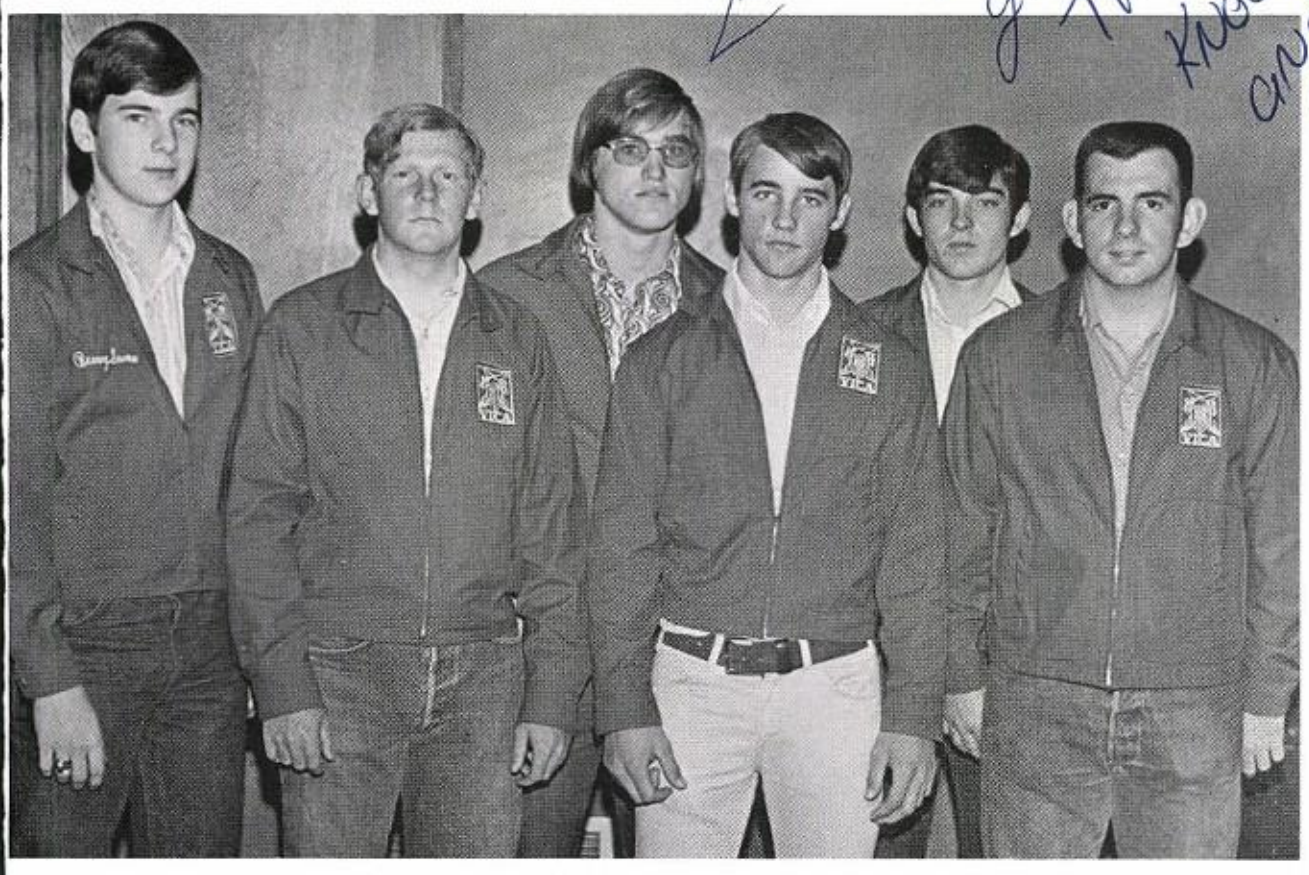
Members Learn Dignity Of Work

To me a very pretty and sweet girl whom I've had the pleasure to know. This year and hopely next. Good luck next year
Bruce



Learning to make a tool from pieces of scrap metal was the work of Metal Trades. Each member had a chance to display his work in the VICA contests at which they received ratings. Projects of the association included things from making tools to making an old bath tub into a bar-b-que pit. Finding that developing leadership abilities, to foster a deep respect for the dignity of work, to attain a purposeful life, and to promote high standards in trade ethics in Metal Trades were the main goals of the year. Mr. Larry Brown is sponsor.

Making a home from pieces of lumber gave the members of Building Trades a deep sense of self-respect. Leadership and competition gave the association a deeper meaning in life. Being a member of VICA, the associates received the chance to compete in local, district, and state meetings with other VICA clubs that are members of Buildings Trades. The main project for the people of this organization was to build a house that was furnished by FHA. When time came for the club to settle down and relax, they went on cook-outs, fishing trips, and had little "get togethers." Sponsor is Mr. Charles Scarbrough.

"Project Inform" Is Born

From annual events to special projects, the Tyler Youth Council served both the school and the community. Prisoner of War bracelets were sold to unite students in the cause of bringing the prisoners home. Mr. Plyler, superintendent, requested the help of the Youth Council to aid in informing citizens of the school bond issue. Thus, Project Inform was born. Other projects included Project Christmas, March of Dimes Walk-A-Thon, and a venereal disease dialogue. An executive committee was instigated which consisted of students with leadership qualities to serve under the officers to help increase membership.

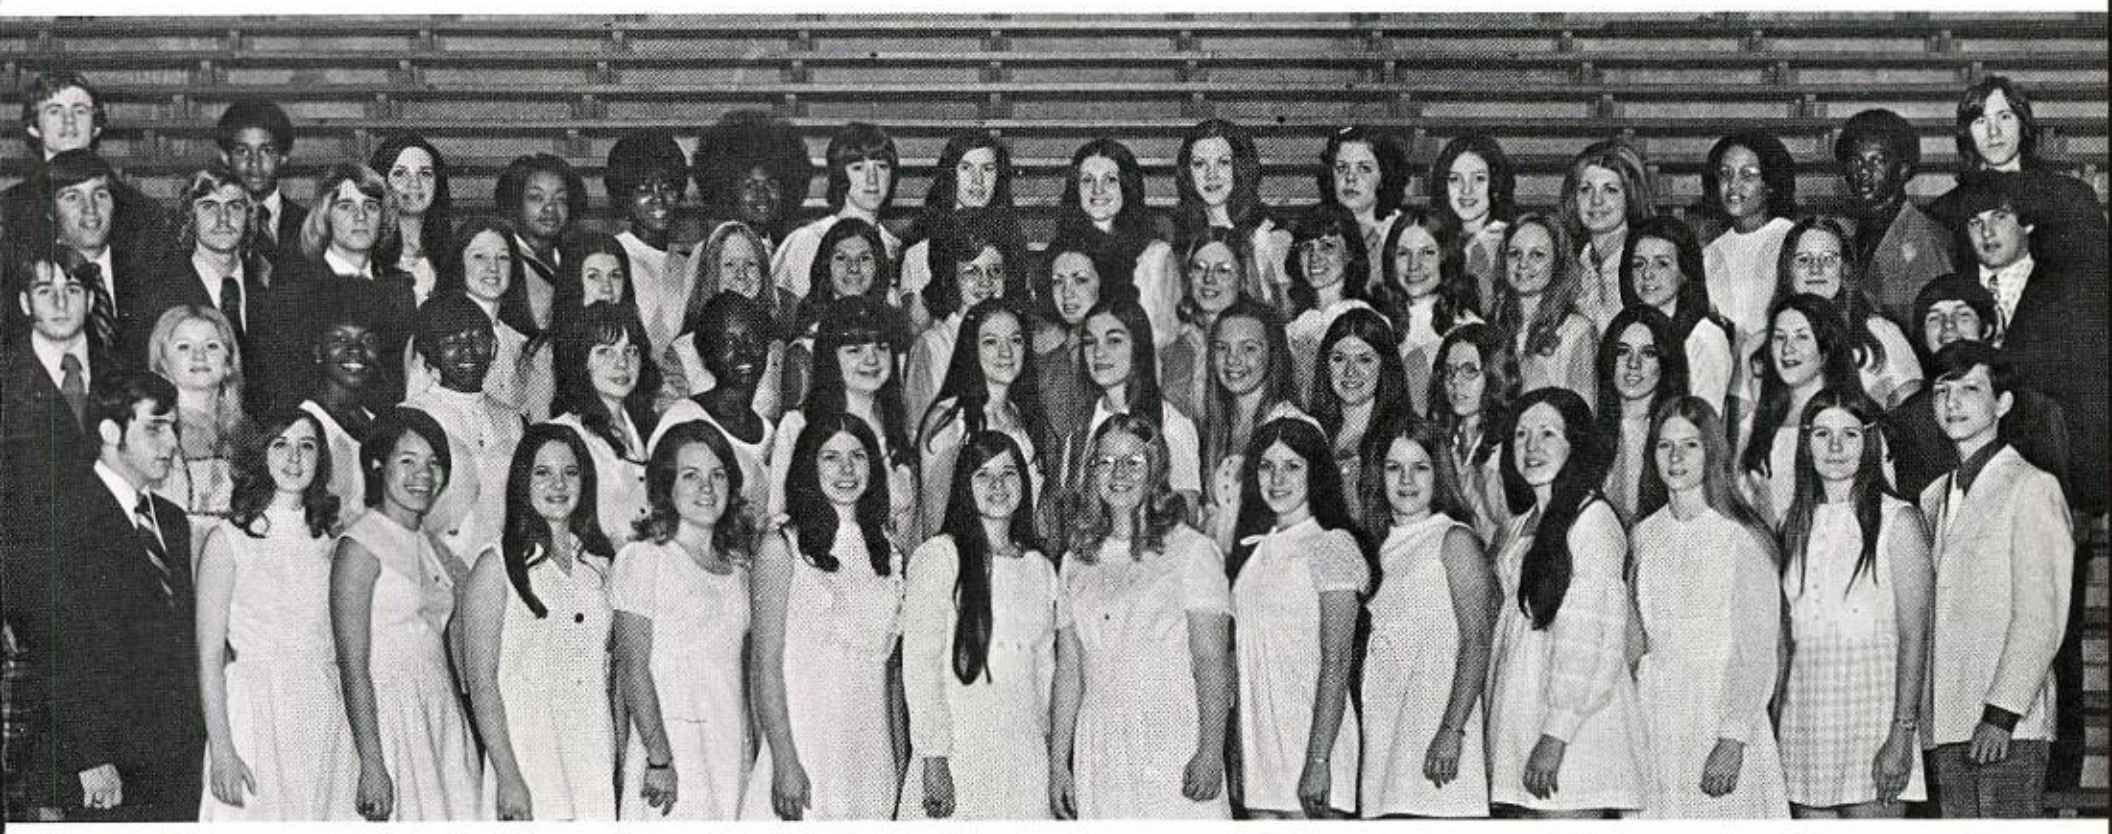
66 Inducted Into National Honor Society



In the spring of 1972, 5% of the Junior class were elected to be part of the National Honor Society. At mid-term of the 1973 school year, the faculty selected the final 10% from the senior class. Under the sponsorship of Mr. Tommy Tomlinson, students must have an overall scholastic average of 85, and must show fine qualities of leadership, service, responsibility, and sincerity.

Lions Tale Acquires New Darkroom

Resounding the activities and events of John Tyler is the responsibility of the Lions Tale. Recording all of the happy moments and disappointments of sports, writing feature articles, editorials, and selling advertisements are just a few of the many things that kept the staff busy. This year the Lions Tale acquired a new darkroom which is about twice the size of the old one. Although a larger photo lab was added, this did not lessen the work. The associates attended the Southwestern Student Journalism Forum at Southern Methodist University where they attended classes on television, radio, photography, and advertising. Also, the members attended the Interscholastic League Press Conference at Austin where the school newspaper received it's rating. Lions Tale sponsor is Mrs. Linda Rushing.

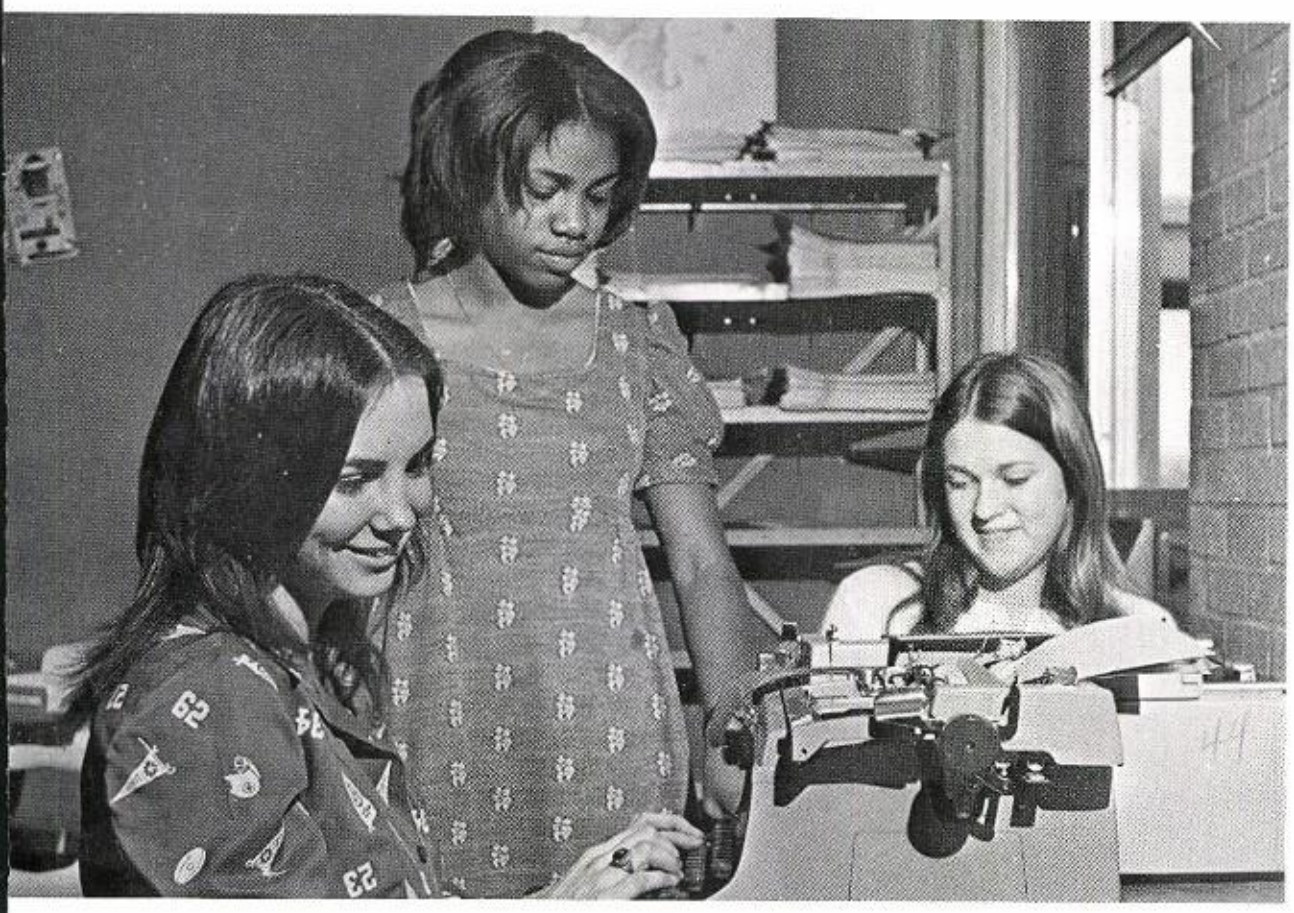
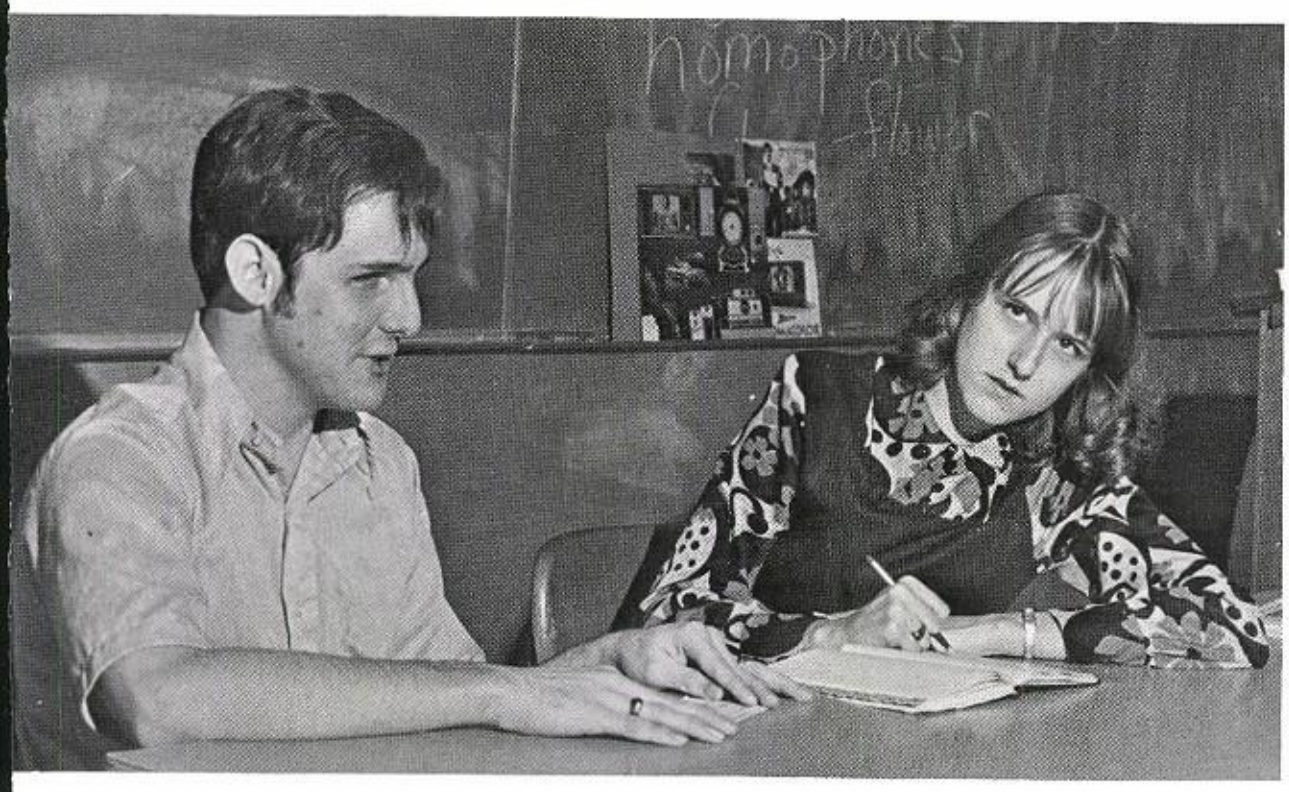
Journalism I Learns Newspaper Techniques





Learning to distinguish between facts and opinions was one of the many things that Journalism I students learned. Also, giving assistance to the Lions Tale staff in laying out pages, writing news stories, features, headlines, and editorials was another job they obtained. Students in Journalism I were also in competition with each other. At the end of the year, the students that had an equivalant of 50 inches of copy in the newspaper were eligible for Quill and Scroll. Also, becoming Page Editor was in view. Sponsor of Journalism I is Mrs. Linda Rushing.

Latin Is Revived By Members

Rediscovering that the dead language is alive was the main goal of the Latin Club. These students found that every day in America this language is spoken. In becoming more aware of this dialect, the members played baseball and scrabble in Latin, learned quotations, prayers, pledges, and board work. As a club, the associates were members of the Junior Classical League of America. Also, other activities included going out to eat, having parties, and having an end of the year party at Johnny Cacey's. This year a motto was made: "Vinimus, vidimus, vicimus Latina," "We came, we say, we conquered Latin" was often heard. Sponsor is Miss Carolyn Hardgrave.

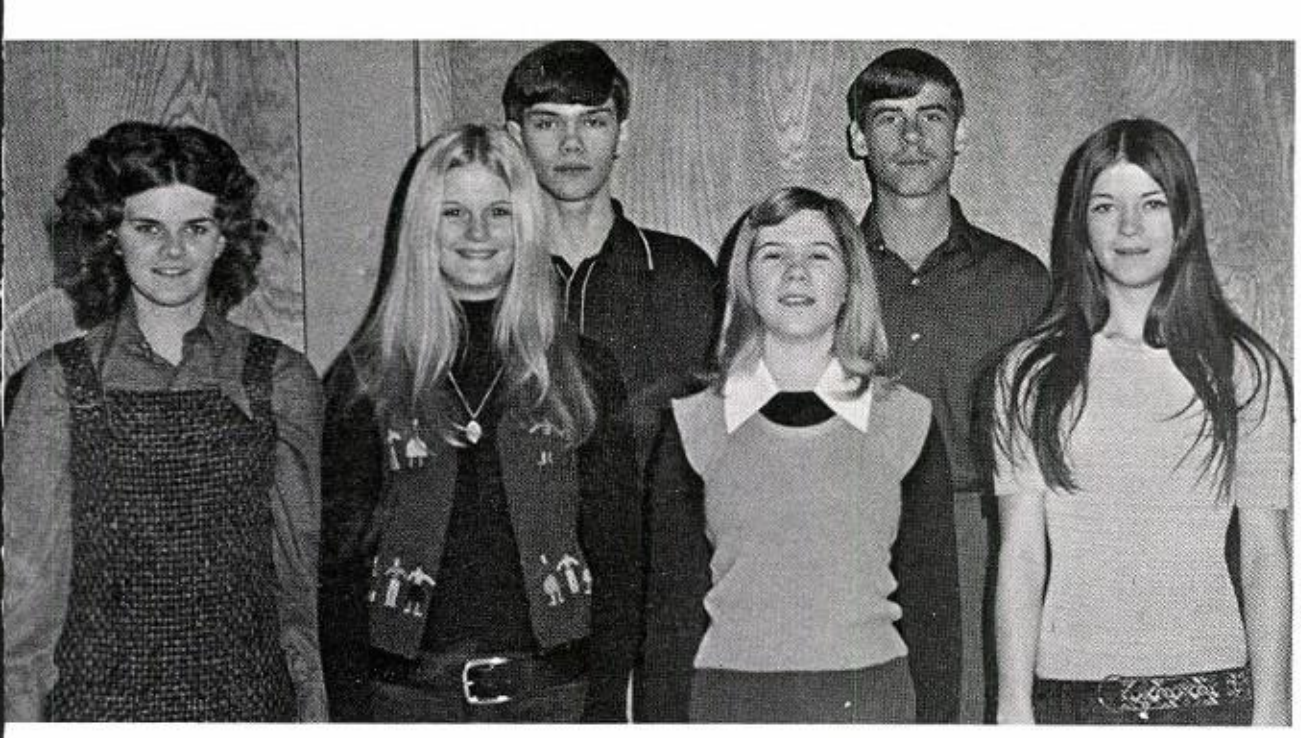
Bilingual Students Broaden Their Interests

Highlighting the lively year of the Spanish Club was a trip to Mexico. This exciting adventure was taken during Easter at which time Mr. Leroy Belcher, club sponsor, took a few of the associates. For their first meeting of the year, the club met at Mr. Belcher's home for Mexican food and games. Several times during the year they went out to eat at Mexican Restaurants in Tyler, and on April 13 a grand finale was held at Stephen F. Austin.



Opening up the year, the German Club held a picnic out at Tyler State Park. The German I club members played a football game with the associates of German II. This year at club meetings the students viewed films that were spoken in German and they studied the country in more depth. Sponsor for German is Mr. Douglas Thompson.

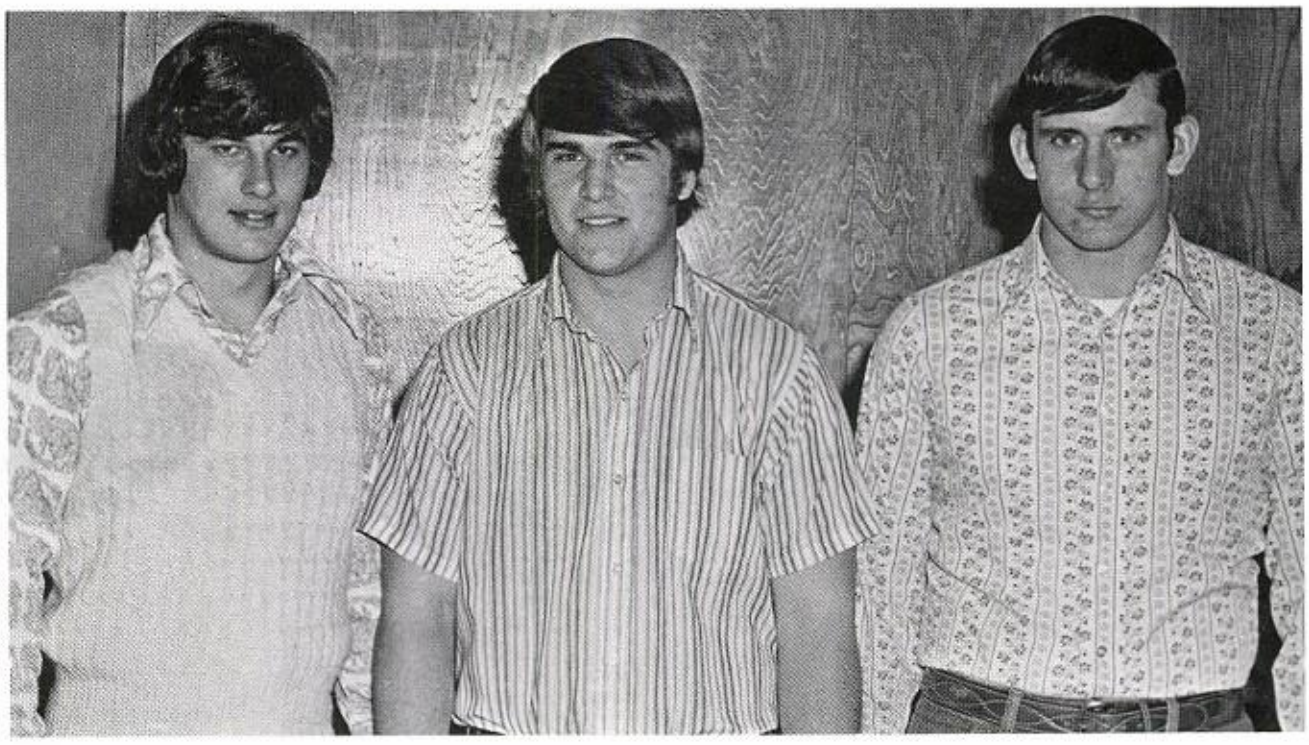
Young Men Bring About Unity



Finding man's real relationship with God was the aim of Fellowship of Christian Athletes. This club was organized so that young men could come together to thank God for helping them through each game. This organization also sponsored a chapel for the other students to attend. Promoting Christianity in the school, on the field, and in everyday life is the idea in the mind of each young athlete. Coach Royce Franklin sponsors Fellowship of Christian Athletes.

Sponsoring Junior High basketball tournaments and working in the concession stands at each home basketball game was the responsibility of the "T" Association. Every athlete who had at least one letter in any sport became a member of this organization. This club was founded to bring each athlete closer to the boys in another sport. Bringing about brotherhood and the love of mankind was the goal of the "T" Association. Sponsor is Coach Clark "Corky" Nelson.

Civitans Aid Handicapped

Finding the real meaning of helping handicapped people has been the main goal of a club recently formed at John Tyler. Most people think of a handicap as being just physically disabled. This is not so for the members of Junior Civitan. Associates of this club have discovered the fulfillment of helping an orphan and aiding the physically disabled. Two of their projects this year were serving in the clothes drive for Rusk State Hospital and putting gaskets together for Opportunities In Tyler. Members were selected for their scholastic ability, attendance, citizenship, and attitude. Not only did these people help others, but they learned to prepare themselves for adulthood. This good deed organization was sponsored by Miss Marilyn Garrard.

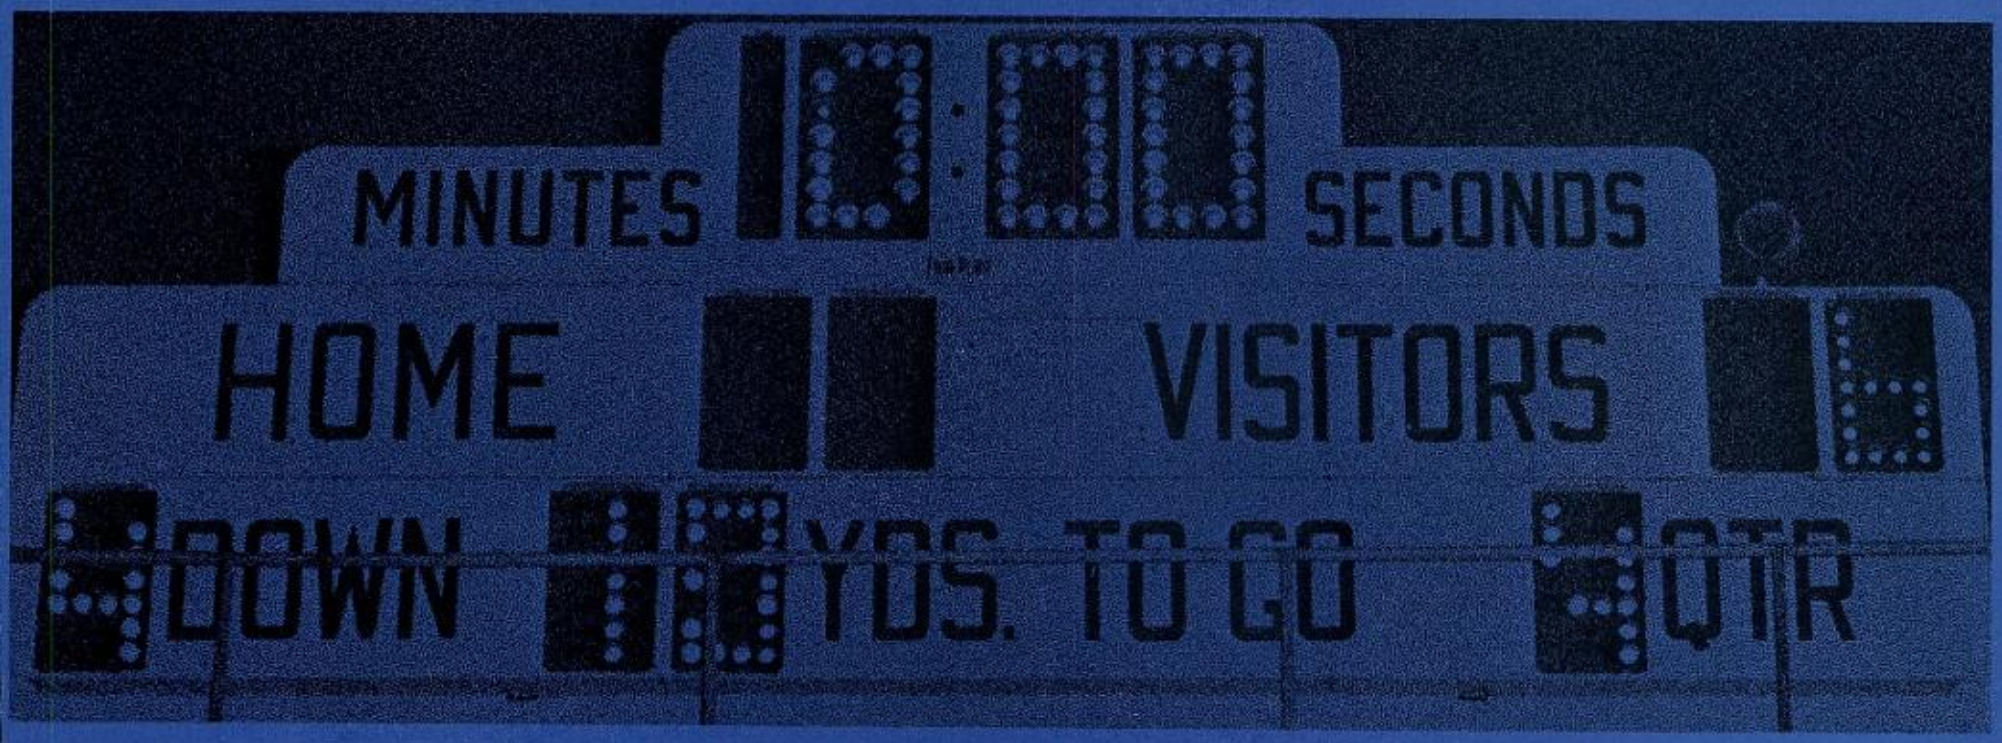
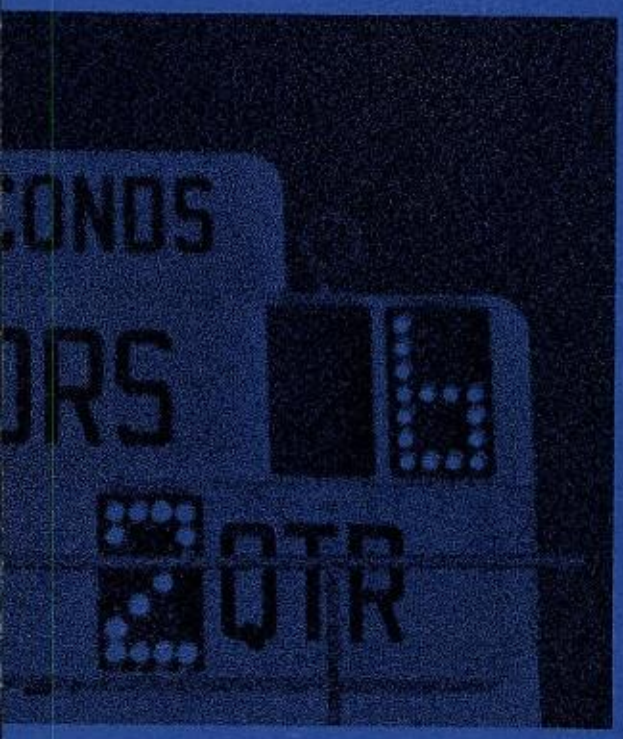
. . . COMPETE





A good time to compete, and learn the art of good sportsmanship. To learn to win, surmounting incredible odds; and to learn to lose; growing stronger and wiser. A time to attain pride in our school and pride in ourselves. Discovering that success and victory are obtained through training, self-discipline, good performance, and expert qualifications. Knowing that unity works together for a common goal, putting the triumph of the team ahead of individual honor. To impress the importance of competition upon the students, and to learn the usefulness of team cooperation.

72-73 is the Year of the Lions

For the first game of the season, the John Tyler Lions took on the Lions of Greenville High. Greenville, who scored all their points in the first half easily passed through a scanty John Tyler defensive secondary. A 31 yard aerial from quarterback Andy Cuca to tight end Alford Lee was the only score made by John Tyler. The Lions of Greenville won by 16-7.

An awesome running attack unleased by the Lions brought about an exciting evening against the Vikings of Nimitz Irving. The Lions were the first to erase the zero from their side of the scoreboard when Andy Cuca passed 13 yards to Alford Lee for a touchdown. As the action continued, the Lions racked up four more touchdowns by Earl Campbell and Andy Cuca. As the clock ticked away the final seconds of the fourth quarter the Lions stood way ahead, 35-6.

Gusty winds and temporary rain hoovered over Corscicana as the Lions had no trouble pulling out a win from the Tigers. The Lions began their first scoring drive after a fumble recovery. Quarterback Andy Cuca hit tight end Ronnie Lee with a 43 yard pass and he scampered to the goal with only a few minutes left in the first quarter. Billy Taylor made touchdowns from four and two yards out to finish up the scoring for the night. The Lions took the game from the Tigers, 18-0.

The 72-73 Football season proved to be fruitful as the mighty Lions achieved a 8-2-0 record and placed second in District. The highlight of the season was a victory over the cross-town rival Robert E. Lee.

Lions Take On District

District play began and the Lions were off to play the Tigers of Texarkana. With no points being scored in the first quarter, the Tigers came back to score all their 13 points in the second quarter and took it with them during the half. The Lions came back in the second half with fired up spirit and stalemated the Tiger attack. Tight end Alford Lee scored all points in the game. A gamble that turned out for the best provided the win for John Tyler, 14-13.

With their first district win behind them the Lions went to Longview to match up forces with Lobos. The first Lion score came in the third quarter on a 37 yard run by halfback Billy Taylor. Earl Campbell, the junior runningback, added the last six points for the Lions on an explosive 26 yard run. John Tyler failed to regain their fighting momentum in the clash and lost the game 25-12.

Lufkin Stadium seemed to be in uproar as the Panthers and Lions went out to match skill and talent. Billy Taylor made a great second and third effort and in the fourth quarter made the first socre of the game. Earl Campbell kicked the extra point. This left the Lions in the lead with 11:43 left in the game. The tough Lion defense held the Panthers until they recovered a fumble on the Lion 20 yard line. In an attempt to take the lead the Panthers tried for two points, but the pass was high and the Lions held their lead to the final gun, 7-6.

Marshall crossed paths with the Lions but could not seem to get it all together. Earl Campbell was responsible for the only scores in the first half. He kicked a field goal of 33 yards and blasted through a tackle for 30 yards of open field, which provided the Lions with a touchdown. Alford Lee intercepted two passes and ran both of them back for touchdowns. The Mavericks managed to make two touchdowns but hope was gone as the Lions went on to win the battle, 25-12.

Nacogdoches met head on with the Lions but were unable to put a halt to the charged up running attack. Andy Cuca accounted for the first touchdown by burying his head into a Dragon linebacker and bulling in from the three yard line. Earl Campbell added three more points to the score by kicking a 17 yard field goal. In the second half Billy Taylor and Earl Campbell went over for two more touchdowns as the Lions whisked away with the game, 24-6.

The Wildcats of Palestine were easily manhandled by the Lions as the John Tyler running attack battered away at the Wildcat defense. The first touchdown by the Lions took place when Earl Campbell ran 71 yards for pay-dirt. After that, there seemed to be no end to the scores stashed away by the Lions. With only a couple of minutes left in the game, Alford Lee ran in for the touchdown and Junior runningback Bruce Messer crossed over for two points to halt the scoring for the night, 56-7.

Lions Smother Lee

Cold, rain and excitement were words that could have described the scene at Rose Stadium on November 17. The battle between cross town-rivals John Tyler and Robert E. Lee would climax the exciting season. Defense seemed to be the name of the game as the Lions picked off four Red Raider passes. Quarterback, Andy Cuca sent senior runningback Donnie Jones over for six points and the lead. Lee had several late game opportunities but a stout Lion defense refused to yield a sustained drive. As a result the Red Raiders had to settle for a loss and the Lions took home with them the City Championship as well as the taste of sweet, sweet victory. 6-0

Coaches Show Pride

Football is a sport that requires much hard work, both physically and mentally. The hours are late each day but are filled with the gaining of knowledge as well as experience. With the signing of four new coaches and the building of a $100,000 field house, these combined, brought about much enthusiasm to the players as well as the coaches.

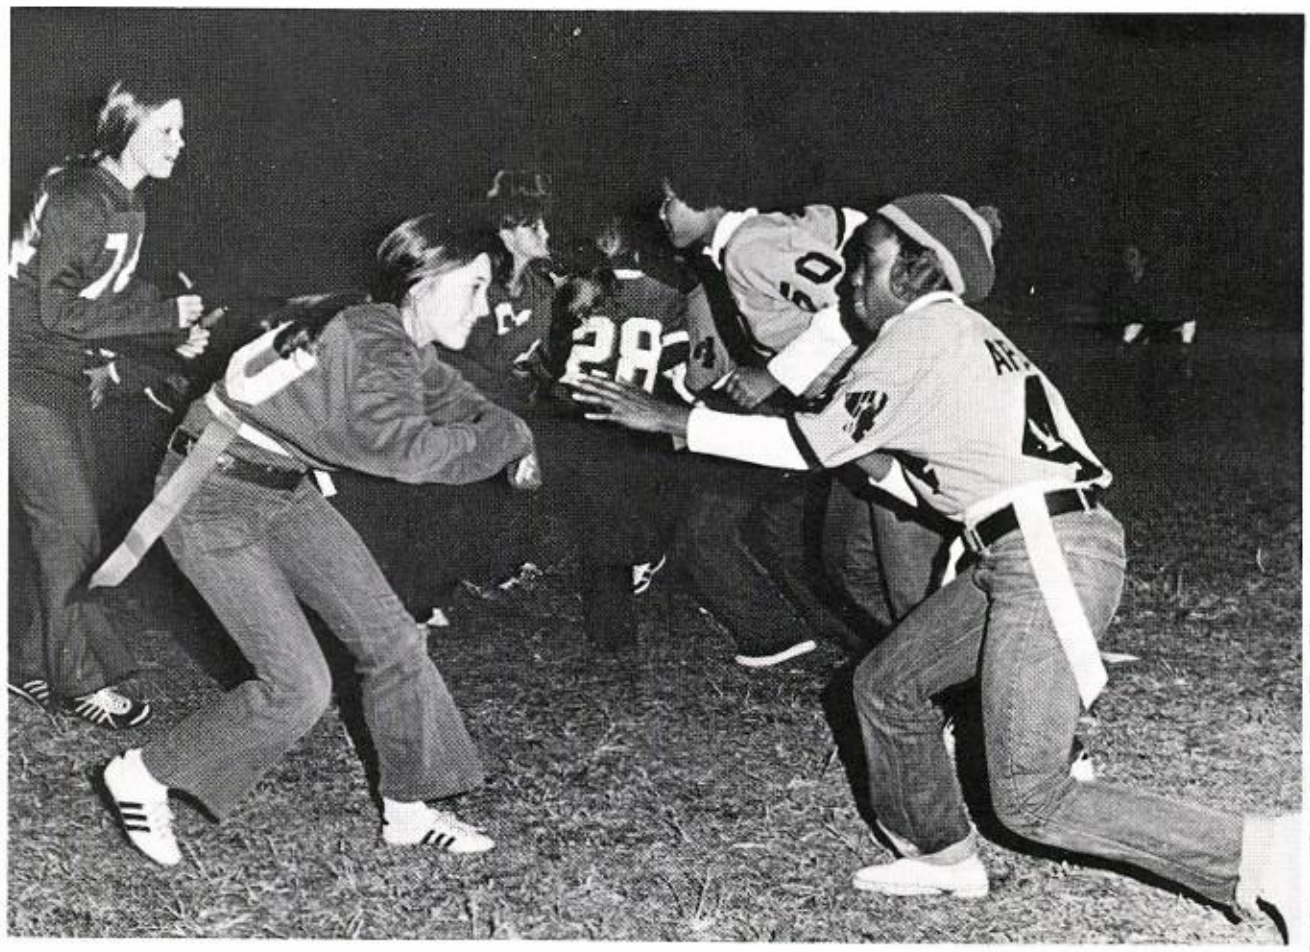
Seniors Steal Powder Puff Crown



Students exchanged positions as the time of the annual Powder Puff game drew near. Girls dressed in jerseys and boys clothed in skirts and wigs were the familiar sights of the upcoming game. The Junior girls threatened to score twice but were stopped both times as the Senior 'women' went on to win by the score of 6-0.

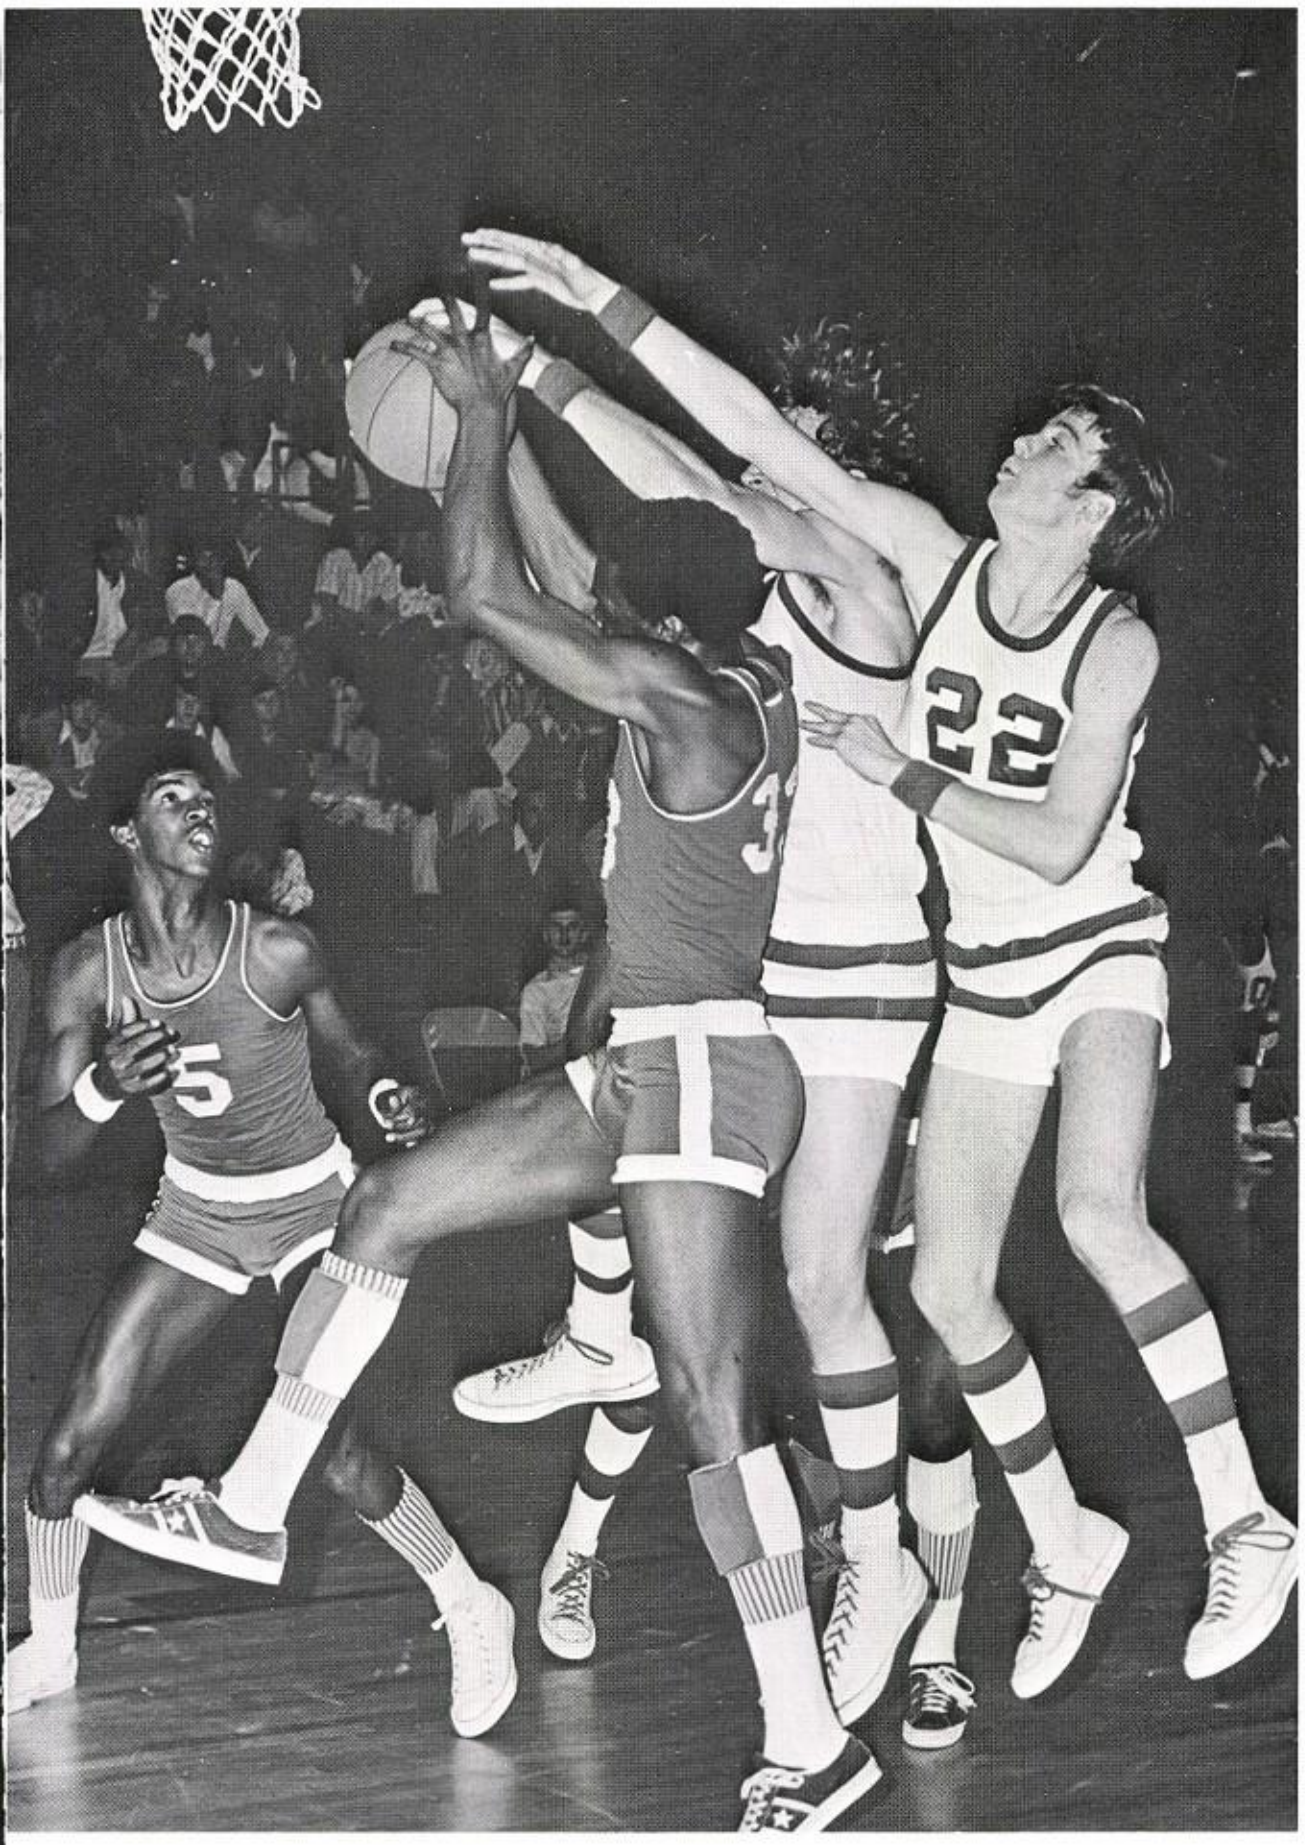
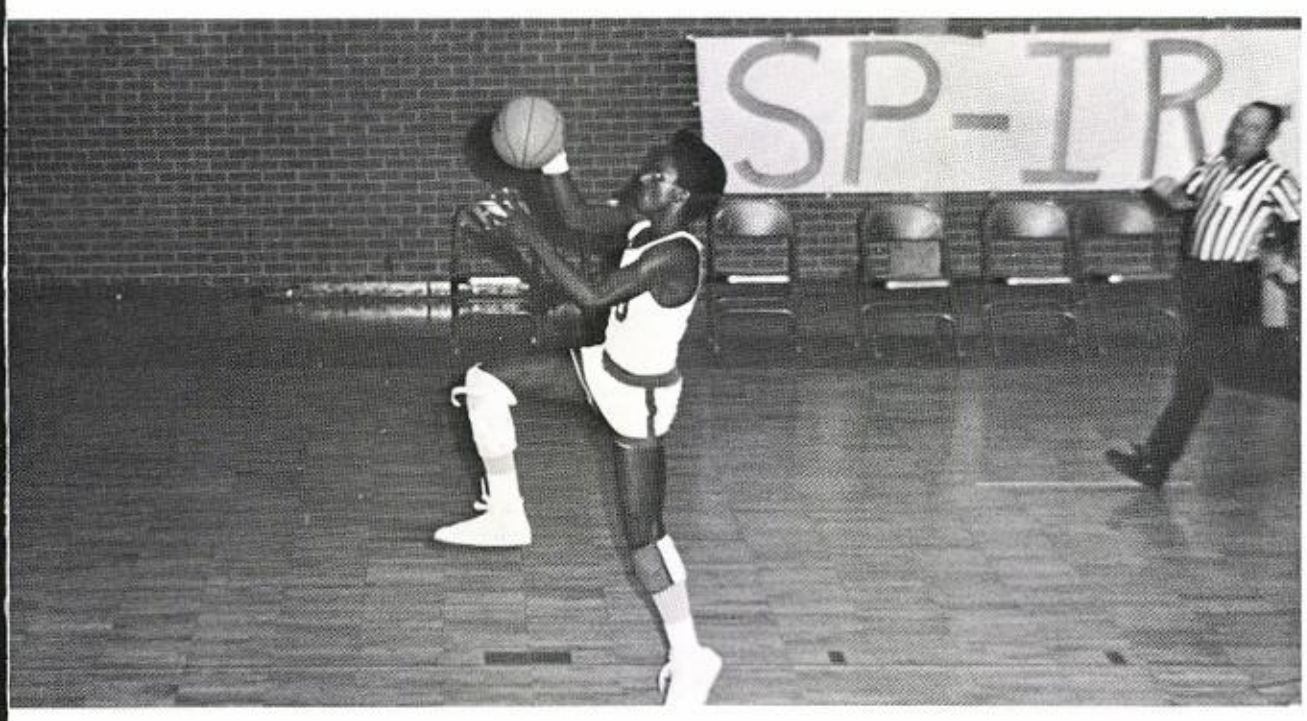
Lions Are City Champs

Basketball workouts began early in October. It was a very busy time with everyone who was trying to make the team doing his best. After picking only the outstanding to be the Lion Cagers, the workouts didn't ease up; if anything, they got harder because the first game of the season was on the 18 of November against Wills Point. Even though they were defeated that first game it did not dampen their Lion spirit. They finished the season with a 8-6 conference record and a 14-10 season record. They defeated Robert E. Lee everytime they came up against them. Making the Cagers, along with the football team who also defeated Robert E. Lee, the City Champs.





Left: Dewayne Morgan (30) "Skips" down court for an easy shot.

Go Blue!

Lion Cagers did a superb job in defeating Robert E. Lee twice during the conference games with the scores of 73 to 66 and 64 to 53. The Cagers outplayed Robert E. Lee once more in the T.J.C. Tournament by the score of 73 to 64. The courageous Cagers worked hard to earn the title of "City Champs."

Cubs Are First In District

Pride and hope, along with a lot of hard work, made 1972-73 an excellent year for the Lion Cubs. They were first in district with a 14-0 record and a 24-3 record for the season. A man partially responsible for this was Coach Bill Parks. With only two returning players, he led the Cubs through a rewarding season to come out on top. The Cubs hope to keep their record next year as they become the proud and mighty Lions of "74".

Putters Drive

Broken down into three main parts, golf consists of driving, chipping, and putting. Members of the John Tyler Golf Team spent many hours each day practicing these strokes and putting them to use on the Bellwood Golf Course. The hard work paid off when before each tournament, the five best players were chosen to participate. Under the direction of Coach Raymond V. Lewis, the team prospered.

Track Team Strives To Be JT's Best

Each man in this world has a certain amount of endurance to which he must survive day after day. One man's endurance may be greater than anothers and this is what makes the track season so great. Each year, 20 or more boys gather around the track, limbering up and stretching muscles in order to better themselves in each of their special events. Many hard hours were put into this sport so as to build a person of average stature into the determined athlete that track requires. Testing the endurance of an individual helps to make him grow stronger, physically and mentally.

Swim Team Is Underway

Being the second year for a swimming team at John Tyler it wasn't such a bad year. Last year there were only two members on the team, Ronald and Reggie Ross, who were juniors in 1972. This year the new addition to the team was sophomore Holly Womack. The team originated from the Y.M.C.A. under the swimming coach at Robert E. Lee, Mr. Theron Pickle.

Team Swings Into Action

Strikes, double plays, fouls, home-runs, practices, winning, losing, and bat girls; all come with the game of baseball. Baseball was a lot of hard work and practices, but the joy of winning made it worth the players while. Also, bat girls made the game a little more enjoyable. This was our second year to have bat girls and they put an extra spark in the game, making it, always enjoyable before, a little more so now.

. . . BE OURSELVES

A time to prove that we are individuals—having our own ideas and abilities. A time to show that we can make decisions, expanding our minds to a greater capacity of learning. Each following his own calling—creating his own dream—building his own world. Showing that we have a purpose for living through our actions, emotions, appearances, and beliefs. To grow—learning responsibilities, and gaining considerable knowledge in three short years.

Seniors Build Memories

As the school year ended, the class of Seventy Three looked on it as a time to remember. Reminiscing back through the year, graduation was certainly a dream come true. The year held many pleasant memories for the 468 Seniors, such as the sweet taste of victory over the cross town rivals, and the triumph over the Junior Girls at the Annual Powder Puff Football Game. Coming to the close of the year, caps and gowns were ordered, as well as invitations sent. The big day came and went, and each went his own way, but the many memories of J.T. will always be vivid!

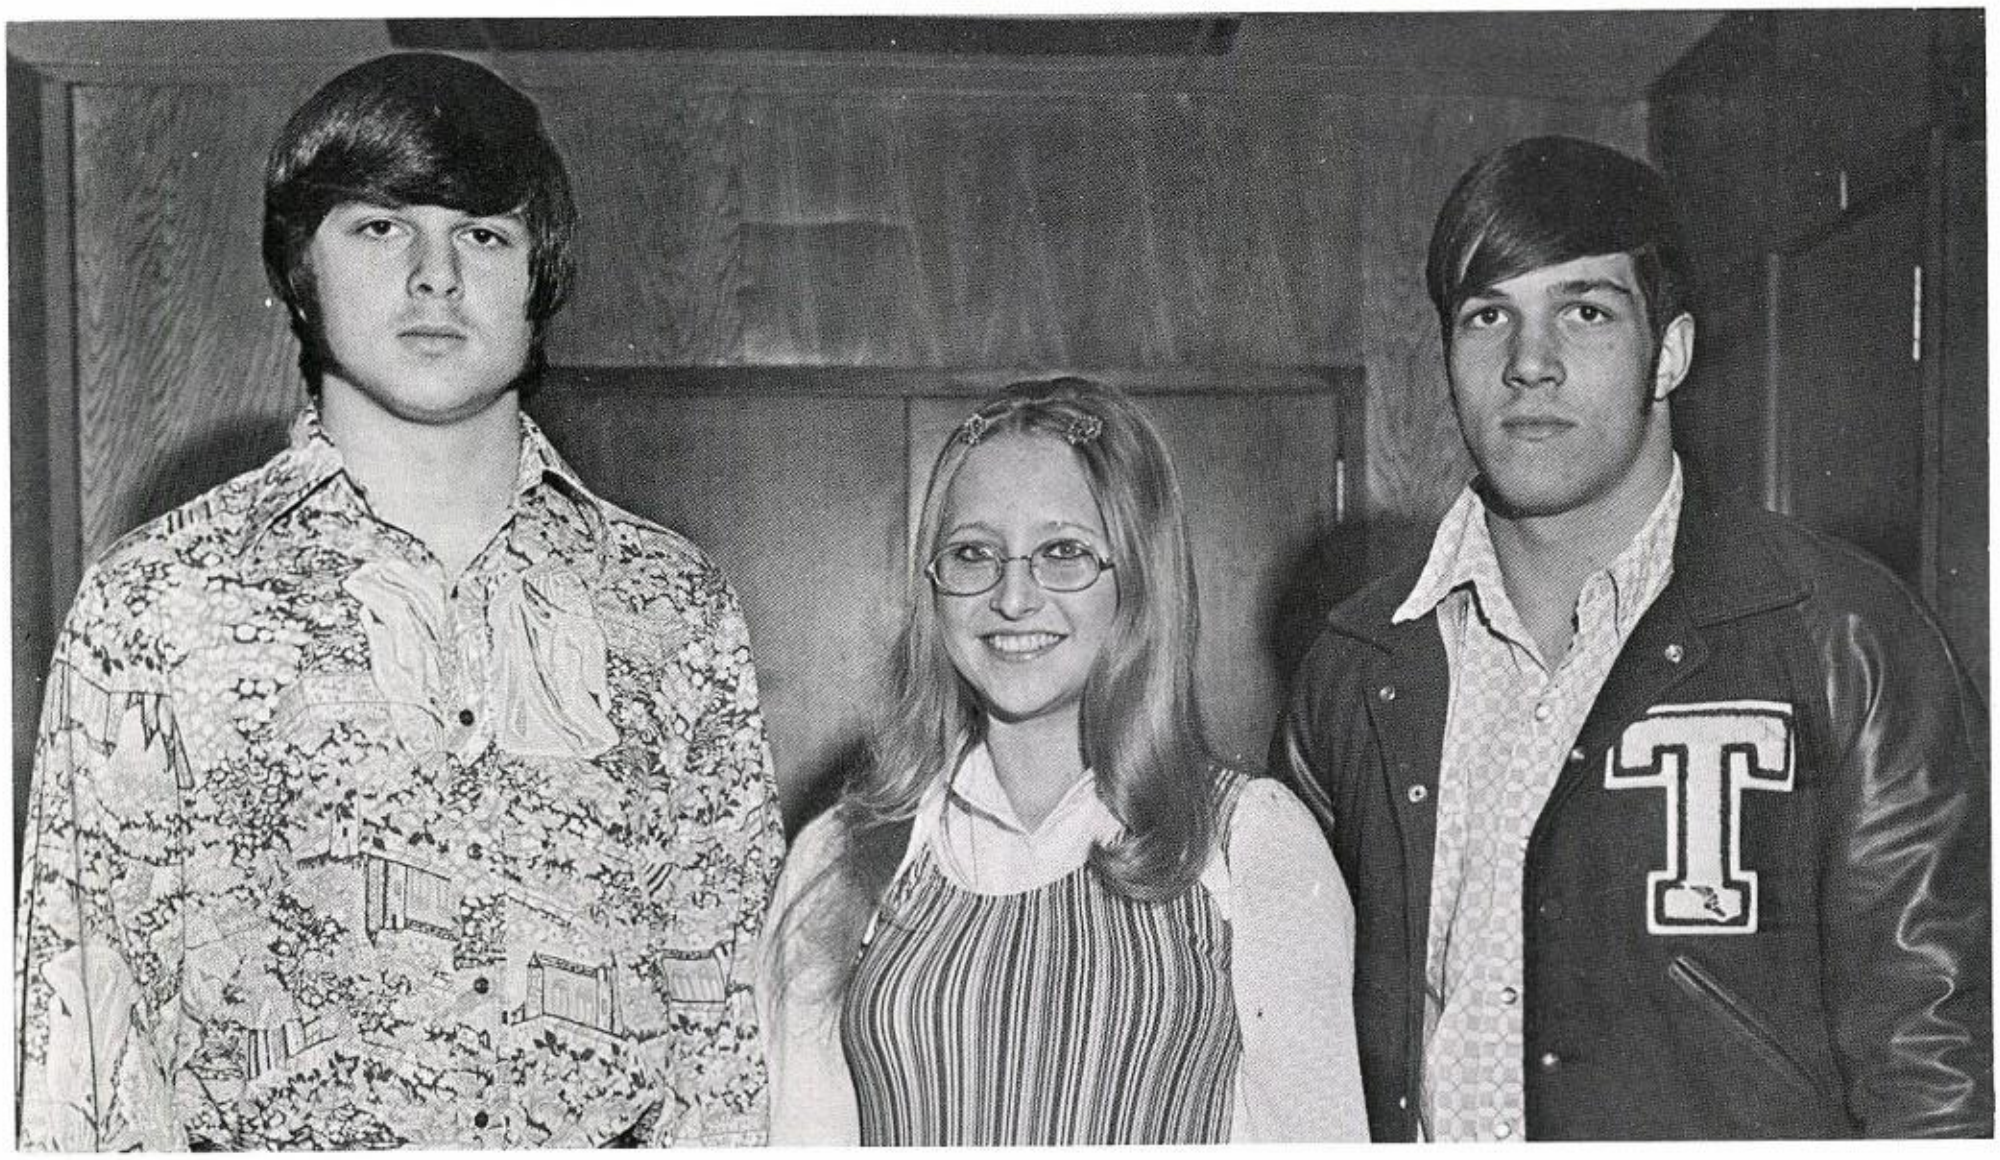
Juniors Uphold Class Traditions



"Only one more year to go!" This thought filled the minds of many of the 541 Juniors as their second year at John Tyler ended. During the second semester, Juniors ordered their class rings. This was one of the highlights of the year. They also participated in the annual Powder Puff Football Game. Another tradition that the Junior Class upheld was the Sadie Hawkins Dance. For most of the class, 1973 was a very active year—holding many pleasant memories.

Top: Officers for the Junior Class are Rick Ford, President; Judy Mathis, Secretary, and Scott Baker, Vice-President.
Above: Denise Coffin helps Donna Kimbrell with her American History assignment.

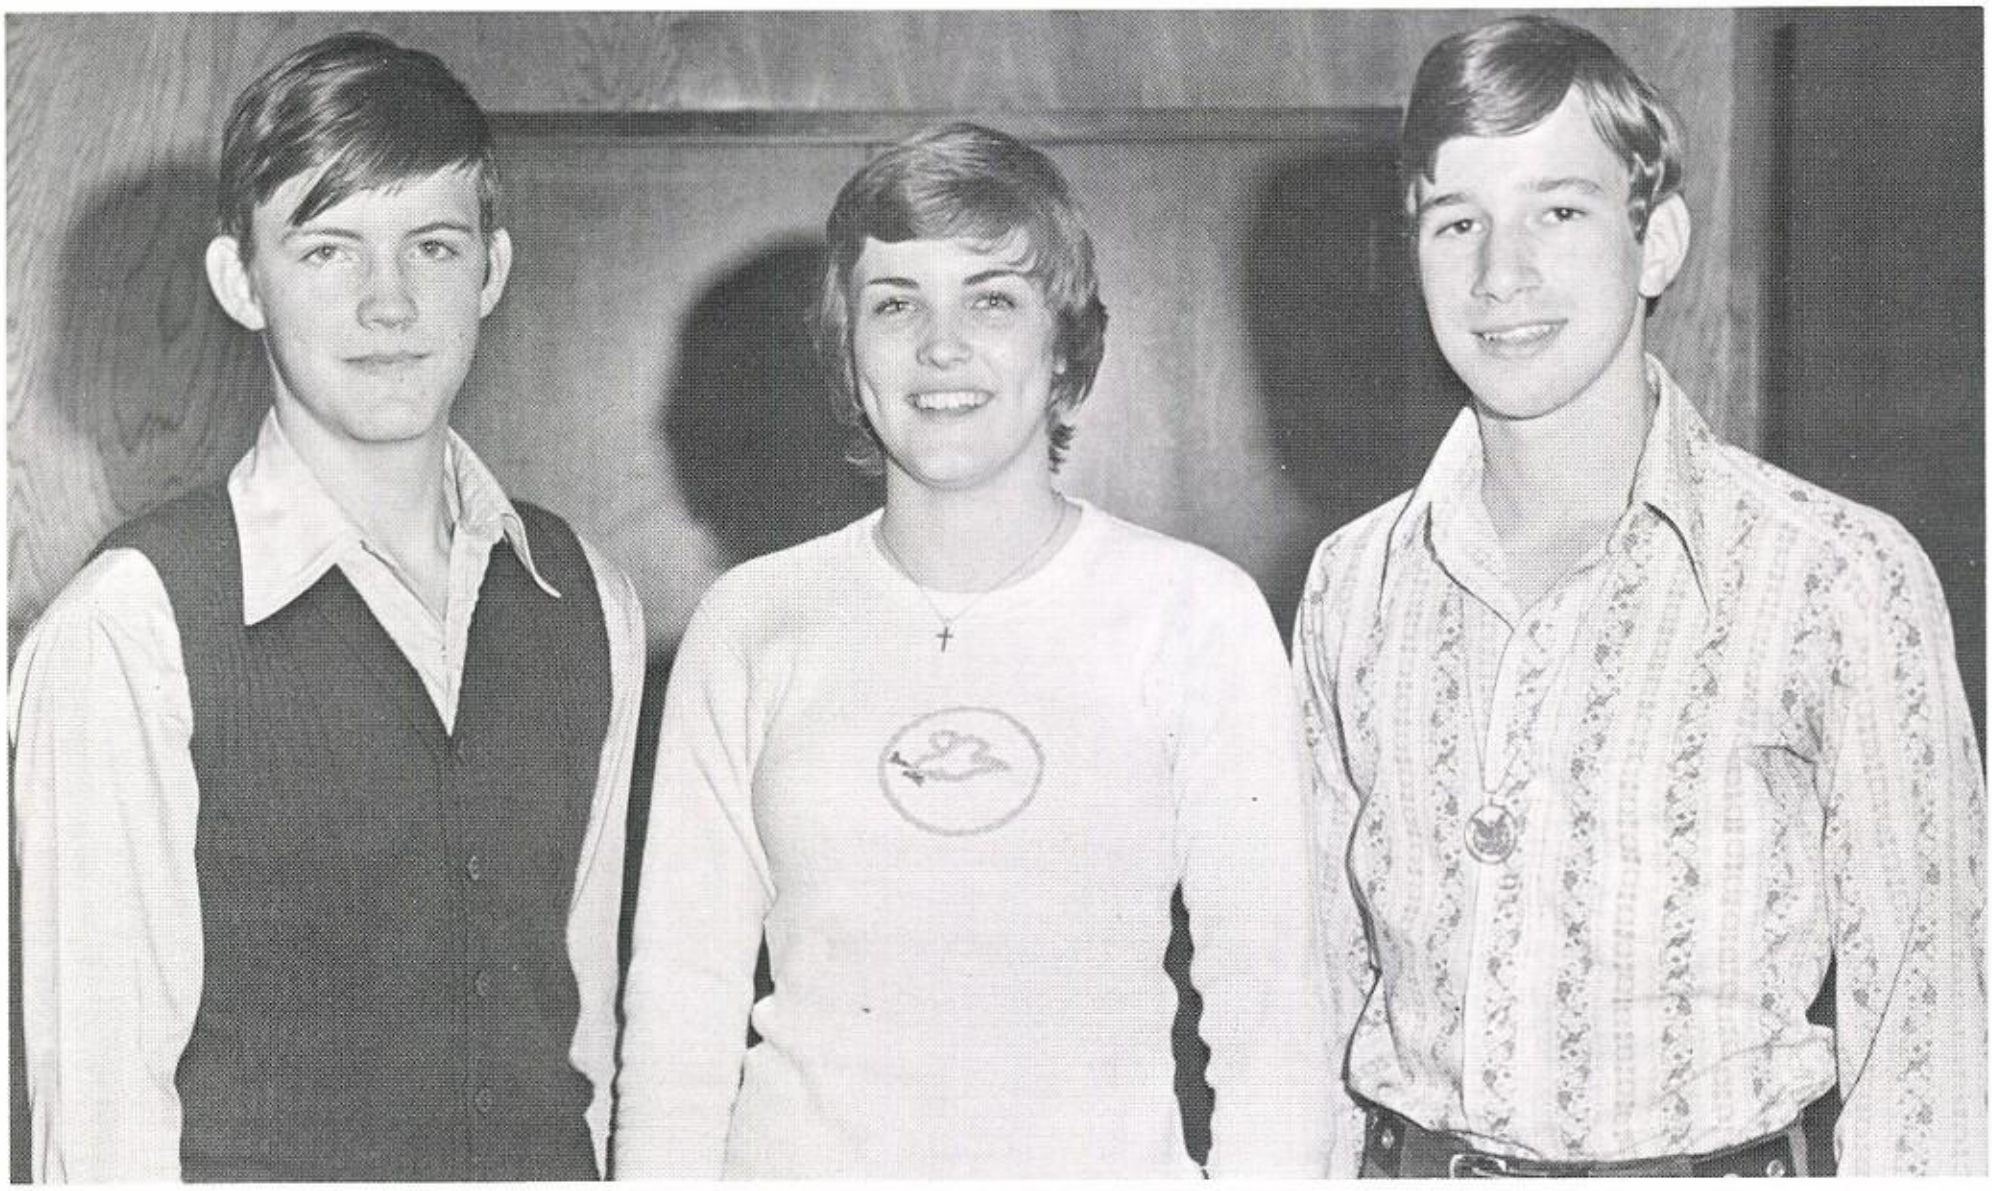
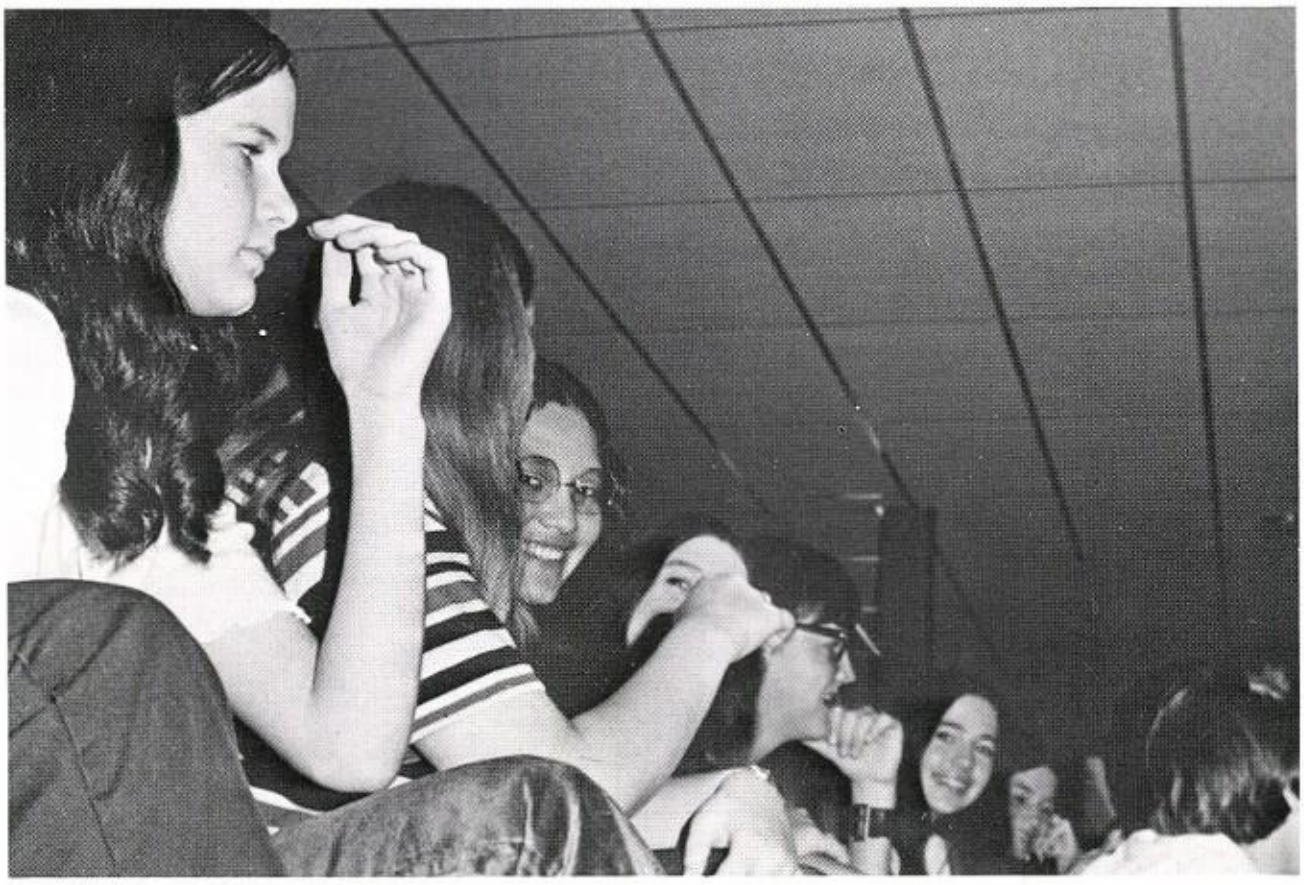
Sophomores Face A Brave New World



For 632 Sophomores at John Tyler, 1973 was a totally new experience. They went through the various stages of being a Sophomore. Finding their way around, getting involved, and meeting new people were among their greatest accomplishments. As the largest of the three classes at John Tyler, this class was composed of some very outstanding students. Contemplating their futures, they proved to be very conscientious. With the new problems and situations that faced them, the Sophomores seemed to handle them with much ease.



Top: Sophomore Officers are Tony Fears, Vice President; Holly Womack, Secretary; and Joe Beall, President.
Above: Melea Swann, Ilene Jordan, Susan Gomez, Laura Worthen, Tony Fears, and Javelle Gaiser seem very enthused as they listen attentively to the Sophomore Orientation.

. . . SERVE

To administer to the populace, meeting the needs of those whom you serve. To learn to accept people—their likes and dislikes—living in a closer relationship because of it. While businesses thrive on serving the public—the public could not survive without the businesses. Each is a unit separate and apart, but each is dependent upon the other. There is a time to serve and a time to be served, for each is of great importance.

"This Is Our Time". This was found true by the Alcalde Staff in more ways than one during the '72-'73 school year. Although the year proved very rewarding, the staff could not have edited this book without the help and understanding of all concerned. We would like to thank Mr. Alvis Hanna, Mr. Alvin Anderson, Mr. Clifford Baker, Mrs. Dorothy Atwood and the office and library staffs for their assistance. For guidance in the photographic field, we wish to thank Mr. Roland Crawford and Karl's Camera and Cards. Our sincere appreciation to Mr. W. A. Christian, Mr. Bill Henderson, and the staff of the Henington Publishing Company. We also want to thank the faculty, students and advertisers for their cooperation with us.

This Is Our Time . . .

. . . to meet, grow, encounter, question, live. The 1972-73 school year held numerous opportunities and many new ideas for the students of John Tyler. Although this year ended one way of life for some students, it was only the beginning for others. As the year began– a number of changes both in our school, in our city, in our nation, and in the world were witnessed. Beginning school on August 28, students noticed marked changes at John Tyler–The students added new spirit to the school developing a sense of involvement and participation as they contributed their part in making this school year, 1972-73, a most rewarding one.

As the year progressed, many issues both schoolwide, citywide, nationwide, and worldwide were presented, questioned, viewed, and discussed. For the first time in the history of our country, 18 year olds were given the right to vote in a national election. President Richard M. Nixon was re-elected for four more years to the office of President of the United States of America. Also, the United States Space Program Apollo Flight Series came to a close after successfully putting men on the moon. Later in the year the nation was saddened by the passing of two former presidents– Harry S. Truman and Lyndon B. Johnson. However, spirits were lifted as the Viet Namese War was brought to a close, not long after. This affected many people at John Tyler, because many had family or friends who were involved in the war. These and many more, made this year one to

remember for– **This Is Our Time.**

Above: The flags of John Tyler were lowered to half-mast during December and January to mourn the passing of former Presidents Harry S. Truman and Lyndon B. Johnson.

To everything there is a season;

And a time for every purpose under the heaven:

A time to be born, and a time to die;

A time to plant, and a time to pluck up;

that which is planted;

A time to kill, and a time to heal;

A time to break down, and a time to build up;

A time to weep, and a time to laugh;

A time to mourn, and a time to dance;

A time to cast away stones, and a time

to gather stones together;

A time to embrace, and a time to

refrain from embracing;

A time to get, and a time to lose;

A time to keep, and a time to cast away;

A time to rend, and a time to sew;

A time to keep silence, and a time to speak;

A time to love, and a time to hate;

A time of war, and a time of peace.

Carolyn,

Hidy! Well really don't know where to begin. I mean after all, a lot's happened in four years.

Butch + Randy + Bill
Jim + Richard
Steve + Brian
John + Jony + Mike + Mickey
Harold + Randy! James

Well, anyway, you know what all those names mean. We've been through so much together or should I say endured so much!

We've done some really crazy things in the past, but I have a feeling we've just begun.

Let's don't ever let anything come between us! After all, who could ever take our places with each other? As far as I'm concerned, no one can ever take your place with me.

Too many plans have been made for us to abandon them now. So let's go through with them! I can't wait - How about you?

Well, I know this isn't the whole page yet but I better stop remembering before I get myself in trouble. Be good and if you can't manage that - Be careful! When you finally decide who you want, hang on to him with both hands!

Be yourself completely - no matter what anyone thinks.

Hook 'em Hippies!

Love ya,
Kandy

PEACE...

Carolyn,

Its been great knowing you these past years. And glad we got to become friends. Good Luck in the future. Remember me always and period 5 Mr. Hubbs Math class.

God Bless ya

Love ya

See ya around.

Bat (Barbara Tate)

Carolyn, Have Lots of Luck in the future. Always remember me and all the good times we had in Mr. Hubbs' class. Keep your head up and don't let anyone put you down.

Carolyn,
It's been a lot of
fun getting to know
you this year - even
though we were over lunch!
These years (it was over
in two years) at J.T. have been
fun and at the same time
I have a lot of fun
in touch. Good luck in the future in everything
that comes along.

Love,

I have enjoyed knowing you this
year. You are really a great person
& I'll miss you next year.
Let you down. You really deserve it.
